SUMMARY OF FINANCIAL FIGURES

The Petroleum sales, net of royalties for the six months ended June 30, 2026 remained the same at CAD 0 comparing to the six months ended June 30, 2025. This was mainly due to the loss of revenue as a result of equipment maintenance at West Ells.

The net operating loss for the three months ended June 30, 2026 excluding one-off foreign exchange gain (loss), was a net operating loss of CAD 14.5 million compared to a net operating loss of CAD2.1 million for the same period in 2025.

The operating cash flow for the three months ended June 30, 2026 was a net loss of CAD1.0 million compared to a net loss of CAD2.5 million for the same period in 2025. The operating cash flow deficiency for the three months ended June 30, 2026 was primarily due to the loss of revenue as a result of equipment maintenance at West Ells.

For Q2 2026, net loss and comprehensive loss attributable to owners of the Company was approximately CAD 19.7 million compared to a net loss and comprehensive loss attributable to owners of the Company of approximately CAD 2.0 million in Q2 2025.

As at June 30, 2026, December 31, 2025 and June 30, 2025, the Company notes the following selected financial figures.

MANAGEMENT'S DISCUSSION AND ANALYSIS

This Management's Discussion and Analysis ("MD&A") of the financial condition and performance of Sunshine Oilsands Ltd. ("Sunshine" or the "Company") for the three and six months ended June 30, 2026 is dated August 12, 2026 (Calgary time) / August 12, 2026 (Hong Kong time), and approved by the Company's Board of Directors. This MD&A should be read in conjunction with the Company's unaudited condensed consolidated interim financial statements and notes thereto for the three and six months period ended June 30, 2026 and with the audited consolidated financial statements and notes thereto for the year ended December 31, 2025. All amounts and tabular amounts are stated in thousands of Canadian dollars unless indicated otherwise.

Overview

Sunshine is a holder and a developer of Athabasca region oil sands resources with approximately 0.71 billion barrels of risked best estimate contingent resources. The Company's un-risked best estimate contingent resources at December 31, 2025 was approximately 1.10 billion barrels. With approximately 1 million acres of oil sands and petroleum and natural gas leases, the Company has significant commercial development potential. Phase I (5,000 barrels) of the West Ells 10,000 barrels thermal commercial project is in production. The Athabasca region is the most prolific oil sands region in the Province of Alberta, Canada. Canada's oil sands represent the largest oil resource found in a stable political environment located in the Western Hemisphere and the third largest oil resource in the world. Canadian oil sands represent the largest single source of supply of oil imported into the United States. The Company has one business and geographical segment. Accordingly, no business and geographical segment information is presented.

The Company's focus is on evaluating and developing its oil sands assets with the completion and operation of the 5,000 bbls/day Phase I commercial West Ells (the "Project"). When financing is available, the Company plans to add an additional 5,000 bbls/day Phase II to the Project. On March 1, 2017, the West Ells Phase I commenced commercial production.

As at June 30, 2026, the Company had invested approximately CAD1.29 billion in oil sands leases, drilling operations, project engineering, procurement and construction, operation start-up, regulatory application processing and other assets. As at June 30, 2026, the Company had CAD0.74 million in cash.

The Company relies on its ability to obtain various forms of financing and cash flow from operations to fund administration expenses and future exploration and development cost of its projects. The Company's ability to continue as a going concern is dependent on continuing operations and development in West Ells, marketing bitumen blends at favorable prices, achieving profitable operations and the ability to refinance current debt and access immediate additional financing. There can be no assurance that the steps management takes will be successful. As such, there is significant doubt and there can be no assurance that the Company will be able to continue as a going concern.

Operational Update

West Ells

On March 1, 2017, the Project commenced commercial production. Hence, effective March 1, 2017, the Company started recording revenue, royalties, expenses and depletion of the West Ells Project. On March 31, 2020, the Board decided to temporarily suspend production due to volatility in the international crude oil market, severe decline in crude oil prices, and having considered the fact that the Company's West Ells production equipment and road needed repair, coupled with the outbreak of COVID-19 in Canada. On April 11, 2022, the West Ells project fully resumed operation. Production was again suspended in November 2024 to deal with the equipment and maintenance equipment's, which are being addressed with a view to restarting production when the lower term outlook for pricing stabilizes.

For the three and six months ended June 30, 2026, the Company's average bitumen production was 0 bbls/day. The bitumen is blended with diluent as part of the production process to create the marketable "Dilbit" blend product. The average Dilbit sales volume was 0 bbls/day for the three and six months ended June 30, 2026.

Muskwa and Godin Clastics Operations (Non-Operated 50% working interest)

As at the date of this report, Muskwa has no production. Development of Muskwa area is expected to be reactivated with the execution of the Amended Supplementary Agreement with Renergy, at no cost to Sunshine.

2. The working capital deficiency includes the foreign exchange gain from conversion of HKD/CNY denominated loans from related companies and shareholders into CAD and the USD denominated Notes converted to CAD at each period end exchange rate.

Results of Operations

Bitumen Realization

	For the three months ended June 30,		For the six months ended June 30,	
(\$ thousands, except \$/bbl)	2026	2025	2026	2025

Diluent blended	-	-	-	-
Realized bitumen revenue ¹	\$ -	\$ -	\$ -	\$ -
(\$ / bbl)	N/A	N/A	N/A	N/A

1. Realized bitumen revenue is used to calculate operating netbacks.

Bitumen realization represents the Company's realized petroleum revenue ("Dilbit revenue"), net of diluent expenses. Dilbit revenue represents the Company's revenue from its bitumen produced at West Ells project blended with purchased diluent. The cost of blending is impacted by the amount of diluent required and the Company's cost of purchasing and transporting the diluent. A portion of the diluent expense is effectively recovered in the sales price of the blended product.

For the three months ended June 30, 2026, the Company's realized bitumen revenue were both zero for the same period in 2026 and 2025. The Company did not realize bitumen revenue in Q2 2026 was primarily due to no production as a result of equipment maintenance at West Ells. There was no disclosure on bitumen realized price per barrel for Q2 2026 as there was zero dilbit sales due to equipment maintenance.

Operating netback (\$ / bbl)	N/A	N/A	N/A	N/A

1. Operating cash flow is a non-GAAP measure which is defined in the Advisory section of the MD&A.

For the three months ended June 30, 2026, the operating cash flow resulted in a net loss of CAD1.0 million compared to a net loss of CAD2.5 million for the same period in 2025. The decrease in operating cash flow deficiency for the three months ended June 30, 2026 was primarily due to reduced operating costs. There was no disclosure on operating netback per barrel for Q2 2026 as there were zero dilbit sales.

Bitumen Production

(Barrels/day)	2026	2025	2026	2025
Bitumen production	-	-	-	-

For the three months ended June 30, 2026, bitumen production at West Ells averaged 0 bbls/day, unchanged from 0 bbls/day for the same period in 2025, as production remained suspended in both periods due to equipment maintenance at West Ells.

(Barrels/day)	2026	2025	2026	2025
Bitumen Sales	-	-	-	-

Bitumen sales at West Ells for the three months ended June 30, 2026 averaged 0 bbl/day compared to 0 bbl/day for the three months ended June 30, 2025, with no sales in both 2026 and 2025 due to no production as a result of equipment maintenance at West Ells.

