OUTCOME OF ASSESSMENT OF STRATEGIC OPTIONS FOR SMT SOLUTIONS SEGMENT

Reference is made to the announcement of ASMPT Limited (the "**Company**", together with its subsidiaries, the "**Group**") dated 21 January 2026 (the "**Announcement**") in relation to the Company's assessment of strategic options for its SMT Solutions Segment, which included divestiture, joint venture, spin-off and public listing or retaining the Segment and supporting its strategic development to ensure its long-term success. Unless otherwise defined herein or the context otherwise requires, capitalised terms used herein shall have the same meanings as ascribed to them in the Announcement.

Following a comprehensive review and evaluation of the strategic options available in respect of the SMT Solutions Segment, the Board has concluded that it is in the best interests of the Company and its shareholders as a whole to retain the SMT Solutions Segment as part of the Group. Accordingly, the assessment of strategic options has been concluded.

In reaching its decision, the Board considered, among other factors, the favourable long-term industry trends relevant to the SMT Solutions Segment, particularly the expansion of AI infrastructure investment and the increasingly demanding electronics manufacturing requirements associated with that investment. The Board also considered the SMT Solutions Segment's leading market position, technological capabilities, extensive customer relationships, innovative product portfolio, and future growth prospects, as evidenced by the strengthened performance and outlook of the SMT business since the strategic options assessment was announced. The Board believes that the SMT Solutions Segment is well-positioned to benefit from these industry trends and that retaining it will enable the Group to pursue growth opportunities and create sustainable value for shareholders.

The Company will continue to support the development and growth of the SMT Solutions Segment in accordance with its business and strategic objectives and to execute its growth strategy.
