Notes to the Unaudited Interim Condensed Consolidated Financial Information

For the six months ended 30 June 2026 (Amounts expressed in thousands of RMB)

1. GENERAL INFORMATION

Hong Kong Gold Industry Group Limited (formerly known as Add New Energy Investment Holdings Group Limited) (the “Company”) was incorporated in the Cayman Islands on 8 February 2011 as an exempted company with limited liability under the Companies Act (as revised) of the Cayman Islands. The addresses of its registered office and principal place of business are Windward 3, Regatta Office Park, P.O. Box 1350, Grand Cayman, KY1-1108, Cayman Islands and Rooms 1601–1603, YF Life Centre, 38 Gloucester Road, Wan Chai, Hong Kong, respectively.

The Company is an investment holding company. The Company and its subsidiaries (collectively the “Group”) are principally engaged in iron ore processing, and sales of iron concentrates and other minerals in the People’s Republic of China (the “PRC”), and investment in mining and natural-resource businesses and related securities. The Company’s shares were listed on the Main Board of The Stock Exchange of Hong Kong Limited (the “Stock Exchange”) on 27 April 2012.

The directors considered HKGG Holdings Limited (formerly known as Prominence Investment Holding Company Limited), a company incorporated in the British Virgin Islands (the “BVI”) and owned indirectly by Mr. Ng William and Ms. Wei Jiaming (the “Controlling Shareholder”), as the ultimate holding company of the Group.

This unaudited interim condensed consolidated financial information has been approved for issuance by the Board of Directors on 28 August 2026.

2. BASIS OF PREPARATION

The unaudited interim condensed consolidated financial information for the six months ended 30 June 2026 has been prepared in accordance with the applicable requirements of the Rules Governing the Listing of Securities on the Stock Exchange (the “Listing Rules”) and Hong Kong Accounting Standard (“HKAS 34”), ‘Interim Financial Reporting’.

The unaudited interim condensed consolidated financial information should be read in conjunction with the Group’s annual consolidated financial statements for the year ended 31 December 2025, which have been prepared in accordance with HKFRS Accounting Standards.

3. ACCOUNTING POLICIES

Overview

The unaudited interim condensed consolidated financial information has been prepared on the historical cost basis except for certain financial instruments, which are measured at fair values.

Notes to the Unaudited Interim Condensed Consolidated Financial Information

For the six months ended 30 June 2026 (Amounts expressed in thousands of RMB)

In the current interim period, the Group has applied, for the first time, the following amendments to HKFRS Accounting Standards as issued by the Hong Kong Institute of Certified Public Accountants which are mandatory effective for the annual period beginning on or after 1 January 2026 for the preparation of the Group's unaudited interim condensed consolidated financial information:

Amendments to HKFRS 9 and HKFRS 7	<i>Amendments to the Classification and Measurement of Financial Instruments</i>
Amendments to HKFRS 9 and HKFRS 7	<i>Contracts Referencing Nature-dependent Electricity</i>
Amendments to HKFRS Accounting Standards	<i>Annual Improvements to HKFRS Accounting Standards – Volume 11</i>

The application of the above amendments in the current interim period has had no material impact on the Group's financial position and performance for the current or prior periods and/or on the disclosures set out in this unaudited interim condensed consolidated financial information.

The Group has not applied any new standard, amendment or interpretation that is not yet effective for the current period.

During the six months ended 30 June 2026, the Group entered into transactions involving investments in joint ventures and financial assets at fair value through profit or loss. The accounting policies applied are set out below:

(a) Investment in a Joint Venture

A joint venture is a joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint venture. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require unanimous consent of the parties sharing control.

The Group's investment in a joint venture is accounted for using the equity method under HKAS 28. Under the equity method, the investment is initially recognised at cost and adjusted thereafter to recognise the Group's share of the post-acquisition profits or losses and other comprehensive income of the joint venture.

(b) Financial Assets at Fair Value Through Profit or Loss ("FVTPL")

Financial assets at FVTPL are initially recorded at fair value, with transaction costs expensed in profit or loss. Subsequent to initial recognition, they are measured at fair value at the end of each reporting period, with any fair value gains or losses recognised in profit or loss under "Other gains or losses, net".

(c) Intangible assets – Membership in the Exchange

The Group's membership at the Hong Kong Gold Exchange Limited (the "Exchange") is recognised at cost. Based on the contractual and regulatory terms governing the membership, the Group's expected period of use, and its long-term business strategy in the gold and precious metals market, management has determined that there is no foreseeable limit to the period over which the membership is expected to generate net cash inflows for the Group. Consequently, the membership is assessed as having an indefinite useful life. Accordingly, the membership is not amortised, but is carried at cost less any accumulated impairment losses and is tested for impairment annually.

Notes to the Unaudited Interim Condensed Consolidated Financial Information

For the six months ended 30 June 2026 (Amounts expressed in thousands of RMB)

4. ESTIMATES

The preparation of interim financial information requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

In preparing the unaudited interim condensed consolidated financial information, except for the judgements regarding the initial classification of the newly acquired equity securities and investment in a joint venture during the period, the significant judgements made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the consolidated financial statements for the year ended 31 December 2025.

5. SEGMENT INFORMATION

(a) General information

The Group's chief operating decision-maker has been identified as the Senior Executive Management ("SEM") who reviews the Group's internal reporting in order to allocate resources and assess performance. The SEM has determined the operating segments based on these reports.

The SEM, who considers the business from an industrial perspective, considers activities of mining and ore processing carried out by Shandong Ishine Mining Industry Co., Ltd. ("Shandong Ishine") and Shandong Shengtai Mining Technology Company Limited ("Shandong Shengtai"), and trading of minerals carried out by Shandong Ishine and Hami Xinxing Tianshan Logistics Company Limited ("Hami Xinxing") as the identifiable segments.

The SEM assesses the performance of the operating segments based on a measure of profit or loss contributed by the respective segments.

(b) Information about reportable segment profit or loss, assets and liabilities

The measurement of profit or loss, assets and liabilities of the operating segments are the same as those described in the summary of significant accounting policies in the annual financial statements for the year ended 31 December 2025.

The businesses of the Group are classified into mining and ore processing, and trading of minerals, which are the two reportable segments of the Group. Expenses, assets and liabilities of the holding and inactive companies in the Group are presented as 'Unallocated' in the segment information.

Notes to the Unaudited Interim Condensed Consolidated Financial Information

For the six months ended 30 June 2026 (Amounts expressed in thousands of RMB)

8. INTANGIBLE ASSETS/AMOUNT PAYABLE FOR MINING RIGHTS

The Group originally recognised intangible assets, representing the mining rights in respect of two mines (Zhuge Shangyu Ilmenite Mine and Yangzhuang Iron Mine), upon the issuance of mining permits during the year ended 31 December 2023. Following the disposal of the mining right in respect of Yangzhuang Iron Mine during the year ended 31 December 2024, the carrying amount of the Group's intangible assets as at 31 December 2025 related solely to the mining right in respect of Zhuge Shangyu Ilmenite Mine.

