Management Discussion and Analysis

I. BUSINESS REVIEW

Overview

We are a leading innovative interventional cardiovascular device company in China with a current focus on two therapies: (i) BRS addressing the unmet medical needs of Chinese patients for the treatment of coronary artery diseases, and (ii) RDN addressing the unmet medical needs of patients for the treatment of uncontrolled hypertension and resistant hypertension.

Our Products and Product Candidates

As of the date of this report, we have a portfolio of three product candidates in various stages of development or commercialization. The following diagram summarizes the status of our product candidates under development or commercialization as of the date of this report:

Management Discussion and Analysis

BRS Product Candidate

Bioheart®, our BRS product, is a self-developed temporary scaffold that will be fully resorbed by the human body over time. It is a BRS system used in percutaneous coronary intervention procedures for the treatment of coronary artery disease. As of the date of this report, we held over 40 patents in relation to Bioheart®, with one registered in the U.S. and two registered in Europe. Bioheart® was recognized as an “innovative medical device” by the NMPA in February 2017 and is therefore eligible for an expedited approval process. On February 16, 2022, the Company completed the patient enrollment process for the clinical trial of Bioheart®.

On June 29, 2026, Bioheart® bioabsorbable drug-eluting stents developed by the Company, has been approved by the NMPA, for the patients with ischemic heart disease caused by native coronary lesions, to improve the intracoronary lumen diameter. For further details, please refer to the Company’s announcement dated July 2, 2026.

RDN Product Candidate

Iberis® is our self-developed RDN system. RDN is one of the few device therapies with proven clinical efficacy to treat uncontrolled hypertension and resistant hypertension and is considered by many industry experts as having the potential to transform the treatment paradigm of hypertension. As of the date of this report, we held over 20 patents in relation to Iberis® with one registered in Japan. Iberis® was recognized as an “innovative medical device” by the NMPA in November 2016. On April 11, 2023, the Company announced that the randomized controlled trial of Iberis® Multi-Electrode Renal Artery Radiofrequency Ablation Catheter System in patients with Essential Hypertension has achieved its primary clinical endpoint according to the Statistical Report that the Company received. Detailed data has been presented at China Interventional Therapeutics 2023 and published in *Circulation* in 2024. For details, please refer to the Company’s announcements dated April 11, 2023 and November 28, 2024, respectively.

On February 26, 2025, Iberis® RDN system was approved by the NMPA for the adjuvant treatment for resistant hypertension and hypertension patients with drug intolerance. In February 2025, the first commercial procedure for Iberis® RDN system was completed in Europe. For further details, please refer to the Company’s announcements dated February 26, 2025 and March 3, 2025, respectively.

As of June 2026, Iberis® RND System has obtained regulatory approvals for market access in 23 countries across the globe: Germany, the United Kingdom, France, Italy, Switzerland, Spain, Portugal, Turkey, Hungary, Austria, Denmark, Finland, Ireland, Croatia, Israel, Ecuador, New Zealand, Singapore, Indonesia, Malaysia, Vietnam, Thailand and China.

Management Discussion and Analysis

DCB Product Candidate

Our newly developed DCB is a sirolimus drug coated balloon catheter designed mainly for the treatment of in-stent restenosis. The drug coating contains sirolimus, amphipathic liposomes, biodegradable polymers and dispersants in a certain ratio to achieve efficient transfer and durable release of the drug coating. By encapsulating sirolimus in biodegradable nanoparticles to form nano drug-loaded microspheres, this method achieves a long release of approximately 90 days in the target vessel tissue.

Compared with paclitaxel, sirolimus has anti-inflammatory effect and its unique cytostatic effect potentially allows it to have higher safety, wider therapeutic window and reduced restenosis.

On March 27, 2025, the Company's SAKURA-SCB trial for ischemic heart disease in Japan has successfully enrolled its first patient in Tokyo. The trial is a single-blind, multicenter comparative study to evaluate the efficacy and safety of the sirolimus DCB product candidate. The procedure was conducted at The Cardiovascular Institute located in Tokyo. For further details, please refer to the Company's announcement dated March 28, 2025.

