VOLUNTARY ANNOUNCEMENT

Chinasoft Wins RMB100-Million-Level Project from a Leading Southeast Asian Empowering Financial Modernisation with Full-Stack AI Capabilities

Chinasoft International Limited (hereinafter referred to as "**Chinasoft**" or the "**Company**") releases this announcement as a voluntary announcement to let the public know the latest information of the Company.

The Company is pleased to announce that, recently, the Company, has successfully won an RMB100-million-level enterprise data modernisation total integration project from a leading bank in Southeast Asia, empowering the customer to consolidate its data foundation with a full-stack AI integrated digital and intelligent solution.

The Project will carry out migration and transformation based on Huawei DWS and systematically promote the implementation of six core objectives: building a single trusted data source for the enterprise and unifying data standards across the industry; strengthening the full-link data governance system and comprehensively enhancing data quality, data lineage and data security control capabilities; effectively reducing the total cost of ownership of IT through architectural iteration; and building a future-oriented modern data platform that strongly supports AI evolution, while simultaneously enhancing the capabilities of the core customer information framework GCIF. Upon completion of the Project, the customer will possess a unified and trusted data foundation, which will not only enable efficient responses to evolving compliance and regulatory requirements, but also provide a robust capability foundation and expansion space for subsequent AI applications such as intelligent risk control, intelligent marketing and data analytics.

The Project relies on the Company's mature full-stack AI solution capabilities in the financial sector and adopts a software-hardware integrated total integration model, deeply integrating Chinasoft's decades of experience in data migration and governance in the financial industry with Huawei Cloud's technological advantages, to support the customer in massive asset inventory, multi-business system cutover and data migration, and to effectively meet delivery requirements in complex scenarios.

The Project is not only a milestone breakthrough for Chinasoft in the overseas financial sector, but also a benchmark practice for the implementation of the "Finance + AI" strategy in the Southeast Asian market. In the future, the Company will continue to leverage its delivery advantages in the financial industry, work with ecosystem partners to deepen its presence in overseas markets, and continuously expand new boundaries for its overseas financial business.

On behalf of the Board
Chinasoft International Limited
Dr. Chen Yuhong
Chairman and Chief Executive Officer