During the six months ended 30 June 2026, the Group acquired membership rights in Hong Kong Gold Exchange Limited (the "Hong Kong Gold Exchange" or "HKGX"), which were recognised as a separate class of intangible assets. Accordingly, as at 30 June 2026, the Group's intangible assets comprised the mining right in respect of Zhuge Shangyu Ilmenite Mine and the HKGX membership rights.

a) Intangible assets

	Mining rights – Zhuge Shangyu RMB'000	Membership in the Exchange RMB'000	TOTAL RMB'000
As at 1 January 2026	152,232	–	152,232
Additions	–	5,006	5,006
As at 30 June 2026	152,232	5,006	157,238

b) Amounts payable for mining rights

As at 30 June 2026 and 31 December 2025, amounts payable for mining rights are as follows:

	Zhuge Shangyu RMB'000
30 June 2026	
Classified as current liabilities	14,666
Classified as non-current liabilities	64,207
	78,873
31 December 2025	
Classified as current liabilities	14,340
Classified as non-current liabilities	62,779
	77,119

Note:

During the prior period ended 30 June 2025, an amount of RMB20,000,000 payable for the mining right in respect of Yangzhuang Iron Mine was netted off against the consideration receivable from Shandong Dane Mining Technology Co., Ltd. (the "Purchaser") pursuant to the disposal of Yangzhuang Iron Mine and its related assets (the "Disposal") completed during the year ended 31 December 2024. As the new mining certificate was formally issued to the Purchaser, the payment obligation was fully transferred and set off against the consideration receivable in accordance with the assets transfer agreement. As at 30 June 2026 and 31 December 2025, the remaining amounts payable for mining rights relate exclusively to the Zhuge Shangyu Ilmenite Mine.

10. FINANCIAL ASSETS AT FAIR VALUE THROUGH OTHER COMPREHENSIVE INCOME

	As at 30 June 2026 (unaudited)	As at 31 December 2025 (audited)
Equity investments in listed entities	166,315	7,107

These investments are not held for trading, instead, they are held for long-term strategic purposes. The directors of the Company have elected to designate these investments as financial assets at fair value through other comprehensive income ("FVTOCI") as they believe that recognising short-term fluctuations in these investments' fair value in profit or loss would not be consistent with the Group's strategy of holding these investments for long-term purposes and realising their performance potential in the long run.

Fair value loss of approximately RMB112,279,000 (six months ended 30 June 2025: gain of approximately RMB1,759,000) derived from financial assets at FVTOCI was recognised in other comprehensive loss (six months ended 30 June 2025: income) for the six months ended 30 June 2026. Fair value loss on financial assets at FVTOCI for the six months ended 30 June 2026 was mainly attributable to the adverse fair value movements of certain equity investments in listed entities in the gold-related industry, whose share prices were affected by the fluctuations in gold prices during the current period.

Gain/(loss) on disposal of property, plant and equipment	12	(234)
	34,684	27,190

Notes:

- (a) During the six months ended 30 June 2025, the new mining certificate was formally issued to the purchaser in respect of the disposal of the mining right of Yangzhuang Iron Mine and the related assets, which was completed in 2024. As at 31 December 2024, the Group had accrued certain expenses during the course of its operations in Yangzhuang Iron Mine in previous years, which remained unpaid up to date.

In view of legal title of the mining right and related assets having been transferred to the purchaser and legal opinion sought by the Group in respect of the legal exposure to these long outstanding accrued expenses, the Group considered that the probability of request for payment of these accrued expenses was remote and accordingly, provision for these accrued expenses were reversed and credited as a gain recognised in the consolidated profit or loss during the six months ended 30 June 2025.

- (b) The fair value gain on financial assets at FVTPL arose from changes in the fair value of trading securities acquired by the Group during the six months ended 30 June 2026, including securities disposed of during the period and those held as at 30 June 2026. For the six months ended 30 June 2026, the fair value loss on financial assets at fair value through other comprehensive income was mainly attributable to adverse fair value movements of equity investments in certain listed entities in the gold-related industry, whose share prices were affected by fluctuations in gold prices during the period.

Pursuant to the rules and regulations of the Cayman Islands and the BVI, the Group is not subject to any income tax in the Cayman Islands and the BVI.

Hong Kong profits tax has not been provided for the subsidiaries in Hong Kong as there is no estimated assessable profit arising in or derived from Hong Kong during the six months ended 30 June 2026 and 2025.

Corporate income tax in the PRC is calculated based on the statutory profit of the subsidiaries established in the PRC in accordance with the PRC tax laws and regulations, after adjusting certain items of income and expenses that are not assessable or deductible for income tax purposes.

For the six months ended 30 June 2026 and 2025, PRC corporate income tax has been provided for at the rate of 25% on the assessable profits of the Group's PRC subsidiaries, except for the subsidiaries which incurred losses for the current period.

25. LOSS PER SHARE

(a) Basic

Basic loss per share is calculated by dividing the loss attributable to owners of the Company by the weighted average number of ordinary shares in issue during the period.

	Six months ended 30 June	
	2026 (unaudited)	2025 (unaudited)
Loss attributable to owners of the Company	(14,181)	(3,564)
Weighted average number of ordinary shares in issue	474,127,154	410,203,028
Basic loss per share (Expressed in RMB cents per share)	(2.99)	(0.87)

Following the completion of the Company's rights issue in March 2026, the weighted average number of ordinary shares used in the calculation of basic loss per share for the six months ended 30 June 2025 has been adjusted retrospectively to reflect the bonus element arising from the rights issue, in accordance with HKAS 33 Earnings per Share. Accordingly, the comparative basic loss per share for the six months ended 30 June 2025 has been restated from RMB1.02 cents per share, as previously reported, to RMB0.87 cents per share. The comparative loss attributable to owners of the Company of RMB3,564,000 has not been restated.

(b) Diluted

During the six months ended 30 June 2026 and 2025, there were no dilutive instruments of the Company, no diluted loss per share is presented.

26. DIVIDENDS

The Board of Directors has resolved not to declare any interim dividends for the six months ended 30 June 2026 (six months ended 30 June 2025: Nil).

27. RELATED PARTY TRANSACTIONS

Parties are considered to be related if one party has the ability, directly or indirectly, to control the other party or exercise significant influence over the other party in making financial and operational decisions. Parties are also considered to be related if they are subject to common control. Members of key management of the Group and their close family members are also considered as related parties.