As of June 30, 2026, the Company's SAKURA-SCB trial for ischemic heart disease in Japan is proceeding with smooth enrolment, with enrolment completion expected in the second half of 2026.

WE MAY NOT BE ABLE TO SUCCESSFULLY DEVELOP AND/OR MARKET OUR CORE PRODUCT, BIOHEART®, OR ANY OTHER PRODUCT CANDIDATES.

Research and Development

Our research and development team has been focusing on developing medical devices for the treatment of coronary diseases, as well as uncontrolled and resistant hypertension. We have independently developed a number of innovative medical devices and commercialized our RDN product in multiple regions. As of the date of this report, we had:

- one Core Product, one RDN product, as well as a sirolimus DCB product candidate in various stages of development and commercialization;
- over 80 registered patents and over 30 pending patent applications;
- NMPA approval for BRS and RDN products; and
- CE Marking and 22 registration certificates for our RDN product commercialized in overseas markets.

Management Discussion and Analysis

Manufacturing

We have several manufacturing facilities located in Shanghai and a new manufacturing plant in construction in Jiaxing City, Zhejiang Province, which is expected to finish the renovation by the end of 2026 and officially put into use in 2027.

Commercialization

As of the date of this report, we have successfully commercialized the Iberis® 2nd RDN System in multiple countries and regions, including Germany, the United Kingdom, France, Italy, Switzerland, Spain, Portugal, Turkey, Hungary, Austria, Denmark, Finland, Ireland, Croatia, Israel, Ecuador, New Zealand, Singapore, Indonesia, Malaysia, Vietnam, Thailand and China.

Future and Outlook

Our goal is to become a world-renowned chronic disease management medical device platform. We plan to implement the following strategies to achieve this goal:

- rapidly advance the clinical development and commercialization of our product candidates, especially Bioheart® and Iberis®, in order to enjoy a “first-mover” advantage in the unmet BRS and RDN markets in China;
- enhance our sales efforts and strengthen our presence in the interventional cardiovascular device market in China;
- further enhance our research and development capabilities and expand our product portfolios;
- expand our manufacturing capabilities and build our in-house sales and marketing team;
- further expand our presence in China and globally; and
- actively seek opportunities for external partnerships, strategic investments and acquisitions to facilitate our future expansion.

Management Discussion and Analysis

II. FINANCIAL REVIEW

Revenue

Our revenue during the six months ended June 30, 2026 was derived from the commercialization of RDN products and processing fee income. We recognized revenue of RMB14.4 million for the six months ended June 30, 2026 (six months ended June 30, 2025: RMB20.9 million), including RMB12.5 million of sales of goods and RMB1.9 million from collaboration revenue.

Cost of Sales

Cost of sales was RMB7.7 million during the six months ended June 30, 2026, which was due to the commercialization of Iberis® RDN system and processing fee cost (six months ended June 30, 2025: RMB11.2 million).

Other Income and Gains

Our other income mainly consisted of government grants, bank interest income, foreign exchange gains and others. Our government grants mainly included government subsidies for compensating our expenses relating to certain research and development projects.

Our other income and gains increased by RMB8.9 million from RMB0.8 million for the six months ended June 30, 2025 to RMB9.7 million for the six months ended June 30, 2026. The increase was primarily attributable to the increase of government grants of RMB6.5 million during the Reporting Period.

Administrative Expenses

Our administrative expenses mainly consisted of (i) employee benefit expenses, (ii) depreciation and amortization expenses, (iii) professional service expenses, and (iv) utilities and office expenses. Employee benefit expenses mainly included salaries and other welfare for our administrative employees.

Our administrative expenses decreased by RMB2.5 million from RMB9.7 million for the six months ended June 30, 2025 to RMB7.2 million for the six months ended June 30, 2026. The decrease was primarily attributable to (i) the decrease of professional service expenses by RMB1.2 million, and (ii) the decrease of employee benefit expenses by RMB1.8 million during the six months ended June 30, 2026.

Management Discussion and Analysis

Selling and Marketing Expenses

Our selling and marketing expenses mainly consisted of (i) employee benefit expenses for marketing staff, (ii) marketing and promotion fees, and (iii) travelling and business expenses.

