ANNOUNCEMENT OF RESULTS
FOR THE THREE QUARTER ENDED SEPTEMBER 30, 2026

SUMMARY OF FINANCIAL FIGURES

The Petroleum sales, net of royalties for the nine months ended September 30, 2026 remained the same at CAD 0 million comparing to the nine months ended September 30, 2025. This was mainly due to the loss of revenue as a result of equipment maintenance at West Ells.

The net operating loss for the three months ended September 30, 2026 excluding one-off foreign exchange gain (loss), was a net operating loss of CAD17.1 million compared to a net operating loss of CAD7.1 million for the same period in 2025.

The operating cash flow for the three months ended September 30, 2026 was a net loss of CAD0.3 million compared to a net loss of CAD1.3 million for the same period in 2025. The operating cash flow deficiency for the three months ended September 30, 2026 was primarily due to the loss of revenue as a result of equipment maintenance at West Ells.

For Q3 2026, net loss and comprehensive loss attributable to owners of the Company was approximately CAD 21.0 million compared to a net loss and comprehensive loss attributable to owners of the Company of approximately CAD 0.7 million in Q3 2025.

As at September 30, 2026, December 31, 2025 and September 30, 2025, the Company notes the following selected financial figures.

Notes to Condensed Consolidated Interim Financial Statements
For the three and nine months ended September 30, 2026 and 2025
(Expressed in thousands of Canadian dollars, unless otherwise indicated)

1. General information

Sunshine Oilsands Ltd. (the "Company") was incorporated under the laws of the Province of Alberta on February 22, 2007. The address of its principal place of business is 270, 333 24th Avenue SW, Calgary, AB, T2S 3E6, Canada. The Company's shares were listed on the Stock Exchange of Hong Kong Limited ("SEHK") on March 1, 2012 pursuant to an initial public offering ("IPO") and trades under the stock code symbol of "2012". On November 16, 2012, the Company completed a listing of its common shares on the Toronto Stock Exchange ("TSX") and traded under the symbol of "SUO". On September 30, 2015, the Company completed a voluntary delisting from the TSX. The Company continues to be a reporting issuer in Canada. The Company and its subsidiaries are collectively referred to as the "Group".

The Group is engaged in the evaluation and the development of oil properties for the future production of bitumen in the Athabasca oilsands region in Alberta, Canada. Details of the subsidiaries are set out in note 23.

On April 15, 2019, Sang Xiang Petroleum & Chemical (Hebei) Limited ("Sunshine Hebei") was incorporated in China and is a joint venture company in which the Company owns 51% interests. The address of the principal place of business for Sunshine Hebei is Techno Building, Level 4, Room 0430, Chengde Hi-Tech Industry Development Zone, Hebei Province.

2. Basis of preparation

Going Concern

The Condensed Consolidated Interim Financial Statements have been prepared on a basis which asserts that the Group will continue to have the ability to realize its assets and discharge its liabilities and commitments in a planned manner with consideration to expected possible outcomes. Conversely, if the assumption made by management is not appropriate and the Group is unable to meet its obligations as they fall due the preparation of these Financial Statements on a going concern basis may not be appropriate and adjustments to the carrying amounts of the Group's assets, liabilities, revenues, expenses, and balance sheet classifications may be necessary and such adjustments could be material. Specifically, in the absence of additional financing and the restructuring of current debt (Note 9) the Group would be unlikely to be able to continue the development of the West Ells project and the Group would be required to consider divestiture of the West Ells project and other assets. Such curtailment of activity would likely materially and negatively impact the Group's assessment of the carrying values of assets and liabilities associated with the West Ells project.

The Group incurred a net loss and comprehensive loss attributable to owners of the Company of CAD61 million for the nine months ended September 30, 2026, and as at September 30, 2026, the Group had net current liabilities of CAD123 million. The Group will need to refinance or restructure its current debt and obtain additional financing in order to meet its near-term operating cash requirements, debt payments and sustaining capital expenditures. The validity of which depends upon that the Group will be able to successfully refinance or restructure its current debt and obtain additional financing to meet its liabilities as they fall due in the foreseeable future.

Management has applied significant judgment in preparing forecasts supporting the going concern assumption. Specifically, management has made assumptions regarding projected oil sales volumes and pricing, scheduling of payments arising from various obligations as at September 30, 2026, the availability of additional financing, and the timing and extent of capital and operating expenditures.

The Company's ability to continue as a going concern is dependent on its ability to realize forecasted revenues, achieve profitable operations, restructure projected cash outflows arising from existing arrangements, control the timing and extent of projected expenditures, and refinance current debt, access immediate additional financing and maintain compliance with all terms in debt and forbearance agreements. The timing and extent of forecast capital and operating expenditures is based on the Company's 2026 budget and on management's estimate of expenditures expected to be incurred beyond 2026. The Company has a significant degree of control and flexibility over both the extent and timing of expenditures under its future capital investment program. There is a material risk that the Company will be unable to meet its financing obligations including payments of outstanding interest and principal balances on its Senior Notes (Note 9.2). Management continually monitors the Company's financing requirements and is pursuing negotiations to refinance current debt and access immediate additional financing to fund its ongoing operations. Management is engaged in discussions with existing shareholders and creditors on proposed transactions and agreements which would reduce anticipated cash outflows and provide the additional financing required to fund capital and operating expenditures, and to meet obligations as they fall due in the 12 months following September 30, 2026.

