2. BASIS OF PREPARATION

The consolidated financial statements of the Group have been prepared in accordance with all applicable HKFRS Accounting Standards, which collective term includes all applicable individual Hong Kong Financial Reporting Standards (“**HKFRS**”), Hong Kong Accounting Standards (“**HKAS**”) and Interpretations issued by the Hong Kong Institute of Certified Public Accountants (“**HKICPA**”), accounting principles generally accepted in Hong Kong and the disclosure requirements of the Hong Kong Companies Ordinance. 10. PENDING LITIGATIONS

- (a) A court action was commenced in the Court of First Instance of the Hong Kong Special Administrative Region on 17 April 2002 by The Star Overseas Limited (“**Star**”), an independent third party, against Universe Entertainment Limited (“**UEL**”), an indirect wholly-owned subsidiary of the Company.

Under the above action, Star alleged that a sum of US\$935,872 (equivalent to HK\$7,299,799) was payable by UEL to Star as its share of the revenue of the movie entitled “Shaolin Soccer” (the “**Movie**”).

Pursuant to an Order (the “**Order**”) made by the High Court on 21 February 2003, UEL was ordered and had paid to Star a sum of HK\$5,495,700, being part of the license fee of the Movie received by UEL from Miramax Films (being the licensee of the Movie) and which was also part of the sum claimed by Star. Pursuant to the Order, UEL is also liable to pay Star interest in the sum of HK\$350,905 and some of the costs of the application leading to the making of the Order, all of which have been settled. As the Order has not disposed of all the claims of US\$935,872 (equivalent to HK\$7,299,799) by Star, UEL is entitled to continue to defend the claim by Star for recovering the remaining balance in the sum of approximately HK\$1,804,099 (HK\$7,299,799 less HK\$5,495,700).

On 30 April 2002, UEL claimed against Star for the latter’s wrongful exploitation of certain rights in the Movie co-owned by both parties. UEL claimed to recover all losses and damages suffered by UEL as a result of the wrongful exploitation.

On 9 September 2002, Universe Laser & Video Co. Limited (“**ULV**”), an indirect wholly-owned subsidiary of the Company, claimed against Star for the latter’s infringement of the licensed rights in the Movie held by ULV. ULV claimed to recover all losses and damages suffered by ULV as a result of the said infringement.

In the opinion of legal counsel, it is premature to predict the outcome of the claim against UEL. The Board is of the opinion that the outcome of the said claim made against UEL will have no material financial impact to the Group for the year ended 30 June 2026 and 2025.

- (b) On 1 September 2008, Koninklijke Philips Electronics N.V. (“**KPE**”) claimed against among other persons, the Company, ULV and Mr. Lam Shiu Ming, Daneil (one of the Directors), being three of the defendants named therein, in respect of damages arising from alleged infringement of the patents regarding Video Compact Disc owned by KPE.

In the opinion of legal counsel, it is premature to predict the outcome of the said claim made against the Company, ULV and Mr. Lam Shiu Ming, Daneil. The Board is of the opinion that the outflow of economic benefits cannot be reliably estimated and accordingly no provision for any liability that may result has been made in the consolidated financial statements for the year ended 30 June 2026 and 2025.

- (c) On 8 January 2010, KPE claimed against among other persons, the Company, ULV and Mr. Lam Shiu Ming, Daneil (one of the directors of the Company), being three of the defendants named therein, in respect of damages arising from the alleged infringement of the patents regarding Digital Video Disc owned by KPE.

On 6 June 2012, the action was discontinued against the Company and Mr. Lam Shiu Ming, Daneil. The claim made against ULV has been agreed with KPE and settled by ULV and appropriate legal costs provision was recognised accordingly in the consolidated financial statements for the year ended 30 June 2012.

No additional provision has been made in the consolidated financial statements for the year ended 30 June 2026 and 2025. Based on the consultation with legal counsel, no further material outflow of economic benefits will be incurred for ULV.

Save as disclosed above, as at 30 June 2026, no other litigation or claim of material importance is known to the Directors to be pending against either the Company or any of its subsidiaries.

BUSINESS AND OPERATIONAL REVIEW

Overall Group results

During the year ended 30 June 2026 (the “**Year**”), the Group recorded a revenue of approximately HK\$120.1 million (for the year ended 30 June 2025 (“**Last Year**”): approximately HK\$472.6 million) and loss for the Year of approximately HK\$10.4 million (Last Year: approximately HK\$63.4 million).