Petroleum Sales, net of royalties

Royalties	-	-	-	-
Petroleum sales, net of royalties	\$ -	\$ -	\$ -	\$ -
\$ / bbl	N/A	N/A	N/A	N/A

Petroleum sales are from the sales of Dilbit. For the three months ended June 30, 2026, petroleum sales, net of royalties, amounted to CAD0 million compared to CAD0 million for the same period in 2025, with no petroleum revenue in both 2026 and 2025 due to no production as a result of equipment maintenance at West Ells. There was no disclosure on net petroleum sales per barrel for Q2 2026 as there were zero dilbit sales due to equipment maintenance.

The royalty rate applicable to pre-payout oil sands operations starts at 1% of bitumen sales and increases for every dollar that the WTI crude oil price in Canadian dollars is priced above \$55 per barrel, to a maximum of 9% when the WTI crude oil price is \$120 per barrel or higher. The West Ells project is currently in pre-payout. There were no royalties for the three months ended June 30, 2026 as there was no dilbit revenue in either period.

Total diluent cost also includes the diluent blended at terminals to adjust the dilbit density for pipeline shipping purposes. For the three months ended June 30, 2026, total diluent cost was CAD0 million, unchanged from CAD0 million for the same period in 2025, as no diluent was blended in either period due to the suspension of production for equipment maintenance at West Ells. There was no disclosure on diluent cost per barrel or blending ratio for the three months ended June 30, 2026 and 2025 as there was no production at West Ells.

Operating costs	\$ 1,002	\$ 2,473	\$ 2,224	\$ 4,351

For the three months ended June 30, 2026, the operating costs decreased by CAD1.5 million to CAD1.0 million from CAD2.5 million for the same period in 2025. The reduction was primarily due to lower operating and maintenance activities at West Ells during the current period, as production remained suspended in both periods due to equipment maintenance.

Share-based compensation expense for the three months ended June 30, 2026 and 2025 were both zero. The fair value of share-based compensation associated with the granting of stock options is recognized by the Company in its condensed consolidated interim financial statements. Fair value is determined using the Black-Scholes option pricing model.

Depletion and Depreciation

	For the three months ended June 30,		For the six months ended June 30,	
(\$ thousands, except \$/bbl)	2026	2025	2026	2025
Depletion and depreciation	\$ 168	\$ 176	\$ 336	\$ 360
Depletion (\$/bbl)	N/A	N/A	N/A	N/A

The Company commenced commercial production at West Ells Project I on March 1, 2017. As at that time, the Company started recording depletion of West Ells Project I assets in the statement of comprehensive income (loss) for the three months ended March 31, 2017. The depletion rate is based on unit-of-production.

For the three months ended June 30, 2026, depletion and depreciation expense remained at approximately CAD0.2 million, compared to CAD0.2 million for the same period in 2025. The primary reason for no depletion expenses is due to no production as result of equipment maintenance at West Ells in both 2026 and 2025.

Impairment / (Reversal)

	For the three months ended June 30,	
(\$ thousands, except \$/bbl)	2026	2025
Impairment / (Reversal)	\$ -	\$ -

The Company assesses at each reporting date whether there is an indication that it's E&E (exploration and evaluation assets) and PP&E assets may be impaired or that historical impairment may be reversed. The Company's assets are aggregated into cash-generating units for the purpose of calculating impairment/impairment reversal. Cash generating units ("CGU"s) are based on an assessment of the units' ability to generate independent cash inflows. The company recognized impairment loss or reversal based on CGU which is identified with respect to geographical proximity, shared infrastructure and similarity of market risk exposure and materiality. The recoverable amount of the E&E and PP&E assets were determined using judgement and internal estimates.

For the purpose of impairment (reversal) testing, recoverable amounts for each CGU were estimated based on FVLCD methodology which is calculated using the present value of the CGUs' expected future cash flows (after-tax). The cash flow information was derived from a report on the Company's oil and gas reserves which was prepared by an independent qualified reserve evaluator, Boury Global Energy Consultants ("Boury") and its latest oil price forecasts. The projected cash flows used in the FVLCD calculation reflect market assessments of key assumptions, including management forecast of long-term commodity prices, inflation rates, and foreign exchange rates (Level 3 fair value inputs). Cash flow forecasts are also based on Boury's evaluation of the Company's reserves and resources to determine production profiles and volumes, operating costs, maintenance and future development capital expenditures.

The reversal is recognized in profit or loss only to the extent that it reverses an impairment loss that was previously recognized in profit or loss. Any additional increase is accounted for as a revaluation and is recognized in other comprehensive income.

A reversal of an impairment loss shall be recognized immediately in profit or loss. In allocating a reversal of an impairment loss for a cash-generating unit, the carrying amount of an asset shall not be increased above the lower of:

- Its recoverable amount; and
- The carrying amount that would have been determined (net of amortization or depreciation) had no impairment loss been recognized for the asset in prior periods.

Future depletion expenses are adjusted to allocate the CGU's revised carrying amount over its remaining useful life.

As of June 30, 2026 and 2025, the Company did not identify any indicators of further impairment loss (reversal) of the above E&E or West Ells CGU. As a result, nil impairment (reversal) was recognized in profit and loss.

Income Taxes

The Company did not recognize any deferred income tax assets, which relate primarily to unrecognized tax losses, for the three ended June 30, 2026 and 2025. Recognition of tax losses is based on the Company's consideration of its internal development plan for its asset base and the assumption as to whether or not these tax losses will be utilized before their expiry dates. At June 30, 2026, the Company had total available tax deductions of approximately CAD1.43 billion, with unrecognized tax losses that expire between 2029 and 2045.

On February 16, 2023, the Company and the Forbearing Holder entered into an interest waiver agreement (the "2023 Interest Waiver Agreement") pursuant to which the Forbearing Holder agrees to unconditionally and irrevocably waive the interest accrued between January 1, 2023 and December 31, 2025 (the "Waiver of Interest"). Based on the Forbearance Reinstatement and Amending Agreement ("2021 FRAA") dated August 8, 2021, the waived interest calculated at 10.0% per annum on the outstanding amounts (principal and interests) amounted to US\$31.5 million. Save as the waiver of interest, all other terms and conditions in relation to the Senior Note and its subsequent forbearance remain unchanged.

On August 8, 2023, the Company and the Forbearing Holder confirmed the signing of the Forbearance Reinstatement and Amending Agreement ("2023 FRAA"). The principal terms of the 2023 FRAA include:

- The 2023 FRAA covers the period from September 1, 2023 to August 31, 2025 ("Period of Forbearance 3");
- Same as the 2021 FRAA executed on August 8, 2021, all outstanding amounts (principal and interests) will continue to be accrued at an interest of 10% per annum until August 31, 2025, unless otherwise waived in separate interest waiver agreements. During the Period of Forbearance, there will not be any forbearance fee and yield maintenance premium based on the initial 2016 Forbearing Agreement executed on September 12, 2016.

On April 11, 2024, the Company and the Forbearing Holder entered into an interest waiver agreement (the "2024 Interest Waiver Agreement") pursuant to which the Forbearing Holder agrees to unconditionally and irrevocably waive the interest accrued between January 1, 2025 and December 31, 2025 (the "Waiver of Interest"). Based on the Forbearance Reinstatement and Amending Agreement ("2023 FRAA") dated August 8, 2023, the waived interest calculated at 10.0% per annum on the outstanding amounts (principal and interests) amounted to US\$31.5 million. Save as the waiver of interest, all other terms and conditions in relation to the Senior Note and its subsequent forbearance remain unchanged.

