Notes:

1. BASIS OF PREPARATION

The annual results set out in this announcement do not constitute the Group's consolidated financial statements for the year ended 30 June 2026 but are extracted from those financial statements.

These financial statements have been prepared in accordance with HKFRS Accounting Standards (which include all Hong Kong Financial Reporting Standards, Hong Kong Accounting Standards ("HKASs") and Interpretations) as issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA") and the disclosure requirements of the Hong Kong Companies Ordinance. They have been prepared under the historical cost convention, except for investment properties and financial assets at fair value through profit and loss which have been measured at fair value. These financial statements are presented in Renminbi ("RMB") and all values are rounded to the nearest thousand except when otherwise indicated.

Basis of consolidation

The consolidated financial statements include the financial statements of the Company and its subsidiaries (collectively referred to as the "Group") for the year ended 30 June 2026. A subsidiary is an entity (including a structured entity), directly or indirectly, controlled by the Company. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee (i.e., existing rights that give the Group the current ability to direct the relevant activities of the investee).

Generally, there is a presumption that a majority of voting rights results in control. When the Company has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- (a) the contractual arrangement with the other vote holders of the investee;
- (b) rights arising from other contractual arrangements; and
- (c) the Group's voting rights and potential voting rights.

The financial statements of the subsidiaries are prepared for the same reporting period as the Company, using consistent accounting policies. The results of subsidiaries are consolidated from the date on which the Group obtains control and continue to be consolidated until the date that such control ceases.

Profit or loss and each component of other comprehensive income are attributed to the owners of the parent of the Group and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control described above. A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction.

1. BASIS OF PREPARATION (Continued)

If the Group loses control over a subsidiary, it derecognises the related assets (including goodwill), liabilities, any non-controlling interest and the exchange fluctuation reserve; and recognises the fair value of any investment retained and any resulting surplus or deficit in the consolidated statement of profit or loss and other comprehensive income. The Group's share of components previously recognised in other comprehensive income is reclassified to profit or loss or retained profits, as appropriate, on the same basis as would be required if the Group had directly disposed of the related assets or liabilities.

2. CHANGES IN ACCOUNTING POLICIES AND DISCLOSURES

The Group has adopted amendments to HKAS 21 *Lack of Exchangeability* for the first time for the current year's financial statements. The Group has not early adopted any other standard or amendment that has been issued but is not yet effective.

Amendments to HKAS 21 specify how an entity shall assess whether a currency is exchangeable into another currency and how it shall estimate a spot exchange rate at a measurement date when exchangeability is lacking. The amendments require disclosures of information that enable users of financial statements to understand the impact of a currency not being exchangeable. As the currencies that the Group had transacted in and the functional currencies of overseas subsidiaries for translation into the Group's presentation currency were exchangeable, the amendments did not have any impact on the Group's financial statements.

3. OPERATING SEGMENT INFORMATION

For management purposes, the Group is mainly engaged in provision of property management services and sale of properties and parking lots, which is regarded as a single reportable segment in a manner consistent with the way in which information is reported internally to the Group's management for purposes of resource allocation and performance assessment. Therefore, no further operating segment analysis thereof is presented.

The decrease in gross profit was due to the write-down of inventories to net realisable value in Xuzhou Project (as defined below) during the Year. The increase in loss before tax for the Year were due to the write-down of inventories to net realisable value and goodwill impairment incurred in Xuzhou Project (as defined below) during the Year.

Business Prospects

The Group had 515 units parking lots and 3 blocks of 3-storey commercial buildings in the Xuzhou Project. Therefore, the Group believes that Huizhou and Shenzhen have growth potential.

Looking ahead, the Group will search for potential projects to expand the business in the PRC.

Exposure to Fluctuations in Exchange Rates

The Group has foreign currency risk as certain financial assets and liabilities are denominated in foreign currencies, principally in Hong Kong dollars. The Group also manages its foreign exchange risk by performing regular reviews of the Group’s net foreign exchange exposure such as Hong Kong Dollars in order to keep the net exposure to an acceptable level.