The improvement of the Group’s result for the Year as compared to the Last Year was mainly due to the decrease in impairment loss of film rights and films in progress of approximately HK\$69.1 million during the Year as compared to Last Year.

Video distribution, films distribution and exhibition, licensing and sub-licensing of film rights

Following a strong rebound in 2025, China’s film industry entered a more challenging phase in 2026. According to data released by the China Film Administration (國家電影局), total box office revenue in China reached approximately RMB51.8 billion in 2025, representing a significant recovery from RMB42.5 billion in 2024, supported by the exceptional performance of several blockbuster domestic productions and strong attendance during key holiday periods. However, market momentum weakened during the first half of 2026. According to industry data published by Maoyan Pro (貓眼專業版), China’s total box office revenue for the six months ended 30 June 2026 amounted to approximately RMB17.4 billion, representing a year-on-year decrease of approximately 40.6% compared with the first half of 2025. The decline reflected a shortage of breakout blockbuster titles compared with the prior-year period and continued pressure on consumer discretionary spending amid a more cautious economic environment.

Revenue generated from the video distribution, film distribution and exhibition, licensing and sub-licensing of film rights business segment decreased by approximately 88.8% to approximately HK\$47.5 million for the Year (Last Year: approximately HK\$422.5 million). It accounted for approximately 39.6% (Last Year: approximately 89.4%) of the Group’s revenue during the Year.

The decrease in revenue for this segment was primarily attributable to (i) a lower number of Group-produced films debuting in cinemas during the Year compared to the Last Year; and (ii) a decrease in the average revenue generated per released film. This performance was broadly consistent with the challenging market conditions experienced by the industry during the Year.

Despite the revenue decline, the segment's operating results improved. The Group recorded impairment losses of approximately HK\$14,000 on film rights and films in progress during the Year, compared to an impairment loss of approximately HK\$69.1 million during Last Year. This reduction in impairment loss was the primary driver, which narrowed the segmental loss from approximately HK\$52.5 million Last Year to approximately HK\$13.4 million during the Year.

The Group assesses whether the film rights and films in progress for video distribution, film distribution and exhibition, licensing and sub-licensing of film rights segment are subject to any impairment loss, in accordance with the accounting policies set out in the consolidated financial statements of the Group for the year ended 30 June 2026. During the year ended 30 June 2026, management assessed whether there was an impairment indicator in relation to the film rights and films in progress for video distribution, film distribution and exhibition, licensing and sub-licensing of film rights segment by reviewing the cast or scale of each film, current market condition, the trade history, current financial position and popularity of film outline stories. Management has further performed an assessment on the recoverable amount of the film rights and films in progress based on each film sales forecast.

As at 30 June 2026, the Group assessed that there were impairment indication for certain films included in films rights and films in progress with gross carrying amount of approximately HK\$101,381,000 (2025: HK\$166,755,000) and HK\$1,147,000 (2025: HK\$6,734,000) respectively because of the change of comparable market information and expected performance.

As at 30 June 2026, these film rights and films in progress have been reduced to their recoverable amount of approximately HK\$11,573,000 (2025: HK\$34,044,000) and HK\$1,147,000 (2025: HK\$6,734,000), respectively. The recoverable amount was determined on a title-by-title basis, and is assessed with reference to a value-in-use calculation at the end of the reporting period, which was derived from discounting the projected cash flow forecast using a discount rate of 11% (2025: 11%). Key assumptions for the value-in-use calculations related to the estimation of cash inflow include the budget film exhibition income, budget licensing and sub-licensing income revenue and discount rate. Such estimation is based on the historical box office of the same director and main cast members, the market comparable data of films with the same theme, and management's expectations of the market development. The discount rate used is before tax and reflected current market assessment of the time value of money and the risks specific to the film production business.

Taking into account the impairment assessment performed by the management, an impairment loss of film rights of approximately HK\$14,000 (2025: HK\$69,067,000) and no impairment loss of films in progress (2025: nil) were recognised respectively in the consolidated statement of comprehensive income for the year ended 30 June 2026 to reduce the carrying amounts of these assets to their recoverable amounts. The directors and management have considered and assessed reasonably possible changes for other key assumptions and have not identified any instances that could cause the carrying amounts of film rights and films in progress to exceed their recoverable amounts as at 30 June 2026.