On January 7, 2025, the Company and the Forbearing Holder confirmed the signing of the Forbearance Reinstatement and Amending Agreement (the "FRAA2025"). The principal terms of the FRAA2025 include:

- The FRAA2025 covers the period from September 1, 2025 to August 31, 2027 ("Period of Forbearance");
- Same as the 2021 FRAA executed on January 8, 2021, all outstanding amounts (principal and interests) will continue to be accrued at an interest rate of 10% per annum until August 31, 2027, unless otherwise waived in separate interest waiver agreements. During the Period of Forbearance, there will not be any forbearance fee and yield maintenance premium based on the initial Forbearance Agreement executed on September 12, 2016.

The Board believes the entering into of the FRAA2025 is in the interests of the Company and its shareholders as a whole in view that the FRAA2025 will provide the Company with additional time to repay or refinance the indebtedness owed by the Company to the Noteholders under the Notes, whilst at the same time the financing cost will be substantially lowered.

On January 7, 2025, the Company and the Forbearing Holder entered into an interest waiver agreement (the "2025 Interest Waiver Agreement") pursuant to which the Forbearing Holder agrees to unconditionally and irrevocably waive the interest accrued between January 1, 2025 and December 31, 2025 (the "Waiver of Interest"). Based on the Forbearance Reinstatement and Amending Agreement ("FRAA2025") dated January 7, 2025, the waived interest calculated at 10.0% per annum on the outstanding amounts (principal and interests) amounted to US\$31.5 million.

The Company has presented the portion held by Non-Forbearing holder as current liabilities and the portion held by Forbearing holder as non-current liabilities on the unaudited condensed consolidated interim financial statements as at June 30, 2026.

As of June 30, 2026, the Company had incurred unsecured debt for a total of US\$ 54.7 million (CAD77.7 million equivalent).

The Company received a demand notice from the Regional Municipality of Wood Buffalo ("RMWB") in relation to the 2016-2026 municipal property taxes of CAD18.61 million. The Company was also charged with overdue penalties of CAD30.38 million. Since then the Company was in active negotiation with RMWB for a settlement plan with proposals to waive overdue penalties. As at the date of this report, the Company believes that notices issued by RMWB relating to property taxes did not comply with relevant legislation and the Company has sought judicial review to determine the effect of non-compliant tax notices on RMWB's property tax claim.

The Company is involved in various claims including claims described above and actions arising in the course of operations and is subject to various legal actions, pending claims and exposures. Litigation is subject to many uncertainties, and the outcome of individual matters is not predictable with assurance. If unfavorable outcome were to occur against such claims or pending claims, there exists the possibility of a material adverse impact on the Company's consolidated net income or loss in the period in which the outcome is determined. Accruals for litigation, claims and assessments are recognized if the Company determines that the loss is probable and the amount can be reasonably estimated. The Company believes it has made adequate provision for such claims. While fully supportable in the Company's view, some of these positions, if challenged may not be fully sustained on review. From time to time, the Company receives liens or claims on accounts payable balances, and the Company continues to work toward resolution of any liens or claims. At June 30, 2026, the Company had incurred CAD0.82 million (USD \$0.57 million equivalent using the period end exchange rate) in Builders' liens (not related mineral leases) against them during the ordinary course of business.

The Company received a judgment from the Court of the State of New York, New York County (the "Judgment") that the Company shall pay the Non-forbearing holder all the amounts due and owing on the Senior Notes issued under the notes indenture dated 8 August 2014 (including principal and interests) in an aggregate amount of approximately US\$15,481,000 (equivalent to approximately CAD 20,967,000). The judgment was vacated on May 25, 2023. On December 13, 2023, the Company received a judgment from the Court of the State of New York, New York County that the Company should pay the Non-forbearing Holder all the amounts due and owing on the Notes (including principal and interests) in an aggregate amount of approximately US\$19,694,000 (equivalent to approximately CAD 26,048,000). On January 2, 2024 and February 20, 2024, the Company lodged an appeal against the Judgment to the New York court of appeal. On February 27, 2024, the Non-forbearing Holder tried to execute the judgement by serving notice in the State of New York.

The Notes are translated into Canadian dollars at the period end exchange rate of \$1USD = \$1.4210 CAD.

The Company's strategy is to access sufficient capital, through equity issuances, monetization, joint ventures and the utilization of debt, in order to maintain a capital base that properly supports the objectives of maintaining financial flexibility and of sustaining future development of the business. The Company manages its capital structure in order to continue as a going concern and makes adjustments relative to changes in economic conditions and the Company's risk profile. In order to manage risk, the Company may from time to time issue shares and adjust its capital spending to manage current working capital deficiency levels. The Company's liquidity may be adversely affected if the Company's access to the capital markets is hindered because of financial market conditions generally, or as a result of conditions specific to the Company.

For the three months ended June 30, 2026, the Company reported a net loss and comprehensive loss attributable to owners of the Company of CAD19.74 million. At June 30, 2026, the Company had a working capital deficiency of CAD120.9 million.

The Company's debt-to-asset ratio, measured based on total liabilities divided by total assets was 100% as at June 30, 2026, compared to 96% as at December 31, 2025.

The Company is exposed to risks arising from fluctuations in foreign currency exchange rates. Thus, exchange rate fluctuations can affect the fair value of future cash flows. The Company is exposed to currency risks primarily through senior notes, loans from related companies and shareholders, other loans, accounts payables and bank balances that are denominated in a foreign currency, i.e. a currency other than the functional currency of the operations to which the transactions relate. The foreign currencies giving rise to this risk are primarily Hong Kong dollar ("HK\$"), United States dollar ("US\$") and Renminbi ("RMB").

The Company manages this risk by monitoring foreign exchange rates and evaluating their effects on using Canadian or U.S. vendors as well as timing of transactions. The Company had no forward exchange rate contracts in place as at or during the three months ended June 30, 2026.

If exchange rate to convert from USD to CAD had been one percent higher or lower with all other variables held constant, foreign cash held at June 30, 2026 would have been impacted by \$Nil (June 30, 2025: \$Nil) and the carrying value of the debt at June 30, 2026 would have been impacted by CAD4.9 million (June 30, 2025: CAD2.7 million).

If exchange rate to convert from HKD to CAD had been one percent higher or lower with all other variables held constant, foreign cash held at June 30, 2026 would have been impacted by \$Nil (June 30, 2025: \$Nil) and the carrying value of the debt at June 30, 2026 would have been impacted by CAD0.7 million (June 30, 2025: CAD0.7 million).

If exchange rate to convert from RMB to CAD had been one percent higher or lower with all other variables held constant, foreign cash held at June 30, 2026 would have been impacted by \$Nil (June 30, 2025: \$Nil) and the carrying value of the debt at June 30, 2026 would have been impacted by CAD0.2 million (June 30, 2025: CAD0.1 million).