- (a) The Company's directors were of the view that the following parties were related parties of the Group during the six months ended 30 June 2026 and 2025:

Name of related party	Nature of relationship
Ms. Wei Jiaming	The ultimate controlling party and a Director of the Company as at 31 December 2025 and 30 June 2026 and date of the approval of the financial statements. (30 June 2025: No relationship)
Mr. Li Yunde	A former controlling shareholder and a Director of the Company before 15 October 2025 and 8 January 2026, respectively, and a director of Shandong Ishine which is one of the major operating subsidiaries of the Group. (30 June 2025: The controlling shareholder and Director of the Company)
Hongfa Holdings Limited ("Hongfa")	A former shareholder of the Company which was wholly-owned by Mr. Li Yunde, and has been wholly-owned by Mr. Geng Guohua, a Director of the Company since 6 January 2026. (30 June 2025: The ultimate holding company of the Company wholly-owned by Mr. Li Yunde.)
Xinjiang Jiangna Mining Industry Co., Ltd. ("Xinjiang Jiangna")	No relationship with the Group. (30 June 2025: A company wholly-owned by Mr. Li Yunde)

Notes:

- (i) During the year ended 31 December 2025, the Group received an interest-free and unsecured advance from Ms. Wei Jiaming, the ultimate controlling party and a director of the Company, which constituted financial assistance from a connected person and was fully exempted under Rule 14A.90.
- (ii) Mr. Li Yunde was the Chairman of the Board, an executive Director and controlling shareholder of the Company until he ceased to be a controlling shareholder on 15 October 2025, and was therefore a connected person of the Company under Chapter 14A of the Listing Rules during the period up to 15 October 2025. The advances provided by Mr. Li Yunde to the Group constituted connected transactions under Chapter 14A of the Listing Rules for the period up to 15 October 2025.

The advances were made for the benefit of the Group on normal commercial terms, were unsecured and interest-free, and no security over the assets of the Group was granted. Accordingly, such financial assistance fell within the exemption under Rule 14A.90 of the Listing Rules and was fully exempted from reporting, announcement and independent shareholders' approval requirements. The outstanding balance as at 30 June 2026 was unsecured, interest-free, with no fixed repayment terms and is repayable only when sufficient resources are available.

- (iii) The balances were unsecured, interest-free, with no fixed repayment terms.

Except for as disclosed above or elsewhere in the notes to the interim condensed consolidated financial information, the Group had no significant transactions with related parties during the six months ended 30 June 2026 and 2025, or significant balances with related parties as at 30 June 2026 and 31 December 2025.

28. CAPITAL COMMITMENTS

Capital expenditure contracted for at the end of the reporting period but not yet incurred is as follows:

	As at 30 June 2026 (unaudited)	As at 31 December 2025 (audited)
Property, plant and equipment	20,908	32,126
Acquisition of investment in equity securities (note i)	191,243	–
Capital contribution to a joint venture (note ii)	90,474	–
	302,625	32,126

Note (i) – Acquisition of investment in equity securities:

On 30 March 2026, the Group entered into an agreement to acquire 37,700,000 shares in Maritana Minerals Limited (“MRT”), a company listed on the Australian Securities Exchange, at a consideration of AUD1.08 per share, representing an aggregate consideration of approximately AUD40,716,000. As at 30 June 2026 and up to the date of this report, completion of the acquisition remained subject to the relevant Australian regulatory approval and had not yet been completed. Accordingly, the aggregate consideration of approximately AUD40,716,000 is included as a capital commitment as at 30 June 2026. If completed, the Group’s aggregate interest in MRT is expected to be approximately 19.97%.

Note (ii) – Capital contribution to a joint venture:

In March 2026, the Group, through an indirect wholly-owned subsidiary of the Company, as a limited partner, together with Jiangxi Xintongying Enterprise Management Co., Ltd. (江西新同盈企業管理有限公司), as a limited partner, and Beijing Shiji Lande Enterprise Management Co., Ltd., as the general partner, established Jiangxi Lianhe Enterprise Management Centre (Limited Partnership)* (江西聯合企業管理中心(有限合夥)) (the “Partnership”).

Pursuant to the relevant partnership agreement (as supplemented), the Group committed to make a total capital contribution of RMB108,000,000, representing approximately 48.87% of the interests in the Partnership, which is payable on or before 31 December 2026. As at 30 June 2026, the Group had contributed approximately RMB17,526,000 to the Partnership. The capital contribution of RMB17,526,000 was paid directly by a shareholder of the Company on behalf of the Group. Accordingly, the Group recognised a corresponding amount due to the shareholder of RMB17,526,000. As no cash payment was made by the Group in respect of this capital contribution, the transaction represented a non-cash investing and financing transaction from the Group’s perspective. The Group therefore had an outstanding contractual capital commitment of approximately RMB90,474,000 in respect of its investment in the Partnership as at 30 June 2026.

29. FAIR VALUE MEASUREMENTS OF FINANCIAL INSTRUMENTS

Fair value of the Group’s financial assets and financial liabilities that are measured at fair value on a recurring basis

In estimating the fair value, the Group uses market-observable data to the extent it is available. Where Level 1 inputs are not available, mark-to-market report from the custodian is used where available. Otherwise, the Group engages third-party qualified valuers to perform the valuation. The Group works closely with the qualified external valuers to establish the appropriate valuation techniques and inputs to the model.

Notes to the Unaudited Interim Condensed Consolidated Financial Information

For the six months ended 30 June 2026 (Amounts expressed in thousands of RMB)

Some of the Group's financial assets are measured at fair value at the end of each reporting period. The following table gives information about how the fair values of these financial assets are determined (in particular, the valuation technique(s) and input used), as well as the level of the fair value hierarchy into which the fair value measurements are categorised (Levels 1 to 3) based on the degree to which the inputs to the fair value measurements are observable.

- Level 1 fair value measurements are based on quoted prices (unadjusted) in active markets for identical assets;
- Level 2 fair value measurements are those derived from inputs other than quoted prices included within Level 1 that are observable for the assets, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and
- Level 3 fair value measurements are those derived from valuation techniques that include inputs for the assets that are not based on observable market data (unobservable inputs).

30. EVENTS AFTER THE REPORTING PERIOD

On 29 July 2026, the Company resolved to reallocate the Rights Issue Net Proceeds from the Target Working Capital Use to the Investment and Acquisition Use, the details of which are set out in the section headed "ISSUE OF EQUITY SECURITIES – Rights Issue" below.