Looking ahead, in response to these challenging market conditions, the Group maintained a prudent and disciplined approach toward film investment and production. The industry's performance in the first half of 2026 further demonstrated that box office success is increasingly concentrated among a small number of high-quality productions, highlighting the importance of content quality, strong intellectual property and effective audience engagement. The Group believes that demand for premium cinematic content remains resilient despite short-term market volatility. The Group will continue to focus on developing and investing in quality film projects with attractive commercial potential. In addition, the Group will continue to exercise rigorous cost control and maintain strict investment discipline while actively monitoring audience preferences, release schedules and market developments. Although the operating environment is expected to remain competitive, the Board remains cautiously optimistic about the long-term prospects of China's entertainment industry.

Trade, wholesale and retail of optical and watches products

The Group engaged in trading, wholesaling and retailing of optical products and watches products in Hong Kong.

During the Year, the operating environment for Hong Kong's retail sector remained subdued despite signs of gradual recovery in overall market sentiment. While inbound tourism and visitor spending continued to improve gradually, local consumer spending in retail market remained relatively weak due to persistent outbound consumption by Hong Kong residents, evolving consumption patterns, increased price sensitivity among consumers and the continued growth of e-commerce retail platforms. Moreover, competition within the optical and watches retail market remained intense, placing pressure on sales performance and profit margins.

In response to the changing market dynamics and to enhance operational efficiency, the Group continued to rationalise its retail network during the Year by closing underperforming stores and implementing stringent cost control measures. The Group also focused on optimising its product mix, inventory management and operating structure to improve overall business performance.

As a result, revenue from this business segment amounted to approximately HK\$8.3 million during the Year, representing a decrease of approximately 23.9% as compared with approximately HK\$10.9 million for the corresponding period last year. The decrease was primarily attributable to the closure of underperforming retail outlets and the Group's strategic downsizing of non-core operations. It accounted for approximately 6.9% (Last Year: approximately 2.3%) of the Group's revenue during the Year.

Despite the decline in revenue, the segment recorded a loss of approximately HK\$0.3 million during the Year, representing a substantial improvement as compared with a segment loss of approximately HK\$2.1 million Last Year. The improvement was mainly attributable to the implementation of cost reduction initiatives, optimisation of staffing levels, tighter control over operating expenses and the closure of loss-making stores.

Looking ahead, the Group remains cautious given the uncertainties surrounding local consumption demand, intensifying market competition and the continued shift towards digital and cross-border consumption channels. The Group will continue to adopt a prudent approach in managing this business segment, focusing on cost discipline, operational efficiency, network optimisation and product portfolio enhancement, with a view to improving profitability.

Leasing of investment properties

The Group recorded rental income of approximately HK\$0.6 million (Last Year: approximately HK\$0.6 million) during the Year from its properties at Woodland House 1-5, Woodlands Villa, 121 Tong Fuk Village, Tong Fuk, Lantau Island, New Territories, Hong Kong. It accounted for approximately 0.5% (Last Year: approximately 0.1%) of the Group's revenue during the Year.

During the Year, Hong Kong's property market rebounded. Based on the valuation performed by Ravia Global Appraisal Advisory Limited, the Group recorded a fair value gain of its investment properties of approximately HK\$1.2 million during the Year (2025: fair value loss of approximately HK\$1.1 million). As a result, the Group recorded a segment profit of approximately HK\$1.5 million during the Year (Last Year: segment loss of approximately HK\$0.7 million).

Financial Printing

The Group engaged in the business of financial printing to provide the one-stop financial printing services including typesetting, translation, printing, design, distribution and other related services through Formex Financial Press Limited (“**Formex**”), a subsidiary of the Company.

Our core business is divided into two primary areas:

1. Production and publication of financial reports, circulars, and announcements for listed companies, government institutions, and non-governmental organizations.
2. Production of prospectuses and other listing documents for issuers undertaking initial public offerings (“**IPO**”) in Hong Kong capital market.

Segment revenue for the Year increased by 73.0% to approximately HK\$63.3 million (Last Year: approximately HK\$36.6 million). This segment now represents approximately 52.7% of the Group’s total revenue, compared to approximately 7.7% Last Year. The segmental profit from the financial printing segment was approximately HK\$10.7 million during the Year, an improvement from the loss of approximately HK\$323,000 Last Year.

The significant increase in revenue and profit of this segment for the year ended 30 June 2026 was primarily driven by the growth in revenue of the IPO Projects in Hong Kong. The Hong Kong IPO market experienced a significant recovery in 2025, re-establishing itself as the world’s leading IPO fundraising venue after several subdued years. The capital market in Hong Kong raised approximately HK\$285.8 billion through 119 new listings in 2025, representing a substantial increase from 2024 and marking the strongest fundraising performance in several years. The first half of 2026 marked another strong performance of Hong Kong’s IPO market. There were 87 newly listed companies during the six months ended 30 June 2026, and total IPO funds raised reached approximately HK\$210.2 billion, representing a 92.1% period-over-period increase.