Royalty Agreement

On August 31, 2021 (Calgary time), the Company entered into a Royalty Agreement (together with its ancillary documents, the "Royalty Agreement") with Burgess Energy Holdings, L.L.C. ("BEH"), pursuant to which, the Company has granted to BEH a royalty interest in the bitumen within, upon, under or produced from the royalty lands owned by the Company and/or its affiliates, free and clear of any and all encumbrances for an aggregate consideration of CAD 20,000,000 (the "Aggregate Consideration"), subject to the terms and conditions stipulated therein. The arrangement under the Royalty Agreement is perpetual.

On June 8, 2023, the Company entered into an amended Royalty Agreement (together with its ancillary documents, the "Amended Royalty Agreement") with BEH, pursuant to which, the Company will receive an accelerated payment of CAD5 million from the aggregate consideration of CAD20 million, subject to the terms and conditions stipulated therein. In accordance with the Amended Royalty Agreement, the royalty rate calculation for WCS prices above USD \$80/bbl is amended. When average daily WCS price of the month is US\$80/bbl, the royalty rate is 8.75% and proportionally increases up to a maximum of 25.00% when the WCS price rises to USD \$113/bbl (based on the original Royalty Agreement, the royalty rate increases from 8.75% up to a maximum of 15.00% when the WCS price rises to USD \$100/bbl).

Commitments and Contingencies

Management estimated the contractual maturities of the Company's obligations. These estimated maturities may differ significantly from the actual maturities of these obligations. For a detailed discussion regarding to the Company's commitments and contingencies, please refer the Company's unaudited condensed consolidated interim financial statements and notes thereto for the three and six months ended June 30, 2026 and with the audited consolidated financial statements and notes thereto for the year ended December 31, 2025.

Changes in Accounting Policies

Our significant accounting policies have remained unchanged since December 31, 2025. A summary of our significant accounting policies is included in our 2025 Annual Report.

Critical Accounting Policies and Estimates

The Company's critical accounting estimates are those estimates having a significant impact on the Company's financial position and operations and that require management to make judgments, assumptions and estimates in the application of IFRS. Judgements, assumptions and estimates are based on historical experience and other factors that management believes to be reasonable under current conditions. As events occur and additional information is obtained, these judgements, assumptions and estimates may be subject to change.

For a detailed discussion regarding to the Company's critical accounting policies and estimates, please refer to Note 4 to the consolidated annual financial statements for the year ended December 31, 2025.

Risk Factors

The business of resource exploration, development and extraction involves a high degree of risk. Material risks and uncertainties affecting the Company, their potential impact and the Company's principal risk management strategies are substantially unchanged from those disclosed in the Company's MD&A for the year ended December 31, 2025, which is available at the Company's website www.sunshineoilsands.com, and the website of the SEHK www.hkexnews.hk

Disclosure Controls and Procedures

Ms. Gloria Ho, Executive Director of the Board and Chief Financial Officer and Mr. Kwok Ping Sun, Chairman of the Board, have designed, or caused to be designed under their supervision, disclosure controls and procedures ("DC&P") to provide reasonable assurance that: (i) material information relating to the Company is made known to the Company's CEO and CFO by others, particularly during the period in which the annual and quarterly filings are being prepared; and (ii) information required to be disclosed by the Company in its annual filings, interim filings or other reports filed or submitted by it under securities legislation is recorded, processed, summarized and reported within the time period specified in securities legislation. As at June 30, 2026, the Chief Financial Officer and the Chief Executive Officer evaluated the design and operation of the Company's DC&P. Based on that evaluation, the Executive Director of the Board and the Chief Financial Officer and the Chief Executive Officer concluded that the Company's DC&P were effective as at June 30, 2026.

Internal Controls over Financial Reporting

Ms. Gloria Ho, Executive Director of the Board and Chief Financial Officer and Mr. Kwok Ping Sun, Chairman of the Board, have designed, or caused to be designed under their supervision, internal controls over financial reporting ("ICFR") to provide reasonable assurance regarding the reliability of the Company's financial reporting and the preparation of financial statements for external purposes in accordance with IFRS. Furthermore, the Company used the criteria established in "Internal Control – Integrated Framework" published by the Committee of Sponsoring Organizations of the Treadway Commission (2013 Framework); they have evaluated, or caused to be evaluated under their supervision, the effectiveness of the Company's ICFR at June 30, 2026, and concluded that the Company's ICFR are effective at June 30, 2026 for the foregoing purpose.

No material changes in the Company's ICFR were identified during the three and six months period ended June 30, 2026 that have materially affected, or are reasonably likely to materially affect, the Company's ICFR. It should be noted that a control system, including the Company's disclosure and internal controls and procedures, no matter how well conceived, can provide only reasonable, but not absolute, assurance that the objectives of the control system will be met and it should not be expected that the disclosure and internal controls and procedures will prevent all errors or fraud. In reaching a reasonable level of assurance, management necessarily is required to apply its judgment in evaluating the cost/benefit relationship of possible controls and procedures.

Forward-Looking Information

Certain statements in this MD&A are forward-looking statements that are, by their nature, subject to significant risks and uncertainties and the Company hereby cautions investors about important factors that could cause the Company's actual results to differ materially from those projected in a forward-looking statement. Any statements that express, or involve discussions as to expectations, beliefs, plans, objectives, assumptions or future events or performance (often, but not always, through the use of words or phrases such as "will", "expect", "anticipate", "estimate", "believe", "going forward", "ought to", "may", "seek", "should", "intend", "plan", "projection", "could", "vision", "goals", "objective", "target", "schedules" and "outlook") are not historical facts, are forward-looking and may involve estimates and assumptions and are subject to risks (including the risk factors detailed in this MD&A), uncertainties and other factors some of which are beyond the Company's control and which are difficult to predict. Accordingly, these factors could cause actual results or outcomes to differ materially from those expressed in the forward-looking statements.

Since actual results or outcomes could differ materially from those expressed in any forward-looking statements, the Company strongly cautions investors against placing undue reliance on any such forward-looking statements. Statements relating to "reserves" or "resources" are deemed to be forward-looking statements, as they involve the implied assessment, based on estimates and assumptions that the resources and reserves described can be profitably produced in the future. Further, any forward-looking statement speaks only as of the date on which such statement is made and the Company undertakes no obligation to update any forward-looking statement or statements to reflect events or circumstances after the date on which such statement is made or to reflect the occurrence of unanticipated events.

All forward-looking statements in this MD&A are expressly qualified by reference to this cautionary statement.

Notes to Condensed Consolidated Interim Financial Statements

For the three and six months ended June 30, 2026 and 2025

(Expressed in thousands of Canadian dollars, unless otherwise indicated)

1. General information

Sunshine Oilsands Ltd. (the "Company") was incorporated under the laws of the Province of Alberta on February 22, 2007. The address of its principal place of business is 270, 333 24th Avenue SW, Calgary, AB, T2S 3E6, Canada. The Company's shares were listed on the Stock Exchange of Hong Kong Limited ("SEHK") on March 1, 2012 pursuant to an initial public offering ("IPO") and trades under the stock code symbol of "2012". On November 16, 2012, the Company completed a listing of its common shares on the Toronto Stock Exchange ("TSX") and traded under the symbol of "SUO". On September 30, 2015, the Company completed a voluntary delisting from the TSX. The Company continues to be a reporting issuer in Canada. The Company and its subsidiaries are collectively referred to as the "Group".

