Tu Yi Holding Company Limited (the “**Company**”) and its subsidiaries (the “**Group**”) is a well-established comprehensive travel products and services provider in both the People’s Republic of China (the “**PRC**”) and Japan, focusing on the design, development and Sale of Japan outbound travel package tours and day tours and outbound free independent traveller products (the “**FIT Products**”); the provision of visa application processing services and other ancillary travel-related products and services; the operation of an online store retailer for Japanese-lifestyle-oriented products and its e-commerce business platform – the online cross-border duty-free shop business under its brand “Direct Courier from Shop Manager” (店長直郵) (the “**Duty-free Shop Business**”); the operation of self-owned Shuzenji Onsen Hotel Takitei (the “**Shizuoka Hotel**”) and Hotel Comfact (the “**Tokyo Hotel**”) in Japan (collectively, the “**Hotels Operation**”); and the provision of tour-related catering services in Japan. During the six months ended 30 June 2026, the Group continued to leverage on its well-established product capacities and networks in Japan, the strong demand in inbound travel to Japan and the growing overseas demand for curated Japan itineraries, and achieved increases in overall revenue and net profit attributable to equity shareholders of the Company by approximately 1.7% and approximately 14.9% respectively when comparing to the corresponding period of 2025. The sales of package tours and day tours business segment has been the Group’s strategic focus and it contributed approximately 87.7% of the Group’s revenue during the Period Under Review. The gross profit margin of sales of package tours and day tours increased by approximately 1.5 percentage points, from approximately 25.5% in the first half of 2025 to approximately 27.0% in the first half of 2026, which increased the overall gross profit margin by approximately 0.3 percentage point to approximately 30.5%. In view of retaining sufficient liquidity for future growth and expansion, the Board does not recommend the payment of an interim dividend for the six months ended 30 June 2026 (six months ended 30 June 2025: nil).

### BUSINESS REVIEW AND PROSPECTS

During the Period Under Review, the Group continued to advance its strategic directions of quality and efficiency enhancement, footprint expansion and experience optimisation across its integrated Japan travel ecosystem, and made solid progress across each of its business lines.

In its core package tours and day tours business, the Group deepened its cooperation with online travel platforms, increased the number of self-operated stores and continued to broaden its customer lead channels. The Group further expanded its self-owned vehicle fleet and tour-guide team, maintained the steady operation of its one-day tours, and accelerated the roll-out of two-day tours, customised tours and study tours, resulting in an increasingly diversified business structure. To increase buffer capacity and reduce reliance on outsourced transportation, the Group’s newly-acquired Tokyo vehicle company joined the Group during the Period Under Review, with its service coverage extending across core metropolitan areas including Tokyo and Osaka, thereby strengthening the Group’s reception capacity and service reliability.

In its Hotels Operation, through refined management and experience optimisation, the occupancy rates of the Group’s core hotels, including the Shizuoka Hotel and the Tokyo Hotel, remained steady with an upward trend, and customer satisfaction continued to improve. In its Duty-free Shop Business, the recovery of global tourist flows drove a notable increase in store sales. In its newly-launched catering business, the Group’s KinFuji (金富士) restaurant in the Mount Fuji area achieved a steady growth in average daily customer rates, obtained seven wagyu-beef specialty authorisations and entered into long-term strategic cooperation with a number of international travel platforms, further enriching the Group’s end-to-end customer experience.

## MANAGEMENT DISCUSSION AND ANALYSIS

Looking ahead to the second half of 2026, the Group will continue to pursue its three strategic directions of quality and efficiency enhancement, footprint expansion and experience optimisation, and will focus on the following key initiatives:

- commencing the second-phase expansion of its restaurant business and planning a new integrated complex project, with a view to creating a “dining plus shopping” integrated consumption scenario and realising greater synergies and commercial value;
- actively exploring new travel destinations, for which substantive preparatory work is already underway and which is expected to become a new growth driver for the Group; and
- acquiring additional vehicles to further expand its self-owned fleet in order to support the growing service demand and its regional expansion objectives.

Backed by an integrated value chain spanning transportation, hotels, catering and retail, a solid financial foundation, agile market strategies and a strengthening brand, the Group is well positioned to capture industry growth opportunities in the second half of 2026, deliver higher-quality development, and generate sustained, attractive returns for shareholders and investors.