Our selling and marketing expenses increased by RMB0.1 million from RMB1.1 million for the six months ended June 30, 2025 to RMB1.2 million for six months ended June 30, 2026. The increase was primarily attributable to (i) salaries and pension schemes for marketing staff amounted to RMB0.7 million, and (ii) marketing and promotion fees for RDN products amounted to RMB0.3 million.

Research and Development Expenses

Our research and development expenses mainly consisted of (i) third party contracting cost, (ii) employee benefits expenses for our research and development staff, (iii) costs of raw materials and consumables used, and (iv) depreciation and amortization expenses.

Our research and development expenses increased by RMB15.7 million from RMB20.1 million for the six months ended June 30, 2025 to RMB35.8 million for the six months ended June 30, 2026. The increase was primarily attributable to the increase of third party contracting cost by RMB20.0 million due to the progress of R&D projects.

The following table sets forth a breakdown of our research and development expenses for the periods indicated:

	Six months ended June 30,	
	2026	2025
	RMB'000	RMB'000
	(Unaudited)	(Unaudited)
Third party contracting cost	30,029	9,991
Employee benefit expenses	3,405	3,730
Costs of raw materials and consumables used	1,069	2,673
Depreciation and amortization expenses	776	1,064
Others	545	2,632
Total	35,824	20,090

Management Discussion and Analysis

Finance Costs

Our finance costs mainly consisted of (i) interest on lease liabilities relating to our lease of office premises, (ii) interest on redemption liabilities on a subsidiary's shares, and (iii) transaction costs attributable to redemption liabilities on a subsidiary's shares.

Our finance costs decreased from RMB6.6 million for the six months ended June 30, 2025 to RMB5.2 million for the six months ended June 30, 2026. The decrease was primarily attributable to the existence of an one-off transaction costs attributable to redemption liabilities on a subsidiary's shares incurred for the six months ended June 30, 2025, amounted to RMB3.2 million, which was not incurred for the six months ended June 30, 2026.

Income Tax Credit

We recorded RMB0.1 million and RMB0.7 million in income tax credit for the six months ended June 30, 2026 and 2025, respectively.

Loss for the Period

Based on the factors described above, our net losses amounted to RMB33.2 million and RMB26.7 million for the six months ended June 30, 2026 and 2025, respectively.

Liquidity and Financial Resources

Our primary uses of cash are to fund the development of our product candidates, our clinical trials, our payment for the purchase of plant and equipment, administrative expenses and other recurring expenses. Going forward, we may also use some of our cash for the acquisition of property for constructing our own manufacturing facility. Our net cash used in operating activities was RMB12.6 million for the six months ended June 30, 2026, primarily attributable to the significant research and development expenses and administrative expenses we incurred during the Reporting Period. Our operating cash flow will continue to be affected by our research and development expenses. During the Reporting Period, we mainly relied on bank balances as the major sources of liquidity. Our management closely monitors uses of cash and cash balances and strives to maintain healthy liquidity for our operations. Going forward, we believe our liquidity requirements will be satisfied by a combination of net proceeds from Global Offering and cash generated from our operations.

Our net cash generated from investing activities was RMB14.6 million for the six months ended June 30, 2026, primarily attributable to the redemption of time deposits.

Management Discussion and Analysis

Our net cash generated from financing activities was RMB1.8 million for the six months ended June 30, 2026.

As at June 30, 2026, we had cash and cash equivalents of RMB92.2 million, representing a decrease of 0.1% compared to RMB92.3 million as at December 31, 2025.

Our net current assets decreased from RMB356.9 million as at December 31, 2025 to RMB348.4 million as at June 30, 2026, primarily attributable to the decrease of time deposits.

Capital Expenditure

Our capital expenditure primarily consisted of expenditure on machinery, office equipment, motor vehicles and leasehold improvements.

Our capital expenditure increased from RMB0.2 million for the six months ended June 30, 2025 to RMB2.4 million for the six months ended June 30, 2026. The increase was primarily due to the increase in purchase of machinery and equipment.

Indebtedness

As at June 30, 2026, we did not have any outstanding balance of borrowings nor any unutilized banking facilities.