The Group is engaged in the evaluation and the development of oil properties for the future production of bitumen in the Athabasca oilsands region in Alberta, Canada. Details of the subsidiaries are set out in note 23.

On April 15, 2019, Sang Xiang Petroleum & Chemical (Hebei) Limited ("Sunshine Hebei") was incorporated in China and is a joint venture company in which the Company owns 51% interests. The address of the principal place of business for Sunshine Hebei is Techno Building, Level 4, Room 0430, Chengde Hi-Tech Industry Development Zone, Hebei Province.

2. Basis of preparation

Going Concern

The Condensed Consolidated Interim Financial Statements have been prepared on a basis which asserts that the Group will continue to have the ability to realize its assets and discharge its liabilities and commitments in a planned manner with consideration to expected possible outcomes. Conversely, if the assumption made by management is not appropriate and the Group is unable to meet its obligations as they fall due the preparation of these Financial Statements on a going concern basis may not be appropriate and adjustments to the carrying amounts of the Group's assets, liabilities, revenues, expenses, and balance sheet classifications may be necessary and such adjustments could be material. Specifically, in the absence of additional financing and the restructuring of current debt (Note 9) the Group would be unlikely to be able to continue the development of the West Ells project and the Group would be required to consider divestiture of the West Ells project and other assets. Such curtailment of activity would likely materially and negatively impact the Group's assessment of the carrying values of assets and liabilities associated with the West Ells project.

The Group incurred a net loss and comprehensive loss attributable to owners of the Company of CAD40 million for the six months ended June 30, 2026, and as at June 30, 2026, the Group had net current liabilities of CAD121 million. The Group will need to refinance or restructure its current debt and obtain additional financing in order to meet its near-term operating cash requirements, debt payments and sustaining capital expenditures. The validity of which depends upon that the Group will be able to successfully refinance or restructure its current debt and obtain additional financing to meet its liabilities as they fall due in the foreseeable future.

Management has applied significant judgment in preparing forecasts supporting the going concern assumption. Specifically, management has made assumptions regarding projected oil sales volumes and pricing, scheduling of payments arising from various obligations as at June 30, 2026, the availability of additional financing, and the timing and extent of capital and operating expenditures.

The Company's ability to continue as a going concern is dependent on its ability to realize forecasted revenues, achieve profitable operations, restructure projected cash outflows arising from existing arrangements, control the timing and extent of projected expenditures, and refinance current debt, access immediate additional financing and maintain compliance with all terms in debt and forbearance agreements. The timing and extent of forecast capital and operating expenditures is based on the Company's 2026 budget and on management's estimate of expenditures expected to be incurred beyond 2026. The Company has a significant degree of control and flexibility over both the extent and timing of expenditures under its future capital investment program. There is a material risk that the Company will be unable to meet its financing obligations including payments of outstanding interest and principal balances on its Senior Notes (Note 9.2). Management continually monitors the Company's financing requirements and is pursuing negotiations to refinance current debt and access immediate additional financing to fund its ongoing operations. Management is engaged in discussions with existing shareholders and creditors on proposed transactions and agreements which would reduce anticipated cash outflows and provide the additional financing required to fund capital and operating expenditures, and to meet obligations as they fall due in the 12 months following June 30, 2026.

2.1 Statement of compliance

The Condensed Consolidated Interim Financial Statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") and the applicable disclosures required by the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the "Listing Rules") and by the Hong Kong Companies Ordinance. The Condensed Consolidated Interim financial statements have been prepared on the historical cost basis. Any financial instruments are measured at fair value. The Condensed Consolidated Interim financial statements are presented in Canadian Dollars ("C\$").

The Condensed Consolidated Interim Financial Statements reflect management's best estimates after giving consideration to likely outcomes. The Group has consistently applied the accounting policies to all periods presented in these financial statements. Certain information and disclosures normally included in the audited annual consolidated financial statements, prepared in accordance with International Financial Reporting Standards ("IFRS"), have been condensed or omitted, except for the adoption of IFRS 15 Revenue from Contracts with Customers, IFRS 9 Financial Instruments and IFRIC 22 Foreign Currency Transactions and Advance Consideration. Accordingly, these Condensed Consolidated Interim Financial Statements should be read in conjunction with the audited annual Consolidated Financial Statements for the year ended December 31, 2025.

3. APPLICATION OF NEW AND AMENDMENTS TO INTERNATIONAL FINANCIAL REPORTING STANDARDS ("IFRSs")

The Group has applied, for the first time, the following amendments to IFRSs issued by the International Accounting Standards Board (the "IASB") which are effective for the Group's financial year beginning on January 1, 2025.

Amendments to IAS 21	Lack of Exchangeability
----------------------	-------------------------

The application of the new and amendments to IFRSs in the current year has had no material impact on the Group's financial performance and position for the current and prior years and/or on the disclosures set out in these consolidated financial statements.

New and amendments to IFRSs issued but not yet effective

The Group has not early applied the following new and amendments to IFRSs and interpretation that have been issued but are not yet effective:

Amendments to IFRS 18	Presentation and Disclosure in Financial Statements ²
Amendments to IFRS 19	Subsidiaries without Public Accountability: Disclosures ²
Amendments to IFRS 9 and IFRS 7	Amendments to the Classification and Measurement of Financial Instruments ¹
Amendments to IFRS 10 and IAS 28	Sale or Contribution of Assets between an Investor and its Associate or Joint Venture ³
Annual Improvements to IFRS Accounting Standards – Volume 11	Amendments to IFRS 1, IFRS 7, IFRS 9, IFRS 10 and IAS 7 ¹
Amendments to IAS 21	Translation to a Hyperinflationary Presentation Currency ³

¹ Effective for annual periods beginning on or after January 1, 2026

² Effective for annual/reporting periods beginning on or after 1 January 2027

³ Effective for annual/reporting periods beginning on or after a date to be determined

The directors of the Company anticipate that, the application of the new and amendments to IFRSs will have no material impact on the results and the financial position of the Group.

4. Trade and other receivables

	June 30, 2026		December 31, 2025	
Trade receivables	\$	2,289	\$	2,092
Other receivables-current		46		1,491
Other receivables-non-current		-		-
Other loan receivables-non-current		13,708		11,337
	\$	16,043	\$	14,920

The Group allows an average credit period of 30 days to its trade customers. The Group transacts with a number of oil and natural gas marketing companies, and the marketing companies typically remit amounts to the Group by the 25th day of the month following production.

The Group measures the loss allowance for trade receivables at an amount equal to lifetime ECL. The expected credit losses on trade receivables are estimated using a provision matrix by reference to past default experience of the debtor and an analysis of the debtor's current financial position, adjusted for factors that are specific to the debtors, general economic conditions of the industry in which the debtors operate and an assessment of both the current as well as the forecast direction of conditions at the reporting date.

There has been no change in the estimation techniques or significant assumptions made during the current reporting period.

The Group recognised lifetime ECL for trade receivables based on individually significant customer or the ageing of customers collectively that are not individually significant.

As at June 30, 2026, the directors of the Company considered the ECL on trade receivables was insignificant.

