NEW MATERIALS PURCHASE FRAMEWORK AGREEMENT

On the date of this announcement, KBH entered into the New Materials Purchase Framework Agreement with the Company in relation to the purchase of Chemicals by the Group from the KBH Group to revise the annual cap for the year ending 31 December 2026 and renew the transactions contemplated under the Existing Materials Purchase Framework Agreement. Details of the New Materials Purchase Framework Agreement are set out below:

Date: 16 September 2026

Parties: (1) KBH
(2) The Company

Nature of transaction: Pursuant to the New Materials Purchase Framework Agreement, the Group will purchase Chemicals from the KBH Group.

The amount of Chemicals to be purchased is not fixed but is to be determined and agreed between the parties from time to time. The Group will not be obligated to purchase a minimum amount of materials from the KBH Group and the KBH Group will not be obligated to sell any set quantity of Chemicals to the Group during the term of the New Materials Purchase Framework Agreement.

The actual quantity, specification and price (with reference to the prevailing market price) of Chemicals under the New Materials Purchase Framework Agreement will be subject to the individual orders placed by the Group with the KBH Group.

Term: From 1 January 2026 to 31 December 2028, both days inclusive.

Consideration: The price at which the Chemicals are to be purchased will be at the then prevailing market prices, but in no event will the terms be less favourable to the Group than the terms available from independent third parties having regard to the quantity and other conditions of the purchase.

To facilitate the Group in determining the prevailing market price, the Group will consider the prices offered by independent third party suppliers of similar Chemicals (based on similar amount and similar specifications). In particular, where appropriate, the relevant purchase department of the Group will obtain quotations from different suppliers (both the KBH Group and the independent third party suppliers) and monitor the movement of market price from time to time.

The prevailing market prices and benchmark price information will be obtained through the market or third party suppliers so as to set the purchase price to be paid by the Group under the New Materials Purchase Framework Agreement, which will be at or no more than the prevailing/ benchmark prices. The purchase department would consider at least one comparable transaction with an independent third party supplier during the same period where applicable, and report to the senior management accordingly (*Note 1*). In the absence of any comparable transaction, the Group will conduct market research on the open market where applicable (*Note 2*).

The KBH Group will grant a credit period of 30 days to the Group. The consideration will be settled in cash.

Notes:

1. As part of the internal requirement, the head of the purchase department and/or the director-in-charge of the relevant operating subsidiary, as the case may be, will review the order with the KBH Group under the New Materials Purchase Framework Agreement and compare it against one comparable transaction with an independent third party supplier of the Group as presented and reported by the purchase department personnel. The historical price of such comparable transaction will be taken into account. As such, the terms offered to the Group in respect of the purchase of Chemicals under the New Materials Purchase Framework Agreement will be comparable to market terms, or no more favourable to the KBH Group than the terms available from independent third party suppliers.
2. As part of the internal requirement, such market research comprises the purchase department's coming into contact with and initiating business enquiries with potential sellers in relation to the Chemicals contemplated under the New Materials Purchase Framework Agreement. Such potential suppliers are independent third parties of the Group and are market players which have been the Group's suppliers. The prices and terms acceptable to potential suppliers are recorded and at least two summary reports of such open market research are submitted to the head of the purchase department and/or the director-in-charge of the relevant operating subsidiary for their information and reference in considering the orders with the KBH Group under the New Materials Purchase Framework Agreement.

								1,690,600

Note:

This is an estimated figure by straight-line multiplication from the actual transactions during the eight months ended 31 August 2026.

The Proposed Revised KBH Purchase Annual Cap and the Proposed KBH Purchase Annual Caps under the New Materials Purchase Framework Agreement were determined with reference to the internal projection of the purchases having regard to (i) the historical amount of purchase of Chemicals for the production of laminates by the Group from the KBH Group; (ii) the anticipated growth in demand for Chemicals; (iii) the anticipated increase in market price of Chemicals; and (iv) inflation.

The Proposed Revised KBH Purchase Annual Cap and the Proposed KBH Purchase Annual Caps under the New Materials Purchase Framework Agreement are calculated based on: (i) for the Proposed Revised KBH Purchase Annual Cap for the year ending 31 December 2026, the estimated figure by straight-line multiplication from the actual transactions during the eight months ended 31 August 2026 plus a buffer of 25%; and (ii) for the Proposed KBH Purchase Annual Caps for the years ending 31 December 2027 and 2028, an annual growth rate of 20%. Having considered the above, the Directors (other than the INEDs who will give their views after considering the opinion from the independent financial adviser) are of the view that the Proposed Revised KBH Purchase Annual Cap and the Proposed KBH Purchase Annual Caps under the New Materials Purchase Framework Agreement are fair and reasonable.

NEW SUPPLY FRAMEWORK AGREEMENT

On the date of this announcement, KBH entered into the New Supply Framework Agreement with the Company in relation to the supply of laminates and related upstream materials by the Group to the KBH Group to revise the annual cap for the year ending 31 December 2026 and renew the transactions contemplated under the Existing Supply Framework Agreement. Date: 16 September 2026

Parties: (1) KBH
(2) The Company

Nature of transaction: Pursuant to the New Supply Framework Agreement, the Group will supply laminates and related upstream materials to the KBH Group.

The amount of laminates and related upstream materials to be supplied is not fixed but is to be determined and agreed between the parties from time to time. The Group will not be obligated to supply a minimum amount of laminates and related upstream materials to the KBH Group and the KBH Group will not be obligated to purchase any set quantity of laminates and related upstream materials from the Group during the term of the New Supply Framework Agreement.

