## **VOLUNTARY ANNOUNCEMENT**

### **WASION AMERICAS' AMI METERS OFFICIALLY PASSED ANSI CERTIFICATION**

The board of directors (the “**Board**”) of Wasion Holdings Limited (the “**Company**”, together with its subsidiaries, the “**Group**”) is pleased to announce that the AMI meter products of its wholly-owned subsidiary, Wasion Americas Inc. (“**Wasion Americas**”), have officially passed certification by the American National Standards Institute (“**ANSI**”), marking a significant breakthrough in the Group’s expansion into the North American power market.

The ANSI C12 series standards are the access requirements applicable to power meters used by power utilities in the United States for trade settlement, and represent an important technical threshold for entering the U.S. power market. These standards impose stringent requirements on various aspects of power meters, including metering accuracy, environmental adaptability, electrical safety and reliability, and cover all stages of product design, manufacturing, testing and operation. The successful certification of Wasion Americas’ meter products fully demonstrates the Group’s technical capabilities and product quality in the field of smart metering, and indicates that the relevant products fully comply with the access requirements applicable to power meters used for trade settlement in the U.S. market.

The North American market is one of the major smart metering markets globally. It has high market-entry barriers, stringent technical standards and sophisticated customer requirements. The acquisition of this certification has laid a key qualification foundation for the Group to further expand into the North American power market. It is expected to enhance the competitiveness of the Group’s products and its brand influence in international markets, and create favourable conditions for further deepening cooperation with power customers in North America.

This announcement is made by order of the Board, the members of which individually and jointly accept responsibility for the accuracy of the information disclosed in this announcement.

By order of the Board of  
**Wasion Holdings Limited**  
**Choi Wai Lung Edward**  
*Company Secretary*

Hong Kong, 12 October 2026