5. Exploration and evaluation

	CAD'000	
Balance, December 31, 2024	\$	239,259

Non-cash expenditures ¹		(59)
Balance, December 31, 2025	\$	239,334
Capital expenditures		-
Non-cash expenditures ¹		50
Balance, June 30, 2026	\$	239,384

1. Non-cash expenditures include capitalized share-based compensation and changes in decommissioning obligations.

At the end of the reporting period, the Group assessed impairment for its E&E CGU. For the purpose of impairment (reversal) testing, recoverable amounts for each CGU were estimated based on FVLCD methodology which is calculated using the present value of the CGUs' expected future cash flows (after-tax). The cash flow information was derived from a report on the Group's oil and gas reserves which was prepared by an independent qualified reserve evaluator, GLJ Petroleum Consultants ("GLJ") and its latest oil price forecasts. The projected cash flows used in the FVLCD calculation reflect market assessments of key assumptions, including management forecast of long-term commodity prices, inflation rates, and foreign exchange rates (Level 3 fair value inputs). Cash flow forecasts are also based on GLJ's evaluation of the Group's reserves and resources to determine production profiles and volumes, operating costs, maintenance and future development capital expenditures.

The reversal is recognized in profit or loss only to the extent that it reverses an impairment loss that was previously recognized in profit or loss. Any additional increase is accounted for as a revaluation and is recognized in other comprehensive income.

A reversal of an impairment loss shall be recognized immediately in profit or loss. In allocating a reversal of an impairment loss for a cash-generating unit, the carrying amount of an asset shall not be increased above the lower of:

- (a) its recoverable amount; and
- (b) the carrying amount that would have been determined (net of amortization or depreciation) had no impairment loss been recognized for the asset in prior periods.

For the six months ended June 30, 2026, the Group did not recognize any impairment loss (reversal) for E&E CGU.

Carrying value, June 30, 2026	\$ 474,363	159	474,522

At the end of the reporting period, the Group assessed impairment for its West Ells CGU. For the purpose of impairment (reversal) testing, recoverable amounts for each CGU were estimated based on FVLCD methodology which is calculated using the present value of the CGUs' expected future cash flows (after-tax). The cash flow information was derived from a report on the Group's oil and gas reserves which was prepared by an independent qualified reserve evaluator, GLJ Petroleum Consultants ("GLJ") and its latest oil price forecasts. The projected cash flows used in the FVLCD calculation reflect market assessments of key assumptions, including management forecast of long-term commodity prices, inflation rates, and foreign exchange rates (Level 3 fair value inputs). Cash flow forecasts are also based on GLJ's evaluation of the Group's reserves and resources to determine production profiles and volumes, operating costs, maintenance and future development capital expenditures.

The reversal is recognized in profit or loss only to the extent that it reverses an impairment loss that was previously recognized in profit or loss. Any additional increase is accounted for as a revaluation and is recognized in other comprehensive income.

A reversal of an impairment loss shall be recognized immediately in profit or loss. In allocating a reversal of an impairment loss for a cash-generating unit, the carrying amount of an asset shall not be increased above the lower of:

- (a) its recoverable amount; and
- (b) the carrying amount that would have been determined (net of amortization or depreciation) had no impairment loss been recognized for the asset in prior periods.

Future depletion expenses are adjusted to allocate the CGU's revised carrying amount over its remaining useful life. For the six months ended June 30, 2026, the Group did not recognize any impairment loss (reversal) for West Ells CGU.

9. Debt

9.1 Other loans

	June 30, 2026	December 31, 2025
		CAD'000
Current	-	2,319
Non-current	18,496	24,340
	18,496	26,659

As at June 30, 2026, the balances are unsecured and bearing interest of 0%-36% (December 31, 2025: 0 - 36%) per annum. Approximately CAD nil (December 31, 2025: CAD2,319,000) have a maturity date within one year.

Included in the above balance is approximately CAD14,713,000 (December 31, 2025: CAD14,899,000) for which the Group and an independent Hong Kong-based investment holding company entered into loan agreements and under which the Group provided Renminbi ("CNY") loan and received Hong Kong dollar ("HKD") loan from the investment holding company. The Group has to repay HKD to receive CNY from the investment holding company.

9.2 Senior notes

On February 16, 2023, the Group and the Forbearing Holder entered into an interest waiver agreement (the "2023 Interest Waiver Agreement") pursuant to which the Forbearing Holder agreed to unconditionally and irrevocably waive the interest accrued between January 1, 2023 and December 31, 2025 (the "Waiver of Interest"). Based on the Forbearance Reinstatement and Amending Agreement ("2021 FRAA") dated August 8, 2021, the waived interest calculated at 10.0% per annum on the outstanding amounts (principal and interests) amounted to approximately US\$31.5 million. Save as the waiver of interest, all other terms and conditions in relation to the Senior Note and its subsequent forbearance remain unchanged.

On August 8, 2023 (Calgary time), the Company and the Forbearing Holder confirmed the signing of the Forbearance Reinstatement and Amending Agreement ("2023 FRAA"). The principal terms of the 2023 FRAA include:

- The 2023 FRAA covers the period from September 1, 2023 to August 31, 2025 ("Period of Forbearance");
- Same as the Forbearance Reinstatement and Amending Agreement executed on August 8, 2021, all outstanding amounts (principal and interests) will continue to be accrued at an interest of 10% per annum until August 31, 2025, unless otherwise waived in separate interest waiver agreements. During the Period of Forbearance, there will not be any forbearance fee and yield maintenance premium based on the initial Forbearance Agreement executed on September 12, 2016.

The directors of the Company believe the entering into of the 2023 FRAA is in the interests of the Company and its shareholders as a whole in view that the 2023 FRAA will provide the Company with additional time to repay or refinance the indebtedness owned by the Company to the noteholders under the Notes, whilst at the same time the financing cost has been substantially lowered to a reasonable market level.

On April 11, 2024, the Company and the Forbearing Holder entered into an interest waiver agreement (the "2024 Interest Waiver Agreement") pursuant to which the Forbearing Holder agrees to unconditionally and irrevocably waive the interest accrued between January 1, 2025 and December 31, 2025 (the "Waiver of Interest"). Based on the Forbearance Reinstatement and Amending Agreement ("2023 FRAA") dated August 8, 2023, the waived interest calculated at 10.0% per annum on the outstanding amounts (principal and interests) amounted to approximately US\$31.5 million. Save as the waiver of interest, all other terms and conditions in relation to the Senior Note and its subsequent forbearance remain unchanged.

On January 7, 2025, the Company and the Forbearing Holder confirmed the signing of the Forbearance Reinstatement and Amending Agreement (the "FRAA2025"). The principal terms of the FRAA2025 include:

- The FRAA2025 covers the period from September 1, 2025 to August 31, 2027 ("Period of Forbearance");
- Same as the 2021 FRAA executed on January 8, 2021, all outstanding amounts (principal and interests) will continue to be accrued at an interest rate of 10% per annum until August 31, 2027, unless otherwise waived in separate interest waiver agreements. During the Period of Forbearance, there will not be any forbearance fee and yield maintenance premium based on the initial Forbearance Agreement executed on September 12, 2016.

The Board believes the entering into of the FRAA2025 is in the interests of the Company and its shareholders as a whole in view that the FRAA2025 will provide the Company with additional time to repay or refinance the indebtedness owed by the Company to the Noteholders under the Notes, whilst at the same time the financing cost will be substantially lowered.

