VOLUNTARY ANNOUNCEMENT — BUSINESS UPDATE FOR THE SECOND QUARTER OF FINANCIAL YEAR 2026/27

The board (the “**Board**”) of directors (the “**Directors**”) of Karrie International Holdings Limited (the “**Company**”) would like to provide the shareholders of the Company (the “**Shareholders**”) and potential investors with an update on the business development of the Company and its subsidiaries (collectively, the “**Group**”) for the three months ended 30 September 2026 (the “**Quarter**”) on a voluntary basis.

TOTAL CONSOLIDATED REVENUE

For the three months ended 30 September 2026, the Group’s unaudited consolidated revenue increased by approximately 45% as compared with the corresponding period of last year.

Segment Revenue of Server Enclosures — General & AI

The segment revenue of server enclosures — general & AI for the three months ended 30 September 2026 recorded an increase of approximately 48% as compared to the corresponding period of last year.

The proportion of AI-related products in the segment’s revenue further increased from approximately 20% for the last quarter to approximately 34% for the Quarter, the quarter-on-quarter increase of the revenue from relevant products was approximately 87%, which reflected the continued growth of AI-related business.

The growth of the segment was primarily driven by the continuous shipments of application-specific integrated circuit (“**ASIC**”)—related server enclosures and the gradual increase of the shipments of relevant racks products.

Meanwhile, the Group continued to deliver switch and next-generation platform-related products provided by another leading AI company.

Segment Revenue of Storage Products

The segment revenue of the storage products for the three months ended 30 September 2026 recorded an increase of approximately 51% as compared to the corresponding period of last year.

Segment Revenue of EV Accessories & Others

The segment revenue of the EV accessories & others for the three months ended 30 September 2026 recorded a decrease of approximately 9% as compared to the corresponding period of last year.

OUTLOOK

The Group will continue to leverage on its extensive industry experience and established reputation to strengthen its position as a core provider of server chassis and rack structural solutions for AI infrastructure.

With the continued growth in AI computing and data centre infrastructure demand as well as the gradual increase in the volume of next-generation AI platform products, the Group will continue to deepen our product layout from servers level to racks level, further expand AI-related business and capture opportunities arising from the continuous development of the AI infrastructure market.

The information contained in this announcement is based on a preliminary assessment of the unaudited management accounts of the Group and other information currently available to the Board. Such information has not been audited or reviewed by the Company's auditor and is subject to finalisation.

Shareholders and potential investors of the Company are advised to exercise caution when dealing in the securities of the Company.

By Order of the Board