Conversely, the business of production, publication of financial reports, circulars and announcements for listed companies encountered significant headwinds following the Hong Kong Stock Exchange’s transition to a paperless listing regime in January 2025. The sharp decline in demand for physical publications of financial reports and circulars intensified market competition and exerted sustained downward pressure on pricing across the industry.

Looking forward, the Group remains optimistic with due caution about the outlook of Hong Kong's financial printing industry. While the industry continues to face structural challenges arising from the transition to a paperless regulatory environment, which has exerted pressure on traditional printing services and industry margins, the strong recovery of Hong Kong's capital markets is expected to continue supporting demand for prospectuses and other listing-related documentation. The Group will continue to strengthen its long-standing client relationships, broaden its integrated service offerings and enhance operational efficiency and execution capabilities to maintain its market competitiveness and capture opportunities arising from the development of Hong Kong's IPO and capital markets.

Securities Investments

During the Year, the Group utilised its surplus cash resources to invest in listed securities with a view to enhancing capital utilisation efficiency and generating reasonable returns. The Group adopted a prudent investment approach and focused on quality companies with sound fundamentals and growth potential.

As at 30 June 2026, the Group's portfolio of trading securities amounted to approximately HK\$20.9 million (30 June 2025: Nil), representing approximately 5.1% of the Group's consolidated total assets as at 30 June 2026 (30 June 2025: Nil). The portfolio comprised four equity securities listed on The Stock Exchange of Hong Kong Limited, namely Ping An Insurance (Group) Company of China, Ltd. (Stock Code: 2318), China Mobile Limited (Stock Code: 941), Alibaba Group Holding Limited (Stock Code: 9988) and Tencent Holdings Limited (Stock Code: 700) as at 30 June 2026 and none of these investments individually accounted for more than 5% of the Group's consolidated total assets.

During the Year, the Group recognised a fair value loss on trading securities of approximately HK\$6.1 million (Last Year: Nil), primarily attributable to the adverse market performance of its investment portfolio during the Year. As a result, the securities investment segment recorded a loss of approximately HK\$5.8 million for the Year (Last Year: approximately HK\$1.4 million).

Looking forward, the Group will continue to adopt a prudent and disciplined investment strategy, with a focus on identifying investment opportunities that offer attractive risk-adjusted returns and long-term value. The Group will closely monitor market conditions and portfolio performance, while maintaining effective risk management measures, with the objective of achieving sustainable returns.

Geographical contribution

In terms of geographical contribution, overseas markets accounted for approximately 30.2% (2025: approximately 88.0%) of the Group's revenue during the Year.

Selling expenses

Selling expenses for the Year were approximately HK\$8.5 million (Last Year: approximately HK\$7.4 million). Selling expenses increased year-over-year by approximately 14.9%, mainly because the Group increase its selling activities in financial printing business.

Administrative expenses

Administrative expenses for the Year decreased by approximately 8.4% to approximately HK\$47.7 million as compared to approximately HK\$52.1 million Last Year. The decrease in administrative expenses is due to the implementation of the cost control measures during the Year.

OUTLOOK

Looking ahead, the Group remains confident in its long-term growth prospects of video distribution, film distribution and exhibition, licensing and sub-licensing of film rights segment. Market conditions are expected to remain competitive and challenging in the near term as audience preferences continue to evolve and box office performance becomes increasingly concentrated among a limited number of high-quality productions. Nevertheless, the Board believes that the demand for quality film and entertainment content in China, supported by strong intellectual property will remain robust over the long term. The Group will continue to adopt a prudent and disciplined investment strategy, focusing on carefully selected film and entertainment projects with attractive commercial potential while maintaining stringent cost controls and disciplined capital allocation.

For the financial printing business, the strength of Hong Kong's capital markets and active IPO fundraising environment are expected to support sustained demand for the financial printing services for prospectuses, listing documents and other financial communication services. Leveraging its established reputation, extensive industry experience and long-standing client relationships, the Group will continue to enhance its integrated service capabilities, improve operational efficiency and expand its range of value-added solutions in order to strengthen its market position and capitalize on opportunities arising from the ongoing development of Hong Kong's capital markets.

At the same time, the Group will actively explore and develop new business opportunities and potential investment projects with a view to broadening its income sources, diversifying its business portfolio and creating long-term sustainable value for shareholders. The Board remains committed to improving operational efficiency, strengthening financial performance and enhancing shareholder value.

