VOLUNTARY ANNOUNCEMENT

FIRST-TIME SECURING VEHICLE MODEL PROJECT DESIGNATION FROM A LEADING INTERNATIONAL GERMAN AUTOMAKER

This announcement is voluntarily made by Jiangsu New Vision Automotive Electronics Co., Ltd. (the “**Company**”, together with its subsidiaries, the “**Group**”) to inform the shareholders and potential investors of the Company of the latest business development of the Group.

The board of directors of the Company (the “**Board**”) is pleased to announce that the Company has entered the global supply system of a leading international German automaker (the “**Customer**”)¹ for the first time and secured a project designation from the Customer for one of its vehicle models targeting the global market. The Company will develop and supply HUD (head-up display) products for the Customer. According to the Customer’s plan, mass production is scheduled to commence in 2028.

The project designation notice represents significant progress in the Company’s implementation of its internationalization strategy, marking that the Company’s technological capabilities and product quality have been recognized by a leading overseas OEM (original equipment manufacturer), further extending the Company’s competitiveness to the global market and validating the feasibility of its development model of “China Intelligent Manufacturing + Global Localized Delivery”. The Company will continue to expand its first-mover advantage as an industry pioneer, with the two key strategic directions of “breakthroughs in the supply chains of international premium automakers” and “strategic synergies with the overseas expansion strategies of Chinese automakers” reinforcing each other and advancing in coordination. The Company will further enhance its responsiveness to global customers and service quality and bring China’s leading HUD technologies and solutions to the global market.

¹ Due to confidentiality requirements, the name of the Customer has been withheld in this announcement.

RISK WARNING

There are uncertainties regarding the subsequent implementation of the project designation notice. The actual supply volume and value may be affected by factors including the macroeconomic environment, exchange rate fluctuations and the actual demand of the Customer, and are therefore subject to uncertainties. The Company will strengthen risk management and control to mitigate risks that may arise from market fluctuations.

BUSINESS OF THE GROUP

The Group is committed to the research and development (“**R&D**”) of HUD solutions and adheres to the core philosophy of “user experience design”. At the solution definition stage, the Group works closely with OEMs in co-creation to develop new vehicle models featuring deeper human-vehicle interaction and enhanced intelligent driving experiences. Upholding its corporate mission of “To show a better world with technology and innovation”, the Group supports its international operations through a global collaboration mechanism and accelerates the development of a global footprint driven by the dual engines of “China + Overseas” and integrating R&D, production and sales, whilst it moves towards becoming a world-leading visual and interactive technology company.

Shareholders and potential investors of the Company are advised to exercise caution when dealing in the shares of the Company.

By order of the Board
Jiangsu New Vision Automotive Electronics Co., Ltd.
Mr. Zhang Tao
Chairperson of the Board and Executive Director

Hong Kong, 8 September 2026