Our lease liabilities decreased from RMB12.7 million as at December 31, 2025 to RMB11.5 million as at June 30, 2026, primarily attributable to the lease payments made during the Reporting Period.

Gearing Ratio

Our gearing ratio, which was calculated by using total liabilities divided by total assets and multiplied by 100%, increased from 26.5% as at December 31, 2025 to 26.8% as at June 30, 2026.

Capital Commitments

Our capital commitments decreased from RMB35.9 million as at December 31, 2025 to RMB33.3 million as at June 30, 2026, primarily due to expenditures on leasehold improvements and purchases of plant and machinery.

Pledge of Assets

As at June 30, 2026, we had no pledge of assets.

Management Discussion and Analysis

Contingent Liabilities

As at June 30, 2026, we did not have any material contingent liabilities.

Significant Investments, Material Acquisitions and Disposals

On February 13, 2026, the Group, together with other shareholders of Xinzhi Medical, entered into an equity transfer agreement with an independent third party (the “Purchaser”), pursuant to which all the shareholders of Xinzhi Medical shall dispose of the entire equity interests in Xinzhi Medical to the Purchaser. According to the agreement, the consideration for the sale and purchase of approximately 22.18% equity interests in Xinzhi Medical held by the Group shall be RMB16,869,300, which was determined following arm’s length negotiations among the parties. Having considered that (i) Xinzhi Medical had not commercialized any products; (ii) the per unit price of the drug coated balloon products developed by Xinzhi Medical has dropped significantly with reference to the winning bid price of the national centralized procurement of medical consumables; and (iii) the market of the drug coated balloon products is very competitive as the share of winning bids for Xinzhi Medical in 2026 only accounted for a limited market share, the Board is of the view that the discount provided and the consideration are fair and reasonable and in the interests of the Company and its shareholders as a whole.

As of the date of this report, the Group has received partial payment of the consideration for the disposal of equity interests in Xinzhi Medical. It is expected that the remaining consideration will be collected upon the completion of the alteration process at the Shanghai Branch of the State Administration of Foreign Exchange. Currently, the Group no longer retains any equity interests in Xinzhi Medical, and Xinzhi Medical has been wholly owned by the Purchaser. As all applicable percentage ratios of the above transactions are below 5%, the transactions are therefore exempt from the disclosure requirements under Chapter 14 of the Listing Rules.

Save as disclosed above and in this report, we did not hold any significant investments, nor did we conduct any material acquisitions and disposals of subsidiaries during the Reporting Period.

Foreign Exchange Exposure

We are exposed to foreign currency risk mainly arising from cash at bank denominated in USD. We currently do not have a foreign currency hedging policy. However, our management monitors foreign exchange exposure and will consider appropriate hedging measures in the future should the need arise.

Management Discussion and Analysis

Future Plans for Material Investments or Capital Assets

Save as otherwise disclosed in this report, the Group has no other material capital expenditure plan as of the date of this report.

Human Resources

As of June 30, 2026, the Group had 63 full-time employees, who were all based in China. The total employee benefit expenses of the Group, which consist of (i) wages, salaries and bonuses, (ii) contributions to statutory employee benefit plans, and (iii) employee welfare, were approximately RMB8.8 million for the Reporting Period.

We recruit our employees based on a number of factors, including work experience, educational background and the requirements of a relevant vacancy. We invest in continuing education and training programs for our management staff and other employees to upgrade their skills and knowledge continuously. We provide our employees with regular feedback as well as internal and external training in various areas, such as product knowledge, project development and team building. We also assess our employees based on their performance to determine their salary, promotion and career development. In compliance with the relevant PRC labor laws, we enter into Individual employment contracts with our employees covering matters such as duration, wages, bonuses, employee benefits, workplace safety, confidentiality obligations, non-competition and grounds for termination. The Group ensures that its remuneration packages are comprehensive and competitive from time to time. When determining the emolument payable to the Directors, we take into account the experience of the Directors, their level of responsibility and general market conditions. Any discretionary bonus and other merit payments of the Directors are linked to the profit performance of the Group and the individual performance of the Directors. Employees are remunerated with a fixed monthly income plus annual performance related bonus. In addition, we are required under PRC law to make contributions to statutory employee benefit plans (including pension plans, medical insurance, work related injury insurance, unemployment insurance, maternity insurance and housing funds) at a certain percentage of our employees' salaries, including bonus and allowances, up to a maximum amount specified by the local government.

