ANNOUNCEMENT ON KEY OPERATING DATA FOR THE FOURTH QUARTER OF 2026

This announcement is made by OmniVision Integrated Circuits Group, Inc. (the "**Company**") pursuant to Rules 13.09(2) and 13.10B of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited and the Inside Information Provisions under Part XIVA of the Securities and Futures Ordinance (Chapter 571 of the Laws of Hong Kong).

I. KEY OPERATING DATA FOR THE FOURTH QUARTER OF 2026

Based on the preliminary calculations by the finance department of the Company, it is estimated that the operating income of the Company for the fourth quarter of 2026 will be RMB7.759 billion to RMB8.324 billion, representing a year-on-year change in the range of 9.71% to 17.71%, and a quarter-on-quarter change in the range of -4.50% to 2.47%. The gross profit margin of the Company is expected to be approximately 29.44% to 30.74%.

II. OPERATING CONDITIONS IN THE FOURTH QUARTER OF 2026

Driven by the ongoing transformation and upgrading of the global automotive intelligence industry, the Company maintains rapid growth in its intelligent driving business. Innovative applications in emerging markets, including professional imaging, machine vision and robotics, and edge AI, continue to gain traction. New products, such as automotive analog ICs and high-speed optical communication analog electronic chips, have successfully achieved mass production. In the fourth quarter of 2026, the Company expects a continued recovery in its automotive business, alongside sustained growth in emerging markets as well as in its analog automotive, optoelectronic, and related segments. The Company anticipates orderly revenue growth and a steady improvement in gross profit margin.

The Company proactively addresses the challenges arising from industry volatility and seizes opportunities presented by the advancement of visual perception driven by artificial intelligence. Leveraging technological innovation and the commercialization of advanced technologies, the Company continues to expand into emerging downstream application scenarios and promote the deployment of applications in edge AI, machine vision and robotics,

and intelligent driving. The Company also continues to enrich its product portfolio in high-end application sectors, optimize the revenue mix of its semiconductor design business, and simultaneously further strengthen its supply chain management and cost control to strive for improved profitability and drive the high-quality development of its business.

III. OTHER MATTERS

The key operating data included in this announcement is only preliminary accounting data and may differ from the financial data disclosed in the relevant periodic report of the Company. Please refer to the periodic report to be officially disclosed by the Company for the detailed and accurate financial data.

Shareholders and potential investors of the Company are advised to exercise caution when dealing in the shares of the Company.

By order of the Board
