NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

For the six months ended 30th June 2026

I. BASIS OF PREPARATION

The unaudited condensed consolidated financial statements of the Group (the “Interim Financial Information”) have been prepared in accordance with Hong Kong Accounting Standard 34 (“HKAS 34”) *Interim Financial Reporting* issued by the Hong Kong Institute of Certified Public Accountants (the “HKICPA”) as well as the applicable disclosure requirements of the Rules Governing the Listing of Securities (the “Listing Rules”) on The Stock Exchange of Hong Kong Limited (the “Stock Exchange”).

The preparation of the Interim Financial Information in conformity with HKAS 34 requires management to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, income and expenses on a year to date basis. Actual results may differ from these estimates.

The Interim Financial Information contains unaudited condensed consolidated financial statements and selected explanatory notes. The notes include an explanation of events and transactions that are significant to an understanding of the changes in financial position and financial performance of the Group since the 2025 annual financial statements. The unaudited condensed consolidated financial statements and notes thereon do not include all of the information required for a full set of financial statements prepared in accordance with the HKFRS Accounting Standards.

NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

For the six months ended 30th June 2026

2. ACCOUNTING POLICIES

The Interim Financial Information have been prepared on the historical cost basis except for investment property and certain financial instruments that are measured at fair values at the end of the reporting period.

Historical cost is generally based on the fair value of the consideration given in exchange for assets.

Other than additional or change in accounting policies resulting from application of amendments to HKFRS Accounting Standards and application of certain accounting policies which became relevant to the Group in the current interim period, the accounting policies and methods of computation used in the Interim Financial Information for the six months ended 30th June 2026 are the same as those presented in the Group's audited consolidated financial statements for the year ended 31st December 2025.

The Interim Financial Information are presented in Hong Kong dollar and all values are rounded to the nearest thousand ("HK\$'000") except when otherwise indicated.

Application of amendments to HKFRS Accounting Standards

In the current interim period, the Group has applied the following amendments to HKFRS Accounting Standards issued by the HKICPA, for the first time, which are mandatorily effective for the Group's annual period beginning on 1st January 2026 for the preparation of the Group's condensed consolidated financial statements:

Amendments to HKFRS 9 and HKFRS 7	Amendments to the Classification and Measurement of Financial Instruments
Amendments to HKFRS 9 and HKFRS 7	Contracts Referencing Nature-dependent Electricity
Amendments to HKFRS Accounting Standards	Annual Improvements to HKFRS Accounting Standards – Volume II

The application of the amendments to HKFRS Accounting Standards in the current interim period has had no material impact on the Group's financial positions and performance for the current and prior periods and/or on the disclosures set out in these condensed consolidated financial statements.

Tiffany House has a gross floor area of (a) residential – 31,192 square meters, including 3,819 square meters for clubhouse, (b) commercial – 3,716 square meters and (c) parking – 11,250 square meters. It provides 230 residential units in two towers, with units ranging from studio flats to four-bedroom apartments as well as special units and 272 carparks and 75 motorcycle parks in three underground levels. A prestigious clubhouse decided by Mr. William Chang, a famous art director and star designer in Hong Kong which provides a wide range of facilities including swimming pool, gym room, well equipped kitchen, yoga and dance room, etc. Tiffany House obtained its occupational permit in December 2019 and started sales in October 2022. Tower 1 of Tiffany House has 115 residential units and gross floor area of approximately 161,000 square feet and Tower 2 which facing Golden Lotus Square and Guia Hill has 115 residential units and gross floor area of approximately 175,000 square feet. During the period, sales of four residential units with gross floor area of approximately 3,000 square feet, one carpark and one motorcycle park were completed with aggregate consideration of HK\$18,940,000. As at 30th June 2026, there were 97 residential units with gross floor area of approximately 180,000 square feet, 235 carparks and 67 motorcycle parks unsold, of which 4 residential units with gross floor area of approximately 5,000 square feet have signed provisional agreements with aggregate consideration of HK\$26,998,000.

In the first half of the year 2026, revenue from property development and investment operations amounted to HK\$19,594,000 (Six months ended 30th June 2025: HK\$133,013,000), a decrease of 85% and its segment loss amounted to HK\$72,119,000 (Six months ended 30th June 2025: HK\$92,251,000). All revenue in this period came from sales in Tiffany House and building management service fees income. The decrease mainly caused by decrease in sales in Tiffany House. The segment loss was mainly included finance costs for the bank loan of Tiffany House (the "Term Loan") amounted to HK\$24,082,000 (Six months ended 30th June 2025: HK\$34,168,000) and the write-down of stock of properties amounted to HK\$16,349,000 (Six months ended 30th June 2025: HK\$43,944,000).

Macau residential property market in the first half of 2026 saw an overall rise in transaction volume, supported by early-year policy incentives including stamp-duty relief and higher permitted loan-to-value ratios. Mass market small sized units had dominated turnover and thus benefit the sales of the Property C7. Apparently, Tiffany House with mainly large sized residential units recorded relatively sluggish trading in the first half of year 2026, mainly due to their high lump-sum payment threshold constrained turnover. Even so, stable fundamental demand persists among end-users seeking spacious living layouts. Average residential prices stayed under mild pressure. Within the Macau resident market, improving grade demand has gradually emerged amid market adjustment. Tiffany House fits those buyers who are inclined to pursue larger and high quality residential units to upgrade their living conditions. The Group will adopt proactive market aligned pricing strategies for remaining residential units to accelerate inventory clearance.

PROSPECT

In the second half of 2026, Macau's residential market is expected to see muted to moderate transaction activity. Existing supportive housing policies should continue to underpin demand for mass market compact units, while large-sized properties with high lump sum price tags will likely remain constrained by affordability barriers. Overall residential prices are projected to stay largely stable with limited upside, as buyers maintain selective sentiment toward quality completed stock. Macroeconomic conditions and consumer confidence will remain key variables shaping market performance. The Group will adopt proactive and market oriented pricing strategies for remaining residential inventory, aiming to accelerate inventory clearance and enhance asset turnover. Following the obtaining of occupation permit of the Property C7 on 15th July 2026 and its definitive horizontal property registration on 19th August 2026, the completion of the pre-sales units in the Property C7 has commenced in mid-August 2026 and its revenue will account for in the second half of 2026. The overall cash flow of the Group will be significantly improved.

Looking ahead to the second half of 2026, the Group will deploy AI tools and artificial intelligence generated content ("AIGC") applications across its MCN and short drama businesses, marking the initial phase of technological upgrading. Leveraging generative AI tools, the Group will optimise script drafting, raw material generation, content editing and audience precision targeting procedures, effectively streamlining production workflows, expanding content output capacity and shortening content iteration cycles. AIGC will serve as an efficiency-enhancing auxiliary tool instead of replacing professional creative teams, with all AI-generated content subject to strict manual review and compliance verification to control content quality and intellectual property risks. For content development of short drama, the Group has started with elements of Hong Kong style movie with refinement and differentiation strategy. The Group will steadily promote intelligent production upgrades to support sustainable development of its content business.

In respect of the commission sharing income derived from its online knowledge payment and property consulting services business, it is expected to maintain steady growth in the following months in 2026. By continuously optimising professional property content output and enhancing user consulting service quality, the Company will further improve traffic conversion efficiency. With expanding cooperative developer resources and strengthened closed-loop transaction capabilities, this service-based revenue stream is poised to become a stable incremental income driver, supporting diversified and sustainable revenue growth of the Group.

Looking forward, the Group will continue to grasp favorable opportunities brought by existing business operations, particularly the MCN business and will strive to achieve high quality development and successfully monetizing the value of its Macau properties.