In addition, in September 2020, the Board passed a resolution to grant up to 14,509,413 restricted shares of the Company to directors, employees, founders of the Company and AngioCare (the "2020 Plan"). The subscription price paid by the shareholding platforms of the 2020 Plan was RMB1.0 per share of the Company. It was established in order to retain certain eligible employees for the continual operation and development of the Group, thereby enhancing employee retention and motivation.

Management Discussion and Analysis

USE OF PROCEEDS

On December 23, 2021, the Company was successfully listed on the Stock Exchange. The net proceeds received by the Group from the Global Offering after deducting underwriting fee and relevant expenses amounted to approximately HK\$441.69 million.

On March 31, 2023, the Board has reallocated the unutilized proceeds originally for “To fund the research and development, ongoing preclinical studies and planned clinical trials of other product candidates in our pipeline, including Bio-Leap™, Bioheart Ultra™, our Bioheart® balloon dilatation catheter, our Bioheart® non-compliant (high-pressure) balloon dilatation catheter and our Bioheart® impulse balloon dilatation catheters” to “To fund the research and development of DCB”. For details, please refer to the announcement of the Company dated March 31, 2023.

On February 8, 2024, the Board resolved to change the use of unutilized net proceeds from the Global Offering as follows:

- (i) reallocating approximately HK\$26.37 million, which was originally allocated for funding the ongoing randomized controlled clinical trial in China for, and the continuous development of, the Group’s RDN product candidate, Iberis® 2nd, to funding the acquisition of the Property, which was completed in March 2024; and
- (ii) reallocating approximately HK\$70 million, which was originally allocated for funding the ongoing confirmatory clinical trial, preparation for registration filings, and planned commercial launch of the Company’s Core Product, Bioheart®, to funding the research and development of DCB.

For details, please refer to the announcement of the Company dated February 8, 2024.

On October 30, 2024, the Board resolved to further change the use of unutilized net proceeds from the Global Offering as follows:

- (i) reallocating approximately HK\$51.48 million, which was originally allocated for “funding the ongoing confirmatory clinical trial, preparation for registration filings, and planned commercial launch of the Company’s Core Product, Bioheart®”, to “funding the construction of manufacturing facility and sales center and the subsequent commercial operation”;
- (ii) reallocating approximately HK\$10 million, which was originally allocated for “funding the ongoing confirmatory clinical trial, preparation for registration filings, and planned commercial launch of the Company’s Core Product, Bioheart®”, to “funding the ongoing randomized controlled clinical trial in China for, and the continuous development of, the Group’s RDN product candidate, Iberis® 2nd”; and

Management Discussion and Analysis

- (iii) reallocating approximately HK\$8 million, which was originally allocated for “funding the ongoing confirmatory clinical trial, preparation for registration filings, and planned commercial launch of the Company’s Core Product, Bioheart®”, to “general corporate and working capital purposes”.

For details, please refer to the announcement of the Company dated October 30, 2024.

The table below sets out the planned applications of the net proceeds from the Global Offering (after taking into account the revised allocation of the net proceeds on March 31, 2023, February 8, 2024 and October 30, 2024) and actual usage as of June 30, 2026:

Notes:

- 1 As of June 30, 2026, the unused net proceeds were deposited with certain licensed banks in Hong Kong or the PRC.
- 2 The expected timeline to use the remaining proceeds is prepared based on the best estimate made by the Group, which is subject to change according to the current and future development of the market condition.

Other Information

INTERIM DIVIDEND

The Board has resolved not to declare any interim dividend for the six months ended June 30, 2026 (six months ended June 30, 2025: Nil).

MODEL CODE FOR SECURITIES TRANSACTIONS

The Company has adopted the Model Code as its own code of conduct regarding dealings in the securities of the Company by the Directors, Supervisors and the Company's senior management who, because of his/her office or employment, is likely to possess inside information in relation to Company or its securities.

