VOLUNTARY ANNOUNCEMENT
UPDATE ON PRODUCT DEVELOPMENT

The board of directors (the "Board") of SSY Group Limited (the "Company", together with its subsidiaries, the "Group") is pleased to announce that the Group has obtained the approval for drug production and registration for Letermovir Injection (12ml:240mg) from the National Medical Products Administration of China, being under type 4 chemical drug and regarded as passing the consistency evaluation.

Letermovir Injection is mainly used in adult recipients who are serologically positive for cytomegalovirus (CMV) after allogeneic hematopoietic stem cell transplantation for prevention of CMV infection and CMV disease. Letermovir Injection is used together with basic intravenous infusions during the perioperative period of hematopoietic stem cell transplantation. Leveraging its existing advantages in basic intravenous infusions, the Group continues to improve its pipeline of therapeutic injectable products. This approval further enriches the Group's perioperative product portfolio.

This announcement is a voluntary announcement made by the Company to keep the shareholders and potential investors informed of the latest business development of the Group.

By order of the Board