On January 7, 2025, the Company and the Forbearing Holder entered into an interest waiver agreement (the "2025 Interest Waiver Agreement") pursuant to which the Forbearing Holder agrees to unconditionally and irrevocably waive the interest accrued between January 1, 2025 and December 31, 2025 (the "Waiver of Interest"). Based on the Forbearance Reinstatement and Amending Agreement ("FRAA2025") dated January 7, 2025, the waived interest calculated at 10.0% per annum on the outstanding amounts (principal and interests) amounted to US\$31.5 million.

The Company has presented the portion held by Non-Forbearing holder as current liabilities and the portion held by Forbearing holder as non-current liabilities on the unaudited condensed consolidated interim financial statements as at June 30, 2026.

The market price closed at HK\$ 0.335 on November 14, 2025. The Shares were to be allotted and issued under the Specific Mandate to be approved by the Independent Shareholders at the Special Meeting. Up to the date of this announcement, the issuance has not been completed.

On December 21, 2025, the Company entered into the placing agreement with Cheer Union Securities Limited, on a best effect basis, issue up to 114,280,000 placing shares at HK\$0.36 per placing share. The market price closed at HK\$ 0.40 on December 19, 2025. The Shares will be allotted and issued under the Specific Mandate to be granted by shareholders. On July 30, 2026, the Company and CUS entered into a third supplemental agreement (the "Third Supplemental Agreement"), pursuant to which both parties agreed to extend the closing date from July 31, 2026 to December 31, 2026, and to revise the Placing Price from HKD0.36 per Placing Share to HKD 0.20 per Placing Share, and to revise the number of Placing Shares from up to 114,280,000 shares to up to 205,704,000 shares. As certain material terms of the Placing Agreement has been revised, the Company shall convene a Special Meeting ("SM") for approval of these terms and conditions for the allotment and issuance of the Placing Shares under the Specific Mandate.

Note:

- 1) the Creditors are, namely, (i) Union Green Energy Hong Kong Industrial Co., Limited; (ii) Happiness Sino Limited; (iii) HongKong Base Power Technology Co., Limited and (iv) Yes Garden Holdings Ltd.

Saved as disclosed, neither the Company nor any of its subsidiaries has purchased, sold or redeemed any of the Company's listed securities during the six months ended June 30, 2026.

13. Share-based compensation

13.1 Employee stock option plan

Post-IPO Stock Option Plan

The maximum number of Class “A” common shares that may be reserved for issuance pursuant to the Post-IPO Stock Option Plan is 10% of the total number of issued and outstanding shares, less the maximum aggregate number of shares underlying the options already granted pursuant to the Pre-IPO Stock Option Plan. Options granted under the Post-IPO Stock Option Plan have an exercise price that is determined by the Board of Directors but is not less than the higher of: the closing price on the Stock Exchange of Hong Kong on the option offer date, which must be a business day; the volume weighted average trading price (VWAP) of the shares on the Stock Exchange of Hong Kong for the five trading days immediately preceding the option offer date; and the average closing price of the shares on the Stock Exchange of Hong Kong for the five trading days immediately preceding the option offer date.

13.2 Movements in stock options

The following reconciles the stock options outstanding at the beginning and end of each period:

14. Revenue

	Three months ended June 30,		Six months ended June 30,	
	2026	2025	2026	2025
Petroleum sales	\$	-	\$	-
Royalties		-		-
Revenue from contracts with customers	\$	-	\$	-

Note: Royalties include Oil sands royalty paid to the Government of Alberta and royalty paid to Burgess Energy Holdings.

All revenue from contracts with customers is derived from Canada and recognized at a point in time.

Revenues associated with the sale of crude oil are recognized at a point in time when control of goods have transferred, which is generally when title passes from the Group to the customer. Revenues are recorded net of crown royalties. Crown royalties are recognized at the time of production.

The royalty rate at West Ells is based on price sensitive royalty rates set by the Government of Alberta. The applicable royalty rates change dependent upon whether a project is pre-payout or post-payout, with payout being defined as the point in time when a project has generated enough net revenues to recover its cumulative costs. The royalty rate applicable to pre-payout oil sands operations starts at 1% of bitumen sales and increases for every dollar that the WTI crude oil price in Canadian dollars is priced above \$55 per barrel, to a maximum of 9% when the WTI crude oil price is \$120 per barrel or higher. The West Ells project is currently in pre-payout.

Revenue is allocated to each performance obligation on the basis of its standalone selling price and measured at the transaction price, which is the fair value of the consideration and represents amounts receivable for goods or services provided in the normal course of business. The price is allocated to each unit in the series as each unit is substantially the same and depicts the same pattern of transfer to the customer.

The Group's petroleum sales are determined pursuant to the terms of the marketing agreements and spot sales agreements. The transaction price for crude oil is based on the commodity price in the month published during the delivery month and adjusted for premiums, quality adjustments and equalization adjustments. Commodity prices are based on market indices that are determined on a daily or monthly basis. Petroleum sales are received one month after the crude oil is produced and shipped and typically collected on the 25th day of the month following production.

15. Segment information

The Group operates in one business unit based on their products, and has one reportable and operating segment: mining, production and sales of crude oil products. The directors of the Company monitor the revenue of its business unit as a whole based on the monthly sales and delivery reports for the purpose of making decisions about resource allocation and performance assessment.

Information about geographical area

As all of the Group's revenue is derived from the customers based in the Canada (country of domicile) and majority of the Group's non-current assets are located in Canada, no geographical information is presented.

Information about major customers

No gross revenue from customers contributing over 10% of the total gross revenue of the Group for the six months ended June 30 2025 and 2026.

Loss per share	(0.06)	\$ (0.04)

20. Capital and financial risks management

20.1 Capital risk management

The Group can be exposed to financial risks on its financial instruments and in the way that it finances its capital requirements. The Group manages these financial and capital structure risks by operating in a manner that minimizes its exposure to volatility.

The Group's strategy is to access sufficient capital, through equity issuances and the utilization of debt, in order to maintain a capital base for the objectives of maintaining financial flexibility and to sustain the future development of the business. The Group manages its capital structure in order to continue as a going concern and makes adjustments relative to changes in economic conditions and the Group's risk profile. In order to manage risk, the Group may from time to time issue shares and adjust its capital spending to manage current working capital levels.

The Group's capital structure currently includes shareholders' equity and working capital deficiency as follows:

CAD'000	June 30, 2026	December 31, 2025
Working capital deficiency	120,885	\$ 107,942
Shareholders' equity	(2,637)	28,105
	118,248	\$ 136,047

There is no change in the Group's objectives and strategies of capital management for the six months ended June 30, 2026.

20.2 Categories of financial instruments

The Group's financial assets and liabilities include trade and other receivables, loan receivables, cash and cash equivalents, trade payables, interest payables and accrued liabilities, loans from related companies, loans from shareholders, other loans and senior notes. The carrying value or fair value of the Group's financial instruments carried on Condensed Consolidated Interim Statements of Financial Position are classified in the following categories:

	30, June, 2026	December 31, 2025
	CAD'000	CAD'000
Financial assets		
Financial assets at amortised cost (including cash and cash equivalents)	14,861	14,497
Financial liabilities		
Financial liabilities at amortised cost	683,729	652,918

20.3 Fair value of financial instruments

The fair values of financial assets and financial liabilities are determined in accordance with generally accepted pricing models based on discounted cash flow analysis using prices or rates from observable current market transactions as input. The directors of the Company consider that the carrying amounts of the financial assets and financial liabilities recorded at amortised cost using the effective interest rate method in the consolidated financial statements approximate their fair values.