On 4 August 2026, the Company completed the Placing of 23,200,000 Placing Shares to not less than six Places at HK\$4.08 per Placing Share. The net proceeds from the Placing amounted to approximately HK\$93.2 million. The Placing Shares had an aggregate nominal value of HK\$928,000. The closing price of the Share on 18 June 2026, being the date on which the terms of the Placing were fixed, was HK\$4.70, while the net price of each Placing Share was approximately HK\$4.02. For further details of the Placing, please refer to the announcements of the Company dated 18 June 2026, 14 July 2026, 29 July 2026 and 4 August 2026.

Save as disclosed above, there were no events causing material impact on the Group from the end of the reporting period to the date of this report.

31. COMPARATIVE FIGURES

Certain comparative figures have been reclassified to conform with current period's presentation.

Management Discussion and Analysis

BUSINESS REVIEW

The principal activities of the Group are iron ore and ilmenite ore exploration, mining and processing as well as trading of iron concentrates and other minerals in Shandong Province, the PRC. Since 2013, the Group has engaged in ilmenite ore mining and processing to produce and sell iron concentrates and titanium concentrates and to develop a full titanium industrial chain in Shandong Province, the PRC. The Group's major customers are iron pellet makers and steel manufacturers located in close proximity. During the six months ended 30 June 2026, the Group accelerated the diversification strategy described in its 2025 annual report by expanding into gold, silver and other precious and non-ferrous metal resources through direct securities investments, strategic investments and proposed acquisitions.

The Group holds the mining right in respect of Zhuge Shangyu Ilmenite Mine (諸葛上峪鈦鐵礦), an ilmenite and magnetite mine located in Yishui County, Shandong Province, the PRC (the "Zhuge Shangyu Ilmenite Mine"), and owns the exploration right over the mine. The Zhuge Shangyu Ilmenite Mine and its processing facilities remained in the construction, testing and commissioning stage during the period. No revenue was generated by the mining and ore processing segment in the first half of 2026; all revenue for the period was derived from mineral trading.

To diversify its asset portfolio and capture opportunities in precious metals, the Group expanded into gold and silver mineral resources through an investment partnership. The Group also obtained Operation Status B membership on the Hong Kong Gold Exchange to explore business opportunities and potential industry partnerships across the physical gold and precious-metals markets. In March 2026, the Group completed a rights issue raising net proceeds of approximately HK\$503.4 million, a portion of which was allocated to strategic acquisitions and investments in target entities holding high-quality precious-metal resources. To better reflect the future business plans and development of the Group following the Group's corporate restructuring, the Company changed its name to "Hong Kong Gold Industry Group Limited" in May 2026.

The Group recorded revenue of approximately RMB92.6 million for the six months ended 30 June 2026, representing an increase of approximately 617.8% from approximately RMB12.9 million for the six months ended 30 June 2025. The increase was principally attributable to the significant expansion of mineral trading activities. No revenue from processing services was recognised during the six months ended 30 June 2026.

The Group recorded a total comprehensive loss attributable to owners of the Company of approximately RMB126.5 million for the six months ended 30 June 2026, compared with approximately RMB1.8 million for the corresponding period in 2025, representing an adverse movement of approximately RMB124.7 million. The principal driver was the change in fair value of financial assets at FVTOCI from a gain of approximately RMB1.8 million for the six months ended 30 June 2025 to a loss of approximately RMB112.3 million for the six months ended 30 June 2026, an adverse movement of approximately RMB114.0 million recognised in other comprehensive income. This loss was mainly attributable to the adverse fair value movements of certain equity investments in listed entities in the gold-related industry, whose share prices were affected by the fluctuations in gold prices during the first half of 2026. Such unrealised loss has been recovering substantially following the rebound in gold prices in the third quarter of 2026. At the profit-or-loss level, the net loss increased from approximately RMB3.6 million to RMB14.2 million, mainly reflecting higher administrative expenses and an adverse foreign-exchange movement, partly offset by higher gross profit, a net increase in other gains, lower net finance costs and lower income-tax expense.

Management Discussion and Analysis

Summary of work in the first half of 2026

I. Zhuge Shangyu Ilmenite Mine and processing plant

The Group continued the construction, testing and commissioning of the Zhuge Shangyu mining and processing project for the development of the full titanium industrial chain. The safety production permit was issued by the relevant competent authorities on 4 January 2026. As of the end of the first half of 2026, civil construction for the first phase of the processing plant has been completed. Save for a certain portion of the dust extraction system which is expected to be installed within the third quarter of 2026, all other machinery and equipment in connection with the first phase of construction have been installed. During the first half of 2026, the Group has systematically continued testing, trial-production and commissioning the individual equipment used throughout the various stages of mineral processing as well as integrated trial production using the 300,000 tonnes of ilmenite ores extracted from the Zhuge Shangyu Ilmenite Mine in 2025. As the production line remains under trial and commissioning and certain parameter metrics have not yet met the required standards, additional time is required to further fine-tune and adjust the specifications. During the six months ended 30 June 2026, there had been no exploration or production activity at the Zhuge Shangyu Ilmenite Mine and the Group did not incur material expenditure in its exploration activities. The Group continued to rely solely on the ilmenite ores extracted in the previous year for such trial production and commissioning.

The construction project for the upgrade of the processing facilities of the Zhuge Shangyu Ilmenite Mine also involves: (i) the living and office area, the interior decoration works of which are currently in progress; (ii) the science and technology center, which had not yet commenced as at 30 June 2026 and (iii) production automation, for which the installation of most of the machinery and equipment has been completed.

II. Expansion of mineral trading

The Group increased mineral trading activity during the first half of 2026. Trading revenue amounted to approximately RMB92.6 million, compared with approximately RMB4.2 million in the corresponding period of 2025. The Group continued to develop its supplier and customer networks and broaden the range of mineral products traded.

III. Strengthening internal control and project governance

In parallel with the expansion of investment and trading activities, the Group continued to strengthen approval, treasury, risk-management and post-investment monitoring processes. Management also continued to monitor the construction budget, commissioning progress and operational readiness of the Zhuge Shangyu project.

Management Discussion and Analysis

IV. Investment in Maritana Minerals Limited

In February 2026, the Company subscribed for 36,574,077 shares in Maritana Minerals Limited (formerly known as Horizon Minerals Limited) ("MRT"), whose shares are listed on the Australian Securities Exchange, by way of a placement at A\$1.08 per MRT share, for an aggregate consideration of approximately A\$39.5 million (the "MRT Subscription"). Completion took place on 14 April 2026, after which the Company held approximately 9.8% of MRT's issued shares. In March 2026, the Company also entered into a sale and purchase agreement to acquire a further 37,700,000 MRT shares (the "MRT Acquisition"). As at 30 June 2026, completion of the MRT Acquisition remained subject to the relevant Australian regulatory approval. If completed, the Group's aggregate interest in MRT is expected to be approximately 19.97% (based on the total issued shares of MRT as at 30 June 2026).