2.1 Statement of compliance

The Condensed Consolidated Interim Financial Statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") and the applicable disclosures required by the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the "Listing Rules") and by the Hong Kong Companies Ordinance. The Condensed Consolidated Interim financial statements have been prepared on the historical cost basis. Any financial instruments are measured at fair value. The Condensed Consolidated Interim financial statements are presented in Canadian Dollars ("$").

The Condensed Consolidated Interim Financial Statements reflect management's best estimates after giving consideration to likely outcomes. The Group has consistently applied the accounting policies to all periods presented in these financial statements. Certain information and disclosures normally included in the audited annual consolidated financial statements, prepared in accordance with International Financial Reporting Standards ("IFRS"), have been condensed or omitted, except for the adoption of IFRS 15 Revenue from Contracts with Customers, IFRS 9 Financial Instruments and IFRIC 22 Foreign Currency Transactions and Advance Consideration. Accordingly, these Condensed Consolidated Interim Financial Statements should be read in conjunction with the audited annual Consolidated Financial Statements for the year ended December 31, 2025.

3. APPLICATION OF NEW AND AMENDMENTS TO INTERNATIONAL FINANCIAL REPORTING STANDARDS ("IFRSs")

The Group has applied, for the first time, the following amendments to IFRSs issued by the International Accounting Standards Board (the "IASB") which are effective for the Group's financial year beginning on January 1, 2026.

Amendments to IFRS 9 and IFRS 7	Amendments to the Classification and Measurement of Financial Instruments
Amendments to IFRS 9 and IFRS 7	Contracts Referencing Nature-dependent Electricity
Annual Improvements to IFRS Accounting Standards – Volume 11	Amendments to IFRS 1, IFRS 7, IFRS 9, IFRS 10 and IAS 7

The application of the new and amendments to IFRSs in the current year has had no material impact on the Group's financial performance and position for the current and prior years and/or on the disclosures set out in these consolidated financial statements.

New and amendments to IFRSs issued but not yet effective

The Group has not early applied the following new and amendments to IFRSs and interpretation that have been issued but are not yet effective:

IFRS 18	Presentation and Disclosure in Financial Statements[2]
IFRS 19 and Amendments to IFRS 19	Subsidiaries without Public Accountability: Disclosures[2]
Amendments to IAS 21	Translation to a Hyperinflationary Presentation Currency[2]
Amendments to IAS 28	Amendments to the Fair Value Option for Investments in Associates and Joint Ventures[1]
Amendments to IFRS 10 and IAS 28	Sale or Contribution of Assets between an Investor and its Associate or Joint Venture[3]

[1] Effective when an entity first applies IFRS 18, i.e. for annual reporting periods beginning on or after 1 January 2027

[2] Effective for annual/reporting periods beginning on or after 1 January 2027

[3] Effective for annual/reporting periods beginning on or after a date to be determined

The directors of the Company anticipate that, the application of the new and amendments to IFRSs will have no material impact on the results and the financial position of the Group.

4. Trade and other receivables

	September 30, 2026	December 31, 2025
Trade receivables	$ 2,394	$ 2,092
Other receivables-current	47	1,491
Other receivables-non-current	-	-
Other loan receivables-non-current	13,859	11,337
	$ 16,300	$ 14,920

The Group allows an average credit period of 30 days to its trade customers. The Group transacts with a number of oil and natural gas marketing companies, and the marketing companies typically remit amounts to the Group by the 25th day of the month following production.

The Group measures the loss allowance for trade receivables at an amount equal to lifetime ECL. The expected credit losses on trade receivables are estimated using a provision matrix by reference to past default experience of the debtor and an analysis of the debtor's current financial position, adjusted for factors that are specific to the debtors, general economic conditions of the industry in which the debtors operate and an assessment of both the current as well as the forecast direction of conditions at the reporting date.

There has been no change in the estimation techniques or significant assumptions made during the current reporting period.

The Group recognised lifetime ECL for trade receivables based on individually significant customer or the ageing of customers collectively that are not individually significant.

As at September 30, 2026, the directors of the Company considered the ECL on trade receivables was insignificant.