## Sales of package tours and day tours and margin income from sales of FIT Products and provision of visa application processing services (net basis)

The Group is a well-established and active outbound travel products and service provider in the PRC, focusing on the design, development and sale of Japan outbound travel package tours and day tours and outbound FIT Products, and the provision of visa application processing services and other ancillary travel-related products. The Group's package tours generally comprise flights, hotel accommodations, meals, transportation and sight-seeing activities as a bundled package and are accompanied by tour escorts from departure till return to the PRC, and they range from standardised package tours to tailor-made and customised tours for customers with specific requirements. The Group's day tour products generally consist of day tours ranging from one day to six days, which mainly target travellers who are neither package tours nor FIT Product customers and have purchased air tickets/hotel accommodations separately, but wish to participate in local day tours.

During the Period Under Review, revenue from sales of package tours and day tours increased by approximately 0.3% to approximately RMB142.5 million when comparing to the corresponding period of 2025, which was primarily due to the Group's continued expansion of its day tours business through cooperation with various overseas travel partners and the landing on various travel channels. The gross profit margin of this segment increased by approximately 1.5 percentage points to approximately 27.0% (six months ended 30 June 2025: approximately 25.5%), primarily due to the increase in buffer capacity and the greater use of the Group's self-owned transportation, hotel and catering resources, which lowered per-passenger costs and reduced reliance on outsourced services. Margin income from sales of FIT Products (net basis) increased by approximately 8.8% to approximately RMB1.6 million, while margin income from the provision of visa application processing services (net basis) decreased by approximately 62.8% to approximately RMB0.4 million.

## Hotels Operation – Japan

The Group operates its self-owned Shizuoka Hotel and Tokyo Hotel. During the Period Under Review, revenue from the Hotels Operation amounted to approximately RMB11.8 million, representing a decrease of approximately 11.4% when comparing to the corresponding period of 2025. Notwithstanding the decrease in revenue, the gross profit margin of the Hotels Operation improved to approximately 63.4% (six months ended 30 June 2025: approximately 62.1%), primarily as a result of refined management and experience optimisation across the Group's core hotels.

## Duty-free Shop Business – Japan and the PRC

The Group operates its Duty-free Shop Business in the premises of the Tokyo Hotel, together with its online Duty-free Shop Business under the name "Direct Courier from Shop Manager" (店長直郵). During the Period Under Review, revenue from the Duty-free Shop Business amounted to approximately RMB1.0 million, representing a decrease of approximately 44.1% when comparing to the corresponding period of 2025, and its gross profit margin was approximately 52.6% (six months ended 30 June 2025: approximately 61.1%). Notwithstanding the decrease in reported revenue, the recovery of global tourist flows and the systems upgrade of the online platform supported user engagement during the period.

## MANAGEMENT DISCUSSION AND ANALYSIS

### Provision of tour-related catering services

During the Period Under Review, the Group commenced the provision of tour-related catering services through its self-operated Kinfuji (金富士) restaurant in the Mount Fuji area, which serves both tour guests and the general public. This new business segment contributed revenue of approximately RMB5.2 million with a gross profit margin of approximately 29.6% (six months ended 30 June 2025: not applicable), enriching the Group's end-to-end customer experience and supporting the growth of its day tours segment.

### Selling and distribution expenses

Selling and distribution expenses decreased by approximately 40% to approximately RMB5.5 million for the Period Under Review (six months ended 30 June 2025: approximately RMB9.3 million), primarily reflecting the Group's more efficient marketing and channel management.

### Administrative expenses

The Group's administrative expenses increased by approximately 10% for the Period Under Review as compared to that of the corresponding period of 2025. This increase was consistent with the continued expansion in the Group's business scale, including the establishment of the Tokyo vehicle company and the commencement of the catering business, and was primarily attributable to the reasons mentioned in the business review above.

### Financial resources

As at 30 June 2026, the Group had cash and cash equivalents of approximately RMB30.2 million (31 December 2025: approximately RMB39.6 million) and pledged short-term bank deposits of approximately RMB1.5 million (31 December 2025: approximately RMB1.5 million). The Group had interest-bearing bank borrowings of approximately RMB35.8 million as at 30 June 2026 (31 December 2025: approximately RMB41.7 million), of which approximately RMB15.8 million was repayable within one year. The Group's net current assets amounted to approximately RMB42.8 million (31 December 2025: approximately RMB34.8 million) and net assets amounted to approximately RMB164.4 million (31 December 2025: approximately RMB149.7 million).