Having made specific enquiries with all Directors and Supervisors (with respect to their respective service period), each of them has confirmed that he/she has complied with the Model Code during the Reporting Period. No incident of non-compliance of the Model Code by the employees who are likely to be in possession of inside information of the Company was noted by the Company.

CORPORATE GOVERNANCE PRACTICES

The Company recognizes the importance of good corporate governance for enhancing the management of the Company as well as preserving the interests of the shareholders of the Company as a whole. The Company has adopted the code provisions of the CG Code as its own code of corporate governance. During the Reporting Period, except for the following deviation from code provision C.2.1 of Part 2 of the CG Code, in the opinion of the Directors, the Company has complied with all applicable code provisions as set out in Part 2 of the CG Code.

Under code provision C.2.1 of Part 2 of the CG Code, the roles of chairman and chief executive should be separate and should not be performed by the same individual. Mr. Wang is the chairperson of the Board, the chief executive officer and the general manager of the Company. Mr. Wang has extensive experience in the pharmaceutical industry and has served in the Company since its establishment. Mr. Wang is in charge of overall management, business, strategic development and scientific R&D of the Group. Despite the fact that the roles of the chairperson of the Board, the chief executive officer and the general manager of the Company are both performed by Mr. Wang which constitutes a deviation from code provision C.2.1 of Part 2 of the CG Code, the Board considers that vesting the roles of the chairperson of the Board and the chief executive officer in the same person is beneficial to the management of the Group. The Board also believes that the combined role of the chairperson of the Board and the chief executive officer of the Company can promote the effective execution of strategic initiatives and facilitate the flow of information between management and the Board.

The balance of power and authority is ensured by the operation of the Board, which comprises experienced and diverse individuals. The Board currently comprises three executive Directors (including Mr. Wang) and three independent non-executive Directors, and therefore has a strong independent element in its composition. The Board will continue to review the effectiveness of the corporate governance structure of the Group in order to assess whether separation of the roles of chairperson and the chief executive officer, and designation of a lead independent non-executive Director is necessary.

Other Information

PRE-IPO EMPLOYEE INCENTIVE PLATFORMS

In recognition of the contributions of the employees and consultants and to incentivize them to further promote our development, in 2020, Shanghai Baixinantong and Shanghai Baihate, which are limited partnerships established in the PRC (the “LLPs”), were established in the PRC as the employee incentive platforms to hold restrictive shares of the Company (the “2020 Plan”).

As the LLPs are limited liability partnership under PRC laws, and no further shares of the Company will be granted to the LLPs under the terms of the 2020 Plan, the remaining life of the 2020 Plan would not be applicable and the number of shares of the Company that may be issued in respect of options and awards granted under all schemes during the Reporting Period divided by the weighted average number of shares of the Company in issue (excluding treasury shares) for the Reporting Period is nil.

As of the end of the Reporting Period, (i) all the restricted shares granted under the 2020 Plan have been fully vested; and (ii) no restricted shares or other awards may be further granted under the 2020 Plan. As a result, there were no vested, cancelled or lapsed restricted shares during the Reporting Period.

SUBSEQUENT EVENT AFTER THE REPORTING PERIOD

There is no material subsequent event undertaken by the Company or by the Group after the Reporting Period and up to the date of this interim report.

The interim condensed consolidated financial information is presented in Renminbi ("RMB"), and all values are rounded to the nearest thousand (RMB'000) except when otherwise indicated.

3 CHANGES IN ACCOUNTING POLICIES

The accounting policies adopted in the preparation of the interim condensed consolidated financial information are consistent with those applied in the preparation of the Group's annual consolidated financial statements for the year ended December 31, 2025, except for the adoption of the following amended IFRS Accounting Standard for the first time for the current period's financial information.

Amendments to IFRS 9 and IFRS 7

Amendments to the Classification and Measurement of Financial Instruments

Amendments to IFRS 9 and IFRS 7

Contracts Referencing Nature-dependent Electricity

Annual Improvements to IFRS Accounting Standards – Volume 11

Amendments to IFRS 1, IFRS 7, IFRS 9, IFRS 10 and IAS 7

The adoption of these amendments has not had any significant impact on the Group's financial position and operating results for the current period and prior years, and/or the disclosures presented in these condensed consolidated financial statements. The Group has not early adopted any other standards or amendments that have been issued but are not yet effective.

