POSITIVE PROFIT ALERT

This announcement is made by Karrie International Holdings Limited (the "**Company**", together with its subsidiaries, the "**Group**") in accordance with Rule 13.09(2)(a) of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the "**Listing Rules**") and the Inside Information Provisions (as defined in the Listing Rules) under Part XIVA of the Securities and Futures Ordinance (Chapter 571 of the Laws of Hong Kong).

The board of directors (the "**Board**") of the Company wishes to inform the shareholders and potential investors of the Company that, based on the preliminary assessment on the latest available financial information of the Group, the Group expects to record an increase by approximately 100% in the profit attributable to equity shareholders of the unaudited consolidated financial results for the six months ended 30 September 2026, as compared to that for the six months ended 30 September 2025.

Based on the information currently available to the Board, the expected increase in profit is primarily attributable to the continued ramp-up in production and shipments of AI-related server products, driving the Group's revenue growth and product mix optimization. As the scale of the relevant business expands, the product offerings of the Group have also gradually extended from server enclosures to include racks and products related to next-generation AI-platforms, contributing to the improvement in the Group's overall gross profit margin and profitability. In addition, with the expansion of production scale and improvement in operational efficiency at the production base in Thailand, economies of scale have gradually emerged, which also made a positive contribution to the Group's profit growth.

As at the date of this announcement, since the Company is still finalizing the unaudited consolidated financial results for the six months ended 30 September 2026, information contained in this announcement is only based on a preliminary assessment made with reference to the information currently available which have not been audited or reviewed by the Company's auditors and/or by the audit committee of the Company. It is expected that the interim financial results of the Group for the six months ended 30 September 2026 will be published by the end of November 2026.

Shareholders of the Company and potential investors are advised to exercise caution when dealing in the shares of the Company.