The Group's gearing ratio as at 30 June 2026 was approximately 1.5% (as at 30 June 2025: approximately 3.0%), which was calculated on the basis of the Group's total debt (including lease liabilities) divided by total equity of the Group.

As at 30 June 2026, the Group's current ratio (defined as total current assets divided by total current liabilities) was approximately 1.5 (as at 30 June 2025: approximately 1.4).

Management has closely monitored the current and anticipated liquidity of the Group in the future. Having considered the Group's financial position as at 30 June 2026, and the coming operation's plan, the Directors believe that the Group will have sufficient financial resources to satisfy its future working capital and other financing requirements for the foreseeable future.

The Group incurred financial cost of approximately HK\$960,000, which is attributable to the interest on lease liabilities during the Year (2025: approximately HK\$552,000).

In light of the fact that most of the Group's transactions are denominated in Hong Kong dollars, Renminbi and United States dollars, the Group is exposed to foreign exchange risk arising from various currency exposures, primarily with respect to Renminbi. The Group will continue to take proactive measures and monitor its exposure to the movements of these currencies closely.

As at 30 June 2026, the Group had Shareholders' capital of approximately HK\$9.1 million (30 June 2025: approximately HK\$9.1 million). The Shareholders' capital of the Company is constituted of 906,632,276 shares (30 June 2025: 906,632,276 shares).

SHARE OPTION SCHEME

The Company adopted a share option scheme on 4 December 2023 (“**Share Option Scheme**”) and is effective for a period of 10 years from the date of adoption. A summary of the principal terms of the Share Option Scheme is as follow:

(1) Purpose

The purpose of the Share Option Scheme is to recognize and acknowledge the contributions or potential contributions made or to be made by the eligible participant(s) including the employee participants, the related entity participants and the service providers (the “**Eligible Participants**”) to the Group, to motivate the Eligible Participants to optimize their performance and efficiency for the benefit of the Group, and to maintain or attract business relationship with the Eligible Participants whose contributions are or may be beneficial to the growth of the Group.

(2) Eligible Participants

The Share Option Scheme enables the Company to grant options (the “**Option**”) to Eligible Participant(s) to subscribe for share(s) of the Company (the “**Shares**”) under the Share Option Scheme.

The adoption of the Share Option Scheme aligns with the market practice of providing incentives to the employee participants to work towards enhancing the enterprise value and achieving the long-term objectives for the benefit of the Group as a whole.

As the related entity participants and service providers have contributed to the long-term growth of the Company's businesses, it would be in the Company's interests to also have the flexibility to grant Options to the related entity participants and service providers in recognition of their contributions to the Company. It is beneficial to include the related entity participants and service providers since a sustainable and stable relationship with them is essential to the business development of the Group, and that the grant of Options to these non-employee participants will align their interests with the Group's interests, incentivising them to provide better services to, create more opportunities for and/or contribute to the success of the Group in the long run.

The Board will determine the employee participants' eligibility in its sole discretion by considering all relevant factors as appropriate and take into account criteria based on the nature of the contributions made by service providers and related entity participants before granting Option(s) to them.

The inclusion of each of the related entity participants and proposed categories of service providers are in line with the Company's business needs and the industry norm, and the criteria for the election of Eligible Participants and the terms of an offer (the "Offer") to an Eligible Participant for the grant of an Option align with the purpose of the Share Option Scheme.

(3) Subscription Price

The subscription price of the Options shall be determined by the Board and notified to an Eligible Participant at the time the grant of the Option(s) is made to (and subject to acceptance by) the Eligible Participant and shall be at least the highest of: (a) the closing price of the Shares as stated in the Stock Exchange's daily quotations sheet on the date of grant, which must be a business day (as defined in the Share Option Scheme); (b) the average closing price of the Shares as stated in the Stock Exchange's daily quotations sheets for the five (5) business days (as defined in the Share Option Scheme) immediately preceding the date of grant; and (c) the nominal value of the Shares. The Board considers that such basis will serve to preserve the value of the Company and encourage the Eligible Participants to acquire proprietary interests in the Company.