15 INVESTMENT IN AN ASSOCIATE (CONTINUED)

In June 2022, the Group acquired an aggregate of 15.42% equity interests in Shanghai XinZhi Medical Technology Co., Ltd. (上海心至醫療科技有限公司) ("Xinzhi Medical") through (i) the acquisition of 8.01% equity interest from one of the then shareholders of Xinzhi Medical at a consideration of approximately RMB8,658,000, and (ii) the subscription of additional 7.41% equity interests of Xinzhi Medical at a consideration of RMB16,000,000.

In April 2023, the Group further agreed to make a capital increase of RMB15,000,000 into Xinzhi Medical, resulting in a total of 22.18% equity interests in Xinzhi Medical held by the Group as of December 31, 2024 and 2025.

Xinzhi Medical is mainly engaged in research and development of Drug-eluting balloon (DEB) products.

The investment has been accounted for as an investment in an associate using the equity method because the Group had significant influence over the financial and operating policies of Xinzhi Medical as the Group has the power to appoint one out of the seven directors of Xinzhi Medical under the articles of association of Xinzhi Medical.

As at December 31, 2025, the Group performed an impairment test on the investment in Xinzhi Medical. The recoverable amounts were RMB16,869,000, which was determined based on its fair value less costs of disposal. Based on the impairment test, the carrying amount of the investment was impaired by RMB17,746,000.

On February 13, 2026, the Group entered into an agreement to dispose of 22.18% equity interests in Xinzhi Medical held by the Group at a consideration of RMB16,869,000.

As at June 30, 2026, the Group has completed all industrial and commercial registrations related to the sale of Xinzhi Medical, and thus disposed of it during the period. The Group has received RMB5,627,000.00 in equity disposal, with the remaining RMB11,242,000.00 in equity disposal still outstanding.

24 FAIR VALUE AND FAIR VALUE HIERARCHY OF FINANCIAL INSTRUMENTS

Fair values

All the carrying amounts of the Group's financial instruments other than unlisted equity investment are those with carrying amounts that reasonably approximate to fair values. Management has assessed that the fair values of cash and cash equivalents, amounts due from a related party, financial assets included in prepayments, other receivables and other assets, trade payables, financial liabilities included in other payables and accruals, amounts due to a related party and redemption liabilities on a subsidiary's shares approximate to their carrying amounts largely due to the short-term maturities of these instruments.

The Group's finance department headed by Chief Financial Officer is responsible for determining the policies and procedures for the fair value measurement of financial instruments. At the end of each of the reporting periods, the finance department analyses the movements in the values of financial instruments and determines the major inputs applied in the valuation. The directors review the results of the fair value measurement of financial instruments periodically for financial reporting.

The fair values of the financial assets and liabilities are included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale. The following methods and assumptions were used to estimate the fair values:

Financial instruments in Level 2

The Group's unlisted equity investment at fair value acquired in August 2025 is categorised under the Level 2 hierarchy as at June 30, 2026. No significant milestone was achieved since the acquisition. Hence, the most recent transaction price, which is the cost of acquisition, is used as the best estimate of the fair value.

Financial instruments in Level 3

The Group's unlisted equity investment at fair value, other than the investment acquired in August 2025 as described above, is categorised under the Level 3 hierarchy as at June 30, 2026. The fair value of the unlisted equity investment designated at fair value through profit or loss has been estimated based on underlying assets that are not supported by observable market prices or rates. The valuation requires the directors to determine comparable public companies (peers) based on industry, size, leverage and strategy, and to calculate an appropriate multiple, such as cost-profit ratio, for each comparable company identified. The directors believe that the estimated fair values resulting from the valuation technique, which are recorded in the consolidated statement of financial position, and the related changes in fair values, which are recorded in profit or loss, are reasonable, and that they were the most appropriate values at the end of the reporting period.

For the fair value of the unlisted equity investment at fair value through profit or loss, management has estimated the potential effect of using reasonably possible alternatives as inputs to the valuation model.