According to information published by MRT, as of February 2026 it had an estimated mineral resource of 34.32 million tonnes at 1.7 grams of gold per tonne, containing in aggregate approximately 1.88 million ounces of gold, underpinned by its key cornerstone assets at Boorara and Burbanks in Western Australia. MRT has identified that its Burbanks project has considerable potential, as only a limited portion of its principal area has been tested and exploration work has indicated the presence of high-grade gold mineralisation within it, highlighting significant exploration upside and the potential to extend mine life well beyond current forecasts.

V. Other listed securities and mining investments

During the period, the Group acquired securities in other listed companies principally engaged in gold exploration, mining and/or processing. The aggregate acquisition cost was approximately HK\$90.2 million. At 30 June 2026, financial assets at FVTPL amounted to approximately RMB68.9 million and financial assets at FVTOCI amounted to approximately RMB166.3 million.

In March 2026, the Group, through an indirect wholly-owned subsidiary of the Company, as limited partner, together with Jiangxi Xintongying Enterprise Management Co., Ltd.* (江西新同盈企業管理有限公司), as limited partner, and Beijing Shiji Lande Enterprise Management Co., Ltd.* (北京世紀蘭德企業管理有限公司), as general partner, established Jiangxi Lianhe Enterprise Management Centre (Limited Partnership)* (江西聯合企業管理中心(有限合夥)) (the "Partnership"). The Partnership is intended to serve as a shareholding and investment platform for potential investments in mining businesses, including a proposed investment in Guixi Baojia Mining Co., Ltd.* (貴溪鮑家礦業有限公司), a company engaged in mining and processing silver, lead and zinc resources (the "Baojia Acquisition"). For further details, please refer to the announcements of the Company dated 30 March 2026, 24 April 2026 and 29 July 2026.

VI. Hong Kong Gold Exchange membership

The Group acquired membership interests and related rights in the Hong Kong Gold Exchange during the period. The related intangible asset amounted to approximately RMB5.0 million at 30 June 2026. For further details, please refer to the announcement of the Company dated 29 July 2026.

Management Discussion and Analysis

FINANCIAL REVIEW

For the six months ended 30 June 2026, the Group recorded revenue of approximately RMB92.6 million, compared with approximately RMB12.9 million for the six months ended 30 June 2025, representing an increase of approximately 617.8%. All revenue for the six months ended 30 June 2026 was generated from mineral trading activities; approximately 80.2% of total revenue was derived from trading of coarse iron powder and blended coal and approximately 19.8% from trading of semi-coke. No processing-service revenue was recognised for the six months ended 30 June 2026, compared with processing-service revenue representing approximately 67.4% of total revenue for the six months ended 30 June 2025.

Prices of the Group's products

Iron Concentrates

The unit prices of 64% iron concentrates produced by the Group mainly depend on the iron content contained in the Group's iron concentrates and are affected by the market conditions, including but not limited to the global, China and Shandong supply of and demand for iron ore products and the prosperity of Shandong steel industry.

The Group did not produce and sell 65% or 64% iron concentrates for the six months ended 30 June 2026 and 2025.

Trading commodities

The average selling prices of coarse iron powder, blended coal and semi-coke were RMB911.9, RMB174.5, and RMB245.1 per tonne respectively, for the six months ended 30 June 2026.

Management Discussion and Analysis

Revenue

Revenue recorded for the six months ended 30 June 2026 was generated from the Group's trading activities. The Group's revenue is principally affected by trading volumes, product mix, availability of supplies and prevailing market prices of the minerals traded by the Group. The following table sets forth a breakdown of the Group's revenue for the periods indicated:

	Six months ended 30 June 2026 RMB'000		Six months ended 30 June 2025 RMB'000	
Revenue				
Sales from trading activities				
– coarse iron powder	2,757	3%	3,404	26.3%
– blended coal	71,477	77.2%	818	6.3%
– semi-coke	18,352	19.8%	–	–
	92,586	100%	4,222	32.6%
Processing service				
– processing of iron and other mineral ores	–	–	8,713	67.4%
	92,586	100%	12,935	100.0%

The following table sets forth a breakdown of the volume of trading commodities sold by the Group for the periods indicated:

	Six months ended 30 June 2026 (Kt)	Six months ended 30 June 2025 (Kt)
Sales volume of trading activities		
– coarse iron powder	3.0	4.0
– blended coal	409.6	2.6
– semi-coke	74.8	–
	487.4	6.6

For the six months ended 30 June 2026, all of the Group's revenue was derived from trading of blended coal, coarse iron powder and semi-coke. Trading activities represented a substantially larger scale of operations than in the corresponding period of 2025, with aggregate trading volume increasing by approximately 480.8 Kt, from 6.6 Kt for the six months ended 30 June 2025 to 487.4 Kt for the six months ended 30 June 2026.

Management Discussion and Analysis

The Group recorded revenue of approximately RMB92.6 million for the six months ended 30 June 2026, representing an increase of approximately 617.8% from the revenue of approximately RMB12.9 million for the six months ended 30 June 2025. The increase was principally attributable to the substantial expansion in trading volumes and product mix during the period. No processing service revenue was recognised for the six months ended 30 June 2026.

Cost of Sales

The following table sets forth a breakdown of the Group's cost of sales for the periods indicated:

	Six months ended 30 June 2026 RMB'000		Six months ended 30 June 2025 RMB'000	
Cost of Sales				
Cost of sales of trading activities				
– sales of coarse iron powder	2,757	3.3%	3,403	36.7%
– sales of blended coal	64,707	77.7%	816	8.8%
– sales of semi-coke	15,861	19.0%	–	–
	83,325	100%	4,219	45.5%
Cost of sales of processing services				
– processing of iron and other mineral ores	–	–	5,061	54.5%
	83,325	100%	9,280	100.0%

Cost of sales principally comprised the purchase cost of commodities sold for trading purposes. Total cost of sales increased by approximately RMB74.0 million, or 797.9%, from approximately RMB9.3 million for the six months ended 30 June 2025 to approximately RMB83.3 million for the six months ended 30 June 2026. The increase was consistent with the significant expansion of the Group's mineral trading activities, with aggregate trading volume increasing by approximately 480.8 Kt.