(4) Maximum Number of Shares

- (a) The total number of Shares which may be issued in respect of all Options to be granted under the Share Option Scheme and all options to be granted under any other share option scheme(s) of the Company must not, in aggregate, exceed ten per cent (10%) of the total number of Shares in issue as at the adoption date (the “**Scheme Mandate Limit**”) unless approval of the shareholders of the Company (the “**Shareholders**”) has been obtained pursuant to paragraphs 4(d) and (e) or (f) below. Options lapsed in accordance with the terms of the Share Option Scheme or any other share option scheme(s) of the Company shall not be regarded as utilised for the purpose of calculating the Scheme Mandate Limit.
- (b) Subject to paragraph 4(c) below, within the Scheme Mandate Limit, the total number of Shares which may be issued in respect of all Options to be granted under the Share Option Scheme and all options to be granted under any other share option scheme(s) of the Company to the service providers must not, in aggregate, exceed three per cent (3%) of the total number of Shares in issue as at the Adoption Date (the “**Service Provider Sublimit**”) unless Shareholders’ approval has been obtained pursuant to paragraphs 4(d) and (e) or (f) below. Options lapsed in accordance with the terms of the Share Option Scheme or any other share option scheme(s) of the Company shall not be regarded as utilised for the purpose of calculating the Service Provider Sublimit.
- (c) Notwithstanding any other provisions of the Share Option Scheme, the Service Provider Sublimit is subject to approval by the Shareholders in general meeting. If on the adoption date, the adoption of the Share Option Scheme is approved by the Shareholders in general meeting but the Service Provider Sublimit is not so approved by the Shareholders, no Option shall be granted to any Service Provider and the Service Provider Sublimit shall be deemed to be nil Share, and the provisions of the Share Option Scheme shall be construed accordingly, unless and until a sublimit on the total number of Shares which may be issued in respect of all Options to be granted under the Share Option Scheme and all options to be granted under any other share option scheme(s) of the Company to the Service Providers is subsequently approved by the Shareholders in general meeting, in which case the Service Provider Sublimit shall be deemed to be the sublimit so approved by the Shareholders with effect from the date of such approval, and the provisions of the Share Option Scheme shall be construed accordingly.

- (d) The Company may seek approval by the Shareholders in general meeting for “refreshing” the Scheme Mandate Limit (and the Service Provider Sublimit) after three (3) years from date of the Shareholders’ approval for the last refreshment (or the adoption date). Any “refreshment” within any three (3) year period must be approved by the Shareholders subject to the following provisions:
- (i) any controlling shareholders of the Company and their associates (or if there is no controlling shareholder of the Company, Directors (excluding independent non-executive Directors) and the chief executive of the Company and their respective associates) must abstain from voting in favour of the relevant resolution at the general meeting; and
 - (ii) the Company must comply with the requirements under Rules 13.39(6) and (7), 13.40, 13.41 and 13.42 of the Listing Rules.

The requirements under paragraphs 4(d)(i) and (ii) above do not apply if the refreshment is made immediately after an issue of securities by the Company to the Shareholders on a pro rata basis as set out in Rule 13.36(2)(a) of the Listing Rules such that the unused part of each of the Scheme Mandate Limit and the Service Provider Sublimit (as a percentage of total number of Shares in issue) upon refreshment is the same as the unused part of each of the Scheme Mandate Limit and the Service Provider Sublimit immediately before the issue of securities, rounded to the nearest whole Share.

- (e) The total number of Shares which may be issued in respect of all Options to be granted under the Share Option Scheme and all options to be granted under any other share option scheme(s) of the Company under the Scheme Mandate Limit and the Service Provider Sublimit as “refreshed” must not, in aggregate, exceed ten per cent (10%) and three per cent (3%) of the total number of Shares in issue as at the date of approval of the refreshed Scheme Mandate Limit (the “**Refreshed Scheme Mandate Limit**”) and the refreshed Service Provider Sublimit (the “**Refreshed Service Provider Sublimit**”) respectively. The Company must send a circular to the Shareholders containing the number of Options that were already granted under the existing Scheme Mandate Limit and the existing Service Provider Sublimit, and the reason for the “refreshment”.

- (f) The Company may seek separate approval by the Shareholders in general meeting for granting Options beyond the Scheme Mandate Limit (or the Refreshed Scheme Mandate Limit, as the case may be) or the Service Provider Sublimit (or the Refreshed Service Provider Sublimit, as the case may be) provided that the Options in excess of the Scheme Mandate Limit, the Refreshed Scheme Mandate Limit, the Service Provider Sublimit or the Refreshed Service Provider Sublimit (as the case may be) are granted only to Eligible Participants specifically identified by the Company before such approval is sought. The Company must send a circular to the Shareholders containing the name of each specified Eligible Participant who may be granted such Options, the number, and terms of the Options to be granted to each such Eligible Participant, and the purpose of granting Options to the specified Eligible Participants with an explanation as to how the terms of the Options serve such purpose. The number and terms of Options to be granted to such Eligible Participant must be fixed before the Shareholders' approval. In respect of any Options to be granted, the date of the Board meeting for proposing such grant should be taken as the date of grant for the purpose of calculating the Subscription Price under paragraph 3 above.
- (g) If the Company conducts a share consolidation or sub-division after the Scheme Mandate Limit has been approved in general meeting, the maximum number of Shares that may be issued in respect of all options to be granted under all of the schemes of the Company under the Scheme Mandate Limit and the Service Provider Sublimit as a percentage of the total number of issued Shares at the date immediately before and after such consolidation or sub-division shall be the same, rounded to the nearest whole share.

