The board of directors of the Company (the “**Board**”) wishes to inform the shareholders of the Company and potential investors that, based on the information currently available to the Company and the preliminary results of the unaudited consolidated management accounts of the Group for the year ended 30 June 2026, the Group is expected to record a loss attributable to owners of the Company for the year ended 30 June 2026 (“**FY2026**”) within the range of approximately HK\$11.0 million to HK\$14.0 million as compared to that for the year ended 30 June 2025 of approximately HK\$16.0 million. The Board considered that the reduction in loss was mainly attributable to (1) the increase of profit margin of the Group’s renewable energy business segment during FY2026 as contributed by the rise of market price of used cooking oil; (2) the reduction in operating losses of the plastic recycling business with the operation suspension of the German processing plant in August 2025; (3) there was an operating profit recorded in the new AI chip trading business in FY2026.

The Company is still in the process of finalizing the consolidated results of the Group for the year ended 30 June 2026.