Management Discussion and Analysis

Gross profit and gross profit margin

The following table sets forth a breakdown of the Group's gross profit and gross profit margins for the periods indicated:

	Six months ended 30 June 2026 RMB'000		Six months ended 30 June 2025 RMB'000	
Gross profit				
Gross profit of trading activities				
– sales of coarse iron powder	–	–	1	0.0%
– sales of blended coal	6,770	73.1%	2	0.1%
– sales of semi-coke	2,491	26.9%	–	–
	9,261	100%	3	0.1%
Gross profit of processing services				
– processing of iron and other mineral ores	–	–	3,652	99.9%
	9,261	100%	3,655	100.0%

Management Discussion and Analysis

	Six months ended 30 June 2026	Six months ended 30 June 2025
Gross profit margin		
Gross profit margin of trading activities		
– sales of coarse iron powder	0.0%	0.0%
– sales of blended coal	9.5%	0.2%
– sales of semi-coke	13.6%	–
Gross profit margin of provision of processing services		
– processing of iron and other mineral ores	–	41.9%
Total gross profit margin	10.0%	28.3%

Gross profit increased by approximately RMB5.6 million, from approximately RMB3.7 million for the six months ended 30 June 2025 to approximately RMB9.3 million for the six months ended 30 June 2026, principally due to the substantial increase in mineral trading volume during the period.

Overall gross profit margin decreased from approximately 28.3% for the six months ended 30 June 2025 to 10.0% for the six months ended 30 June 2026. The decrease principally reflected the change in revenue mix: processing services, which generated a gross profit margin of approximately 41.9% and accounted for 67.4% of the revenue for the six months ended 30 June 2025, generated no revenue for the six months ended 30 June 2026, while all revenue was derived from lower-margin mineral trading activities for the six months ended 30 June 2026.

Management Discussion and Analysis

Administrative expenses

Administrative expenses increased by approximately RMB22.8 million, or 76.3%, from approximately RMB29.8 million for the six months ended 30 June 2025 to approximately RMB52.6 million for the current period. At an expense-by-nature level, the period-on-period increase was associated with higher staff costs, land compensation expenses, professional fees, promotion and marketing expenses, travelling expenses and other expenses, together with local government levies and audit fees incurred for the six months ended 30 June 2026, partly offset by lower short-term rental and utilities expenses. The increase primarily arose from the Group's recruitment of suitable management candidates and its increased brand building efforts as part of the implementation of its strategic business diversification plans, and was in line with the Group's expanded financing, investment, acquisition, corporate and compliance activities during the period.

Finance costs, net

Gross interest expenses decreased to approximately RMB1.8 million for the six months ended 30 June 2026 from approximately RMB2.0 million for the six months ended 30 June 2025. The current period expenses mainly comprised approximately RMB1.8 million arising from the unwinding of discount on amounts payable for mining rights and approximately RMB38,000 of interest on lease liabilities. Interest income increased to approximately RMB1.4 million for the six months ended 30 June 2026 from approximately RMB0.2 million for the six months ended 30 June 2025. Accordingly, net finance costs decreased to approximately RMB0.4 million for the six months ended 30 June 2026 from approximately RMB1.8 million for the six months ended 30 June 2025.

Total comprehensive loss

Total comprehensive loss attributable to owners of the Company increased by approximately RMB124.7 million, from approximately RMB1.8 million for the six months ended 30 June 2025 to approximately RMB126.5 million for the six months ended 30 June 2026. The largest driver was an adverse movement of approximately RMB114.0 million in the fair value of FVTOCI financial assets recognised in other comprehensive income, from a gain of approximately RMB1.8 million for the six months ended 30 June 2025 to a loss of approximately RMB112.3 million for the six months ended 30 June 2026. This loss was mainly attributable to the adverse fair value movements of certain equity investments in listed entities in the gold-related industry, whose share prices were affected by the fluctuations in gold prices during the first half of 2026. Such unrealised loss has been recovering substantially following the rebound in gold prices in the third quarter of 2026. The Group's net loss also increased by approximately RMB10.6 million, from RMB3.6 million in the six months ended 30 June 2025 to RMB14.2 million in the six months ended 30 June 2026, principally reflecting the RMB22.8 million increase in administrative expenses and an approximately RMB4.7 million adverse foreign-exchange movement mainly recognised in connection with settlement of consideration for the MRT Acquisition denominated in Australian dollars due to exchange rate volatility between the Australian dollar and Renminbi, partly offset by an approximately RMB5.6 million increase in gross profit, an approximately RMB7.5 million increase in other gains, a reduction of approximately RMB1.4 million in net finance costs and a reduction of approximately RMB1.9 million in income tax expense.

Management Discussion and Analysis

WORK PLAN FOR THE SECOND HALF OF 2026

In the second half of 2026, the Group will steadily implement its business diversification strategy covering precious metals, continue advancing the upgrades and development at the Zhuge Shangyu Ilmenite Mine and its processing plant, and continue to expand into gold, silver and other mineral-resources businesses through acquisitions of and/or investments in appropriate strategic interests in target companies. Driven by global economic uncertainties and the safe-haven attributes of precious metals, gold, silver and other precious and non-ferrous metals have continued to attract market attention in recent years. Positioning in such businesses and assets will help reduce the Group's risk of over-reliance on a limited range of commodities, hedge against commodity-market fluctuations, and at the same time capture market opportunities and enhance the overall value of the Company.

- I. Continue commissioning and operational preparation for the Zhuge Shangyu Ilmenite Mine and processing plant under the full titanium industrial chain, with the objective of commencing stable commercial production when regulatory, technical and market conditions permit.
- II. The Company has been continuously searching for and screening attractive potential mining projects. For domestic mining targets, the Company will give priority to projects that have already commenced production or are about to commence production. For overseas mining targets, the Company will focus on projects whose resources and reserves have growth potential and whose mining and processing techniques are similar to those in the PRC, so as to fully leverage the Company's production, operation and management experience and to select cost-effective mining projects. As at the date of this report, no specific investment or acquisition target has been locked in, but the Company has been in contact with a number of potential targets presenting potential investment opportunities. The Company is evaluating and verifying the fundamentals, growth potential and investment value of the target enterprises in a prudent manner, with a view to capturing investment and acquisition opportunities that meet the aforesaid screening criteria.
- III. In addition, the Company intends in the second half of the year to explore the feasibility of trading, sales and recycling opportunities in gold and silver precious metals, explore innovative product forms in the precious-metals industry, and establish cooperation channels with the gold markets in Hong Kong, the Mainland and internationally as they represent initiatives to explore potential businesses and partnerships within the Company's existing precious-metals mining business framework.
- IV. Expand mineral trading prudently, with emphasis on counterparty credit, inventory turnover, pricing discipline and cash conversion.

Management Discussion and Analysis

- V. Complete the deployment of rights-issue and placing proceeds in accordance with the uses as disclosed in relevant announcements and strengthen post-investment monitoring.
- VI. Enhance internal controls, treasury management, compliance and corporate governance to support the enlarged and more diversified business platform.
- VII. Respond to possible market trends in a timely manner to enhance the Company's ability to maintain normal operations and sustainable profitability.