20.4 Currency risk

The Group is exposed to risks arising from fluctuations in foreign currency exchange rates. Thus, exchange rate fluctuations can affect the fair value of future cash flows. This exposure primarily relates to certain expenditure commitments, deposits, accounts payable and long term debt which are denominated in United States dollars ("USD"), Hong Kong dollars ("HKD") and Renminbi ("RMB"). The Group manages this risk by monitoring foreign exchange rates and evaluating their effects on using Canadian or U.S. vendors as well as timing of transactions. The Group had no forward exchange rate contracts in place as at or during the six months ended June 30, 2026.

If exchange rate to convert from USD to CAD had been one percent higher or lower with all other variables held constant, foreign cash held at June 30, 2026 would have been impacted by \$Nil (June 30, 2025: \$Nil) and the carrying value of the debt at June 30, 2026 would have been impacted by approximately CAD4.9 million (June 30, 2025: CAD2.7 million).

If exchange rate to convert from HKD to CAD had been one percent higher or lower with all other variables held constant, foreign cash held at June 30, 2026 would have been impacted by Nil (June 30, 2025: \$Nil) and the carrying value of the debt at June 30, 2026 would have been impacted by approximately CAD0.7 million (June 30, 2025: CAD0.7 million).

If exchange rate to convert from RMB to CAD had been one percent higher or lower with all other variables held constant, foreign cash held at June 30, 2026 would have been impacted by \$Nil (June 30, 2025: \$Nil) and the carrying value of the debt at June 30, 2026 would have been impacted by approximately CAD0.2 million (June 30, 2025: CAD0.1 million).

20.5 Liquidity risk

Liquidity risk is the risk that the Group will not be able to meet its financial obligations as they become due. The Group's approach to managing liquidity risk is to plan that it will have sufficient liquidity to meet its liabilities when due, using either equity or debt proceeds.

The timing of cash outflows relating to financial liabilities as at June 30, 2026, are as follows:

	Total	Less than 1 year	1-3 years
Trade and accrued liabilities	304,326	89,063	215,263
Debt ¹	356,789	12,108	344,681
	661,115	101,171	559,944

1. Principal amount of Notes and loans based on the month end exchange rate of \$1 US = 1.4210 CAD and \$1HKD = \$0.1812 CAD.

21. Related party transactions

In addition to the transactions and balances disclosed elsewhere in these Condensed Consolidated Interim financial statements, during the year, the Group entered into the following material related party transactions.

21.1 Trading transactions

For the six months ended June 30, 2026, a consulting Group, to which a director of Sunshine is related, charged the Group CAD 0.26 million (December 31, 2025 – CAD0.5 million) for management and advisory services. As at June 30, 2026, Mr. Kwok Ping Sun, the Company's Executive Chairman, has beneficial ownership of, or control or direction of 170,962,591 common shares of the Company, which represents approximately 24.03% of the Company's outstanding common shares.

21.2 Compensation of key management personnel and directors

The remuneration of the directors and key management executives is determined by the Compensation Committee and consists of the following amounts:

	Three months ended June 30		Six months ended June 30,	
	2026	2025	2026	2025
	CAD'000	CAD'000	CAD'000	CAD'000

	CAD'000	CAD'000
Current	-	-
Non-current	55,175	49,111
	55,175	49,111

As at June 30, 2026, the Group had loans from related companies which are unsecured, interest bearing at 10% per annum, and of which approximately CAD55,175,000 can be rollover for a period of 2 to 3 years (December 31, 2025: CAD49,111,000).

21.4 Loan from shareholders

As at June 30, 2026, the Group had loans from shareholders which are unsecured, interest bearing at 10% per annum, and of which approximately CAD3,121,000 are due from 1 to 3 years (December 31, 2025: CAD2,312,000).

22. Commitments and contingencies

22.1 Commitments

As at June 30, 2026, the Group's commitments are as follows:

At June 30, 2026	Total	2026	2027
Drilling, other equipment and contracts not provided in the consolidated financial statements	-	-	-
	\$ -	-	-

Note: The Group has an annual obligation for oil sands mineral lease rentals and surface lease rentals. Annual payment is approximately CAD1,500,000.

22.2 Litigation

The Group received a demand notice from the Regional Municipality of Wood Buffalo ("RMWB") in relation to the 2016-2026 municipal property taxes and have accrued up to June 30, 2026 which amounted to a total of CAD18.61 million. The Group was also charged with overdue penalties of CAD30.38 million. Since then the Group was in active negotiation with RMWB for a settlement plan with proposals to waive overdue penalties. As at the date of this report, the Group believes that notices issued by RMWB relating to property taxes did not comply with relevant legislation and the Group has sought judicial review to determine the effect of non-compliant tax notices on RMWB's property tax claim.

The Group is involved in various claims including claims described above and actions arising in the course of operations and is subject to various legal actions, pending claims and exposures. Litigation is subject to many uncertainties, and the outcome of individual matters is not predictable with assurance. Unfavorable outcome were to occur against such claims or pending claims, there exists the possibility of a material adverse impact on the Group's consolidated net income or loss in the period in which the outcome is determined. Accruals for litigation, claims and assessments are recognized if the Group determines that the loss is probable and the amount can be reasonably estimated. The Group believes it has made adequate provision for such claims. While fully supportable in the Group's view, some of these positions, if challenged may not be fully sustained on review. From time to time, the Group receives liens or claims on accounts payable balances, and the Group continues to work toward resolution of any liens or claims. At June 30, 2026, the Group had incurred \$0.82 million (US \$0.57 million equivalent using the period end exchange rate) in Builders' liens (not related to mineral leases) against them during the ordinary course of business.

The Group received a judgement from the Court of the State of New York, New York County (the "Judgement") that the Company shall pay the non-forbearing holder all the amounts due and owing on the Notes issued under the notes indenture dated 8 August 2014 (including principal and interests) in an aggregate amount of approximately US\$15,481,000 (equivalent to approximately CAD20,967,000). The judgement was vacated on May 25, 2023. On December 13, 2023, the Company received a judgement from the Court of the State of New York, New York County that the Group should pay the Non-forbearing Holder all the amounts due and owing on the Notes (including principal and interests) in an aggregate amount of approximately US\$19,694,000 (equivalent to approximately CAD26,048,000). On January 2, 2024 and February 20, 2024, the Company lodged an appeal against the Judgement to the New York court of appeal. On February 27, 2024, the Non-forbearing Holder tried to execute the judgement by serving notice in the State of New York.

23. Subsidiaries

On May 4, 2012, Sunshine Oilsands (Hong Kong) Limited was incorporated in Hong Kong and is a wholly-owned subsidiary of the Company. The address of its principal place of business is 20/F, Two Chinachem Central, No.26 Des Voeux Road Central, Hong Kong. As of June 30, 2026, the subsidiary had no business activity.

On July 14, 2015, Boxian Investments Limited was incorporated in the British Virgin Islands and is a wholly-owned subsidiary of the Company. The address of its principal place of business is P.O.