(5) Maximum Entitlement of Each Eligible Participant

Where any grant of Options is proposed to be made to an Eligible Participant which, if accepted and exercised in full, would result in the total number of Shares issued and which may fall to be issued upon the exercise of such Options proposed to be granted under the Share Option Scheme and all options granted under any other share option scheme(s) of the Company to such Eligible Participant (excluding any options lapsed in accordance with the terms of the Share Option Scheme or any other share option scheme(s) of the Company) in the 12-month period up to and including the date of such grant representing in aggregate over one per cent (1%) of the total number of Shares in issue as at the date of such grant (the “**1% Individual Limit**”), such grant must be separately approved by the Shareholders in general meeting with such Eligible Participant and his/her close associates (or associates if the Eligible Participant is a connected person) abstaining from voting. A circular must be sent by the Company to the Shareholders disclosing the identity of the Eligible Participant, the number, and terms of the Options to be granted (and those previously granted to such Eligible Participant in the 12-month period), the purpose of granting Options to the Eligible Participant and an explanation as to how the terms of the Options serve such purpose. The number and terms of the Options to be granted to such Eligible Participant must be fixed before the Shareholders’ approval. In respect of any Options to be granted, the date of the Board meeting for proposing such further grant should be taken as the date of grant for the purpose of calculating the subscription price under paragraph 3 above.

(6) Vesting Period

The vesting period of the Options shall not be shorter than 12 months from the date of acceptance of the Offer, provided that where the Eligible Participant who is: (a) an employee participant who is a director or a senior manager of the Company, the remuneration committee may, or (b) an employee participant who is not a director or a senior manager of the Company, the board of directors of the Company may, in its absolute discretion, determine a shorter vesting period under the following specific circumstances:

(7) Performance Targets and Clawback Mechanism

Under the Share Option Scheme, the Board may, in its sole and absolute discretion, specify the performance targets in respect of each Offer that must be duly fulfilled by the grantee before the Option may be vested to such grantee under such Offer, such performance targets shall include, among other things, financial targets and management targets which shall be determined based on the (a) individual performance, (b) performance of the Group and/or (c) performance of business groups, business units, business lines, functional departments, projects and/or geographical area managed by the Grantee. This will provide the Board with more flexibility in setting out the terms and conditions of the Options under particular circumstances of each grant and facilitate the Board to offer meaningful incentives to attract and retain quality personnel that are valuable to the development of the Group.

The provisions of the Share Option Scheme provide for an automatic lapse of Option as clawback mechanism, the right to exercise an Option shall lapse automatically on the date on which the grantee ceases to be an Eligible Participant by reason of the termination of his employment, directorship, appointment or engagement on any one or more of the grounds that he has been guilty of misconduct, or has committed an act of bankruptcy or has become insolvent or has made any arrangement or composition with his creditors generally, or has breached or failed to comply with any provisions of the relevant service contract, letter of appointment or contracts or agreements of the grantee with the Company or the relevant subsidiary or related entity for the employment, appointment or engagement, or has been convicted of any criminal offence involving his integrity or honesty or on any other ground on which an employer would be entitled to terminate his employment or office at common law or pursuant to any applicable laws or under the service contract, letter of appointment or other contract or agreement for the employment, appointment or engagement of the grantee with the Company or the relevant subsidiary or related entity.

Unless otherwise determined by the Board pursuant to the rules of the Share Option Scheme and stated in the relevant Offer and subject to the above clawback mechanism, there is neither any performance target which must be achieved before an Option can be exercised nor any clawback mechanism for the Company to recover or withhold any remuneration (which may include Options granted) to any Eligible Participants in the event of serious misconduct, a material misstatement in the Company's financial statements or other circumstances.

