Operational Statistics for the Third Quarter of 2026

China Unicom (Hong Kong) Limited (the "Company") firmly adheres to the development keynote of "Preserve and Innovate, Steady and Far-reaching", focusing on the core arenas of "connectivity", "computing power", "service", and "security". It strives to create differentiated advantages in order to promote new achievements in the high-quality development of the Company.

The board of directors (the "Board") of the Company discloses the operational statistics of the Company and its subsidiaries (collectively the "Group") for the third quarter of 2026.

The operational statistics for the third quarter of 2026 are as follows:

	September 2026
I. Connectivity	
Aggregate number of connectivity subscribers	1,332.927 million
Of which: Aggregate number of 5G network subscribers	255.632 million
Aggregate number of Internet-of-things terminal connections	789.700 million
II. Computing Power	
Number of major institutional and industry customers served by Unicom Cloud	0.562 million
Number of paying users for Cloud-AI products	123.500 million
III. Service	
Smart customer service ratio in the current month	86.2%
Satisfaction rate of customer issue resolution in the current month	96.1%
IV. Security	
Number of major institutional and industry customers served by security business	0.481 million

Notes:

1. Aggregate number of connectivity subscribers = aggregate number of mobile billing subscribers + aggregate number of fixed-line broadband subscribers + aggregate number of fixed-line local access subscribers + aggregate number of Internet-of-things terminal connections + aggregate number of networking leased line subscribers.
2. Number of major institutional and industry customers served by Unicom Cloud = number of industry cloud customers + number of cloud integration customers + number of partner public cloud customers + number of cloud market customers.
3. Number of paying users for Cloud-AI products = number of paying users for Unicom Cloud Drive + number of paying users for Cloud-AI handsets + number of paying users for Unicom Home Monitoring + number of paying users for Unicom UHD.
4. Smart customer service ratio = number of cases resolved by smart customer service / total number of cases.
5. Satisfaction rate of customer issue resolution is calculated as the weighted value of the satisfaction rate of manual customer service for the general public as well as institutional and industry customers, and the comprehensive satisfaction rate of the resolution of customer cases.
6. Number of major institutional and industry customers served by security business = number of secure leased line subscribers + number of Unicom Shield subscribers + number of Security Hub customers + number of security project customers.

Caution Statement

The Board wishes to remind investors that the above operational statistics are based on the Group's internal records. Such statistics may differ from those to be reported in the Group's consolidated financial statements. **Investors are cautioned not to unduly rely on such statistics. In the meantime, investors are advised to exercise caution in dealing in the securities of the Company.**

By Order of the Board
CHINA UNICOM (HONG KONG) LIMITED
Dong Xin
Chairman & Chief Executive Officer