The actual quantity, specification and price (with reference to the prevailing market price) of laminates and related upstream materials under the New Supply Framework Agreement will be subject to the individual orders placed by the KBH Group with the Group.

Term: From 1 January 2026 to 31 December 2028, both days inclusive.

Consideration: The price at which the materials are to be supplied will be at the then prevailing market prices, but in no event will the terms be less favourable to the Group than the terms available to independent third parties having regard to the quantity and other conditions of the sale.

To facilitate the Group in determining the prevailing market price, the Group will consider the prices offered to independent third party customers of similar products (based on similar amount and similar specifications). In particular, where appropriate, the relevant sales department of the Group will compare the selling price offered to different customers (both the KBH Group and the independent third party customers) (based on similar amount and similar specifications) and will also monitor the movement of market price from time to time.

The prevailing market prices and benchmark price information will be obtained through the market or third party customers so as to set the selling price to the KBH Group under the New Supply Framework Agreement, which will be at or no less than the prevailing/benchmark prices. The sales department would consider at least one comparable transaction with an independent third party customer during the same period where applicable, and report to the senior management accordingly (*Note 1*). In the absence of any comparable transaction, the Group will conduct market research on the open market where applicable (*Note 2*).

The Group will grant a credit period of 90 days to the KBH Group. The consideration will be settled in cash.

Notes:

1. As part of the internal requirement, the head of the sales department and/or the director-in-charge of the relevant operating subsidiary, as the case may be, will review the order with the KBH Group under the New Supply Framework Agreement and compare it against one comparable transaction with an independent third party customer of the Group as presented and reported by the sales department personnel. The historical price of such comparable transaction will be taken into account. As such, the terms offered to the KBH Group in respect of the supply of laminates and related upstream materials under the New Supply Framework Agreement will be comparable to market terms, or no more favourable to the KBH Group than the terms offered to independent third party customers.
2. As part of the internal requirement, such market research comprises the sales department's coming into contact with and initiating business enquiries with potential buyers in relation to the goods contemplated under the New Supply Framework Agreement. Such potential buyers are independent third parties of the Group and are market players which have been the Group's customers. The prices and terms acceptable to potential buyers are recorded and at least two summary reports of such open market research are submitted to the head of the sales department and/or the director-in-charge of the relevant operating subsidiary for their information and reference in considering the orders with the KBH Group under the New Supply Framework Agreement.

Note:

The Proposed Revised KBH Supply Annual Cap and the Proposed KBH Supply Annual Caps under the New Supply Framework Agreement were determined with reference to the internal projection of the supplies to be made having regard to (i) the historical amount of the sales of laminates and related upstream materials by the Group to the KBH Group; (ii) the anticipated demand of such materials for the four months ending 31 December 2026 and the years ending 31 December 2027 and 2028; (iii) the anticipated increase in market price of such materials; (iv) the expected increase in the production capacity of PCBs of the KBH Group; and (v) inflation.

Having considered the above, the Directors (other than the INEDs who will give their views after considering the opinion from the independent financial adviser) are of the view that the Proposed Revised KBH Supply Annual Cap and the Proposed KBH Supply Annual Caps under the New Supply Framework Agreement are fair and reasonable.

REASONS FOR AND BENEFITS OF ENTERING INTO THE NEW AGREEMENTS

The Group is engaged in, among other things, the manufacturing and sale of laminates and related products, which require materials such as the Chemicals for its production.

The Group purchases materials such as the Chemicals for the production of laminates from time to time. The purchase of the Chemicals by the Group from the KBH Group under the New Materials Purchase Framework Agreement secures a steady supply of the materials from the KBH Group, which facilitates the Group's production of laminates. Although the Group does not rely on the KBH Group for the purchase of Chemicals since such Chemicals are readily available from independent third parties at comparable prices and terms, the purchase of Chemicals from the KBH Group allows the Group to benefit from the economies of scale of the KBH Group.

Further, the Group considers that the KBH Group is a reliable business cooperation partner and such co-operation is beneficial to the business of the Group. The Group has been operating its laminates business as principal business. The Group anticipates that materials such as the Chemicals for the manufacture of laminates will be required for it to further expand its business. Taking into account a range of factors including the reduction in transportation costs, the quality and the price of the Chemicals supplied by the KBH Group for the production of laminates, the Group considers that the purchase of materials under the New Materials Purchase Framework Agreement will facilitate its business plan and will improve the competitiveness and the quality of the laminates manufactured by the Group.

The New Supply Framework Agreement provides flexibility for the Group to supply laminates and related upstream materials to the KBH Group. While the Group does not rely on the KBH Group for the sale of laminates and related upstream materials, given that the Group has established a close working relationship with the KBH Group, the Company believes that transactions under the New Supply Framework Agreement will enhance the revenue of the Group through increased sales and thus benefit the Company and the Shareholders as a whole.

The transactions contemplated under the New Agreements are of a recurrent revenue nature and will occur on a regular and continuing basis in the ordinary and usual course of business of the Group. The New Agreements provide a framework for purchases and supplies (as the case may be) from time to time on a non-exclusive basis and regulate the business relationship between the Group and the KBH Group in relation to the transactions thereunder.

In light of the above, the Directors (other than the INEDs who will give their views after considering the opinion from the independent financial adviser) are of the view that each of the New Agreements (including the Proposed Revised Annual Caps and the Proposed Annual Caps contemplated thereunder) is on normal commercial terms and in the ordinary and usual course of business of the Group, and the terms of each of the New Agreements (including the Proposed Revised Annual Caps and the Proposed Annual Caps contemplated thereunder) are fair and reasonable and in the interests of the Company and the Shareholders as a whole. The terms of the New Agreements were arrived at after arm's length negotiation between the relevant parties.