CORPORATE GOVERNANCE CODE (“CG CODE”) AND CORPORATE GOVERNANCE REPORT

The Company is committed to attain and maintain high standards of corporate governance best suited to the needs and interests of the Group as it believes that effective corporate governance practices are fundamental to safeguarding interests of Shareholders and other stakeholders and enhancing shareholder value. Accordingly, the Company has adopted and applied corporate governance principles that emphasise a quality board of Directors, effective risk management and internal control systems, stringent disclosure practices, transparency and accountability save as specifically disclosed below.

The Board has adopted the code provisions as set out in the Appendix C1 to the Rules (the “**Listing Rules**”) Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the “**Stock Exchange**”). Continuous efforts are made to review and enhance the Group’s internal controls and procedures in light of changes in regulations and developments in best practices.

The Company has, throughout the Year, complied with the code provisions contained in the CG Code except for (i) the code provision C.2.1 of the CG Code for the separation of the roles of Chairman and Chief Executive Officer (“**CEO**”) and (ii) code provision C.2.7 of the CG Code requiring the Chairman to meet with the non-executive Directors as described below.

Code provision C.2.1 of the CG Code sets out that the roles of the Chairman and CEO should be separated and should not be performed by the same individual. The Company does not at present have any officer holding the position of CEO. Mr. Lam Shiu Ming, Daneil is the founder and Chairman of the Company and has also carried out the responsibilities of CEO. Mr. Lam possesses the essential leadership skills to manage the Board and extensive knowledge in the business of the Group. The Board considers the present structure to be more suitable to the Group because it can promote the efficient formulation and implementation of the Group’s strategies.

Code provision of C.2.7 of the CG Code requires the Chairman to hold meetings at least annually with the non-executive Directors (including independent non-executive Directors) without the executive Directors present. As Mr. Lam Shiu Ming, Daneil, the Chairman, is also an executive Director, the Company has therefore deviated from this code provision.

RISK MANAGEMENT AND INTERNAL CONTROL

The Board is responsible for establishing, maintaining and reviewing of the Group's risk management and internal control systems. The Board must ensure that the Company establishes and maintains effective risk management and internal control systems to meet the objectives and safeguard the interests of the Shareholders and assets of the Company. The internal control systems are designed to manage rather than eliminate the risk of failures to achieve business objectives, and can only provide reasonable but not absolute assurance.

The Board oversees the Group's overall risk management and internal control systems on an ongoing basis through identifying and grading risk components, perceiving control impact and facilitating remediation plan. The development of our risk management and internal control systems is largely based on the framework as set down by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). The risk management framework, coupled with our internal controls, ensures the risks associated with our different business units are effectively monitored, and are in line with the Group's risk appetite.

The Group adopts the top-down approach to monitor the principal risks affecting the business. The Board reviews and approves the effectiveness and adequacy of the Group's risk management and internal control systems on an annual basis.

In respect to the absence of a separate internal audit department in the Group, the Group reviews annually on whether there is a need for such functional department. Given the possibility to engage external professional assistance, the Board opposes to divert resources to establish a separate internal audit department.

During the Year, an external consultant had been engaged by the Group to facilitate the Board and the Audit Committee for the evaluation of the Group's risk management and internal control systems. Through conducting an annual risk assessment with the assistance of the external consultant, the Group had identified and assessed the impact of the strategic risks, operational risks, financial risks and compliance risks of its major businesses. A three-year rolling internal audit plan was devised by the Group under a risk based approach with reference to the results of the annual risk assessment. An annual internal control review was performed by the external consultant according to the approved internal audit plan with a view to making recommendations for improving and strengthening the internal control systems. The Board will continue to work with the external consultant to discuss and follow-up on the status of remediation of the internal control weaknesses and to monitor the risks of the Group in the coming years.

With respect to the monitoring and disclosure of inside information, the Group has adopted a policy on disclosure of inside information with the aim to ensure the insiders are abiding by the confidentiality requirement and are fulfilling the disclosure obligation of the inside information.

Taking the above into consideration, the Audit Committee reviews the effectiveness of the Group's internal control system and reports the relevant results to the Board. For the Year, the Board considered that a review of the effectiveness of the risk management and internal control systems had been conducted and considered that the risk management and internal control systems were effective and adequate.

MODEL CODE FOR SECURITIES TRANSACTIONS BY DIRECTORS

During the Year, the Company adopted the Model Code for Securities Transactions by Directors of Listed Issuers as set out in Appendix C3 to the Listing Rules (the “**Model Code**”) as the code for dealing in securities of the Company by the Directors. Having made specific enquiries, all the Directors confirmed that they have complied with the Model Code throughout the Year.