LIQUIDITY AND FINANCIAL RESOURCES

As at 30 June 2026, the Group's total borrowings for gearing-ratio purposes, comprising borrowings and amounts due to a related company, a former controlling shareholder, a Director and a shareholder, were approximately RMB517.9 million, compared with approximately RMB507.3 million as at 31 December 2025. Cash and cash equivalents were approximately RMB197.8 million as at 30 June 2026, compared with approximately RMB240.2 million at 31 December 2025. All such borrowings were denominated in Renminbi and Hong Kong dollar and were interest-free.

As at 30 June 2026, net current assets increased to approximately RMB225.0 million from approximately RMB157.4 million as at 31 December 2025, while the current ratio improved to approximately 2.97 times as at 30 June 2026 from approximately 2.12 times as at 31 December 2025. The improvement reflected the increase in current assets to approximately RMB339.4 million as at 30 June 2026, including RMB68.9 million of financial assets at FVTPL, together with the decrease in current liabilities to approximately RMB114.4 million as at 30 June 2026. The gearing ratio, calculated as total debt described above divided by the sum of such debt and total equity, decreased to approximately 39.9% as at 30 June 2026 from approximately 52.3% as at 31 December 2025, mainly due to the increase in equity following completion of the rights issue in March 2026.

CAPITAL STRUCTURE

The Company completed a rights issue in March 2026 upon which 175,143,264 rights shares were issued. Accordingly, as at 30 June 2026, the Company had 525,429,792 issued ordinary shares of HK\$0.04 each, representing issued share capital of HK\$21,017,191.68. For further details, please refer to the section headed "Issue of Equity Securities" below.

The Group manages its capital structure with the objective of maintaining adequate liquidity for mining development, trading operations and strategic investments. Management will continue to balance the use of equity financing, operating cash flows and shareholder or related-party funding, taking into account the capital-intensive nature of mining projects and market conditions.

Management Discussion and Analysis

ISSUE OF EQUITY SECURITIES

Rights Issue

The Company had on 29 January 2026 announced, and on 30 March 2026 completed, a rights issue on the basis of one new ordinary share of the Company ("Share") for every two existing Shares held by qualifying Shareholders on 5 March 2026 on a non-underwritten basis ("Rights Issue"), in which the Company raised net proceeds of approximately HK\$503.4 million ("Rights Issue Net Proceeds") in order to diversify the Group's existing mining and mineral trading business to include other mineral resources to mitigate the risks associated with dependence on a limited commodity range and hedge exposure to commodity market fluctuations, while allowing the Group to reserve sufficient cash to meet operating expenses and capital expenditures in its existing mining business and/or mineral trading business as well as payment obligations with its trade and other creditors from time to time.

Pursuant to the Rights Issue, a total of 175,143,264 Shares ("Rights Shares") were issued at a subscription price of HK\$2.88 each and had an aggregate nominal value of approximately HK\$7,005,730.56. The net subscription price of each Rights Share was approximately HK\$2.87. The closing price of the Shares on 29 January 2026, being the date on which the terms of the Rights Issue were fixed, was HK\$4.62.

As previously disclosed in the rights issue prospectus dated 6 March 2026, the Company intended to apply the Rights Issue Net Proceeds in the following manner:

- i) approximately HK\$352.4 million or 70.0% for pursuing suitable acquisition and/or investment opportunities ("Investment and Acquisition Use");
- ii) approximately HK\$75.5 million or 15.0% to supplement the Group's working capital in respect of Group's trading business and/or operations of the Zhuge Shangyu Ilmenite Mine;
- iii) approximately HK\$50.3 million or 10.0% for working capital in connection with any companies and/or businesses to be acquired or invested in by the Group in future ("Target Working Capital Use"); and
- iv) approximately HK\$25.2 million or 5.00% for the costs and expenses for office and administration, professional and compliance, corporate governance, investor relations, and other business and strategic development of the Group.

Management Discussion and Analysis

As announced by the Company on 29 July 2026, the Rights Issue Net Proceeds allocated towards the Target Working Capital Use remained unutilised as at 30 June 2026, and the Board resolved to reallocate such portion of the Rights Issue Net Proceeds towards the Investment and Acquisition Use instead. Set out below is the detailed information, as at 30 June 2026, of the status on the allocation and the utilisation of the Rights Issue Net Proceeds, and the change in the use of the Rights Issue Net Proceeds as resolved by the Board:

Management Discussion and Analysis

Placing

On 18 June 2026, the Company entered into a placing agreement with Somerley Capital Limited, Skyvast Securities Limited and First Shanghai Securities Limited as joint placing agents, pursuant to which the joint placing agents agreed to place, on a best effort basis, up to 23,200,000 new Shares (the "Placing Shares") to not less than six professional, institutional or other investors (the "Placees") at the placing price of HK\$4.08 per Placing Share (the "Placing"). The Board considered it was necessary to conduct the Placing at the material time taking into account, among others, the Group's existing capital expenditure needs, repayment obligations and funding commitments, in order for the Group to pursue additional investment and/or acquisition opportunities for business diversification purposes, and considered that the Placing would represent an opportune and appropriate timing to broaden the Company's shareholder and capital base, optimize its financial structure, and ensure sufficient liquidity is readily available for potential strategic growth opportunities. The Placing was completed on 4 August 2026. For further details, please refer to the section headed "Events after the Reporting Period" in this report and the announcements of the Company dated 18 June 2026, 14 July 2026, 29 July 2026 and 4 August 2026.

The entire net proceeds from the Placing of approximately HK\$93.2 million shall be allocated towards pursuing suitable investments and/or acquisition opportunities in target companies having mining operations for gold, silver and/or other precious or non-ferrous metals in the PRC or overseas, as evaluated by the Board from time to time.

SIGNIFICANT INVESTMENTS

As at 30 June 2026, financial assets at FVTOCI amounted to approximately RMB166.3 million, representing approximately 11.5% of the Group's total assets of approximately RMB1,447.2 million. These assets principally included the Group's strategic investment in MRT. Financial assets at FVTPL amounted to approximately RMB68.9 million, representing approximately 4.8% of total assets. In aggregate, the Group's listed equity investments measured at FVTOCI and FVTPL amounted to approximately RMB235.2 million, or approximately 16.3% of total assets.

MRT is a mid-tier gold producer with projects located in the West Australian goldfields and whose shares are listed on the Australian Securities Exchange (ASX: MRT). MRT has identified its Burbanks project as a significant asset with promising gold resources, and taking into account, among others, the strategic location of its nickel processing facility that was being refurbished to process gold. During the six months ended 30 June 2026, the Company had subscribed for 36,574,077 shares in MRT pursuant to the MRT Subscription for aggregate consideration of A\$39.5 million, of which completion has taken place, resulting in the Company holding approximately 9.8% of the total issued shares of MRT as at 30 June 2026. The Company's shareholding in MRT is accounted for as investments in financial assets. The fair value of the Group's investment in MRT as at 30 June 2026 was approximately RMB108.2 million, which represented approximately 7.48% of the Group's total assets. In addition, the Company also purchased 37,700,000 MRT shares pursuant to the MRT Acquisition for aggregate consideration of A\$40,716,000 to be settled by the allotment and issue, credited as fully paid, of 46,780,085 new Shares, but which as at 30 June 2026, has yet to be completed pending approval from the relevant Australian authorities. Upon completion of the MRT Acquisition, the Company is expected to hold 74,274,077 MRT shares, representing approximately 19.97% of the total issued shares of MRT (based on the total issued shares of MRT as at 30 June 2026). During the six months ended 30 June 2026, the Group recorded an investment loss of approximately RMB84.8 million from its investments in MRT and did not receive any dividend. The Board is of the view that MRT has strong prospects of becoming a vertically-integrated gold processing hub and will continue to bring investment gain to the Group. As such, the Company will continue holding its investment in relation to MRT.

Management Discussion and Analysis

The Group, as limited partner, also established the Partnership in March 2026. Pursuant to the relevant partnership agreement (as supplemented), the Group was required to make total capital contribution of RMB108 million (representing 48.87% of the interests in the Partnership), of which approximately RMB17.5 million has been paid as at 30 June 2026. The Partnership is accounted for using equity method in the consolidated financial statements of the Company. The Directors have assessed the fair value of the Group's investment in the Partnership as at 30 June 2026 and are of the view that it closely approximates its carrying amount of approximately RMB17.5 million, which represented approximately 1.21% of the Group's total assets. During the six months ended 30 June 2026, the Group did not receive any dividend from the Partnership. The Board is optimistic about the Baojia Acquisition, the principal investment target of the Partnership, materialising, and therefore, the Group will continue holding its investment in relation to the Partnership.

The Group monitors the performance, market price, liquidity and strategic rationale of its securities investments. These investments expose the Group to equity-price risk, foreign-exchange risk and commodity-cycle risk. Management intends to maintain a disciplined approach to position sizing and post-investment monitoring.

MATERIAL ACQUISITIONS AND DISPOSALS OF SUBSIDIARIES, ASSOCIATES AND JOINT VENTURES

Save for the investment in the Partnership as disclosed under paragraph V under the section headed "Summary of work in the first half of 2026" in this report, there were no other material acquisitions or disposals of subsidiaries, associates or joint ventures during the six months ended 30 June 2026.

EMPLOYEES AND REMUNERATION POLICY

As at 30 June 2026, the Group had 175 employees (31 December 2025: 146), most of whom were stationed in the PRC. Employee benefit expense, including Directors' emoluments, amounted to approximately RMB11.8 million for the six months ended 30 June 2026 (six months ended 30 June 2025: approximately RMB7.4 million). The Group's remuneration policy remained performance-based and market-competitive, with statutory retirement benefits provided to eligible employees.

CHARGE OVER THE GROUP'S ASSETS

No pledged bank deposits were recorded at 30 June 2026, compared with a pledged bank deposit of RMB2,500,000 at 31 December 2025 for issuing guarantee of RMB2,500,000 in favour of a contractor of the Group. There were no charges over the assets of the Group as at 30 June 2026.

FOREIGN CURRENCY EXPOSURE

The Group's functional and presentation currency is Renminbi. Following the Group's investment in overseas listed securities and equity financing activities carried out during the six months ended 30 June 2026, the Group is exposed mainly to Hong Kong dollar and Australian dollar fluctuations, in addition to the foreign currency exposures arising in the ordinary course of business. The Group did not enter into material foreign-currency hedging arrangements during the period and will continue to adopt a proactive approach to closely monitor the foreign currency market, and consider hedging arrangements if such need arises.

Management Discussion and Analysis

CAPITAL COMMITMENTS

Capital expenditure contracted for but not provided for at 30 June 2026 amounted to approximately RMB302.6 million (31 December 2025: RMB32.1 million).

CONTINGENT LIABILITIES

As at 30 June 2026, the Group had no significant contingent liabilities.

EVENTS AFTER THE REPORTING PERIOD

On 29 July 2026, the Company resolved to reallocate the Rights Issue Net Proceeds from the Target Working Capital Use to the Investment and Acquisition Use, the details of which are set out in the section headed “ISSUE OF EQUITY SECURITIES – Rights Issue” above.

On 4 August 2026, the Company completed the Placing of 23,200,000 Placing Shares to not less than six Placées at HK\$4.08 per Placing Share. The net proceeds from the Placing amounted to approximately HK\$93.2 million. The Placing Shares had an aggregate nominal value of HK\$928,000. The closing price of the Share on 18 June 2026, being the date on which the terms of the Placing were fixed, was HK\$4.70, while the net price of each Placing Share was approximately HK\$4.02. For further details of the Placing, please refer to the announcements of the Company dated 18 June 2026, 14 July 2026, 29 July 2026 and 4 August 2026.

Save as disclosed above, there were no events causing material impact on the Group from the end of the reporting period to the date of this report.

FUTURE PLAN FOR MATERIAL INVESTMENTS OR CAPITAL ASSETS

As disclosed in the announcements of the Company dated 30 March 2026, 24 April 2026 and 29 July 2026, the Partnership, as a shareholding and investment platform of the Group, has been negotiating the Baojia Acquisition. In anticipation of the Baojia Acquisition materialising and completing within 2026, certain proceeds from the Rights Issue have been reallocated from the Target Working Capital Use to the Investment and Acquisition Use in order to settle part of the outstanding capital contribution payable by the Group in respect of the Partnership.

In connection with the upgrade of the processing facilities of the Zhuge Shangyu Ilmenite Mine, it is expected that the capital expenditure to be incurred during the year ended 31 December 2026 shall be not less than approximately RMB100 million (subject to audit and adjustment upon review by auditors of the Company), of which more than half has been paid as at 30 June 2026 using the Group's existing financial resources, with the remainder expected to be incurred during the second half of 2026 to be funded by existing financial resources reserved for the Zhuge Shangyu Ilmenite Mine, and if required due to any unforeseen circumstances, loans to be advanced by a controlling shareholder of the Company. Based on the current development plans for the upgrade of the processing facilities of the Zhuge Shangyu Ilmenite Mine, it is expected that the capital expenditure to be incurred in connection with such upgrade in the years ending 31 December 2027 and 2028 would be approximately RMB10 million and RMB20 million, respectively, which shall be funded by internal financial resources of the Group, and no additional material capital expenditure is expected to be incurred in respect of such upgrade after 2028. Save as disclosed above, the Directors confirmed that, as at the date of this report, there was no plan for any material investment or to acquire capital assets other than those in the Group's ordinary business.