5. Exploration and evaluation

	CAD'000
Balance, December 31, 2024	$ 239,259
Capital expenditures	134
Non-cash expenditures[1]	(59)
Balance, December 31, 2025	$ 239,334
Capital expenditures	-
Non-cash expenditures[1]	(392)
Balance, September 30, 2026	$ 238,942

1. Non-cash expenditures include capitalized share-based compensation and changes in decommissioning obligations.

At the end of the reporting period, the Group assessed impairment for its E&E CGU. For the purpose of impairment (reversal) testing, recoverable amounts for each CGU were estimated based on FVLCD methodology which is calculated using the present value of the CGUs' expected future cash flows (after-tax). The cash flow information was derived from a report on the Group's oil and gas reserves which was prepared by an independent qualified reserve evaluator, GLJ Petroleum Consultants ("GLJ") and its latest oil price forecasts. The projected cash flows used in the FVLCD calculation reflect market assessments of key assumptions, including management forecast of long-term commodity prices, inflation rates, and foreign exchange rates (Level 3 fair value inputs. Cash flow forecasts are also based on GLJ's evaluation of the Group's reserves and resources to determine production profiles and volumes, operating costs, maintenance and future development capital expenditures.

The reversal is recognized in profit or loss only to the extent that it reverses an impairment loss that was previously recognized in profit or loss. Any additional increase is accounted for as a revaluation and is recognized in other comprehensive income.

A reversal of an impairment loss shall be recognized immediately in profit or loss. In allocating a reversal of an impairment loss for a cash-generating unit, the carrying amount of an asset shall not be increased above the lower of:
(a) its recoverable amount; and
(b) the carrying amount that would have been determined (net of amortization or depreciation) had no impairment loss been recognized for the asset in prior periods.
For the nine months ended September 30, 2026, the Group did not recognize any impairment loss (reversal) for E&E CGU.

At the end of the reporting period, the Group assessed impairment for its West Ells CGU. For the purpose of impairment (reversal) testing, recoverable amounts for each CGU were estimated based on FVLCD methodology which is calculated using the present value of the CGUs' expected future cash flows (after-tax). The cash flow information was derived from a report on the Group's oil and gas reserves which was prepared by an independent qualified reserve evaluator, GLJ Petroleum Consultants ("GLJ") and its latest oil price forecasts. The projected cash flows used in the FVLCD calculation reflect market assessments of key assumptions, including management forecast of long-term commodity prices, inflation rates, and foreign exchange rates (Level 3 fair value inputs). Cash flow forecasts are also based on GLJ's evaluation of the Group's reserves and resources to determine production profiles and volumes, operating costs, maintenance and future development capital expenditures.

The reversal is recognized in profit or loss only to the extent that it reverses an impairment loss that was previously recognized in profit or loss. Any additional increase is accounted for as a revaluation and is recognized in other comprehensive income.

A reversal of an impairment loss shall be recognized immediately in profit or loss. In allocating a reversal of an impairment loss for a cash-generating unit, the carrying amount of an asset shall not be increased above the lower of:
(a) its recoverable amount; and
(b) the carrying amount that would have been determined (net of amortization or depreciation) had no impairment loss been recognized for the asset in prior periods.

Future depletion expenses are adjusted to allocate the CGU's revised carrying amount over its remaining useful life. For the nine months ended September 30, 2026, the Group did not recognize any impairment loss (reversal) for West Ells CGU.

As at September 30, 2026, the balances are unsecured and bearing interest of 0%-36% (December 31, 2025: 0 - 36%) per annum. Approximately CAD nil (December 31, 2025: CAD2,319,000) have a maturity date within one year.

Included in the above balance is approximately CAD14,875,000 (December 31, 2025: CAD14,899,000) for which the Group and an independent Hong Kong-based investment holding company entered into loan agreements and under which the Group provided Renminbi ("CNY") loan and received Hong Kong dollar ("HKD") loan from the investment holding company. The Group has to repay HKD to receive CNY from the investment holding company.

9.2 Senior notes

On February 16, 2023, the Group and the Forbearing Holder entered into an interest waiver agreement (the "2023 Interest Waiver Agreement") pursuant to which the Forbearing Holder agreed to unconditionally and irrevocably waive the interest accrued between January 1, 2023 and December 31, 2025 (the "Waiver of Interest"). Based on the Forbearance Reinstatement and Amending Agreement ("2021 FRAA") dated August 8, 2021, the waived interest calculated at 10.0% per annum on the outstanding amounts (principal and interests) amounted to approximately US$31.5 million. Save as the waiver of interest, all other terms and conditions in relation to the Senior Note and its subsequent forbearance remain unchanged.

On August 8, 2023 (Calgary time), the Company and the Forbearing Holder confirmed the signing of the Forbearance Reinstatement and Amending Agreement ("**2023 FRAA**"). The principal terms of the 2023 FRAA include:

- The 2023 FRAA covers the period from September 1, 2023 to August 31, 2025 ("Period of Forbearance");
- Same as the Forbearance Reinstatement and Amending Agreement executed on August 8, 2021, all outstanding amounts (principal and interests) will continue to be accrued at an interest of 10% per annum until August 31, 2025, unless otherwise waived in separate interest waiver agreements. During the Period of Forbearance, there will not be any forbearance fee and yield maintenance premium based on the initial Forbearance Agreement executed on September 12, 2016.

The directors of the Company believe the entering into of the 2023 FRAA is in the interests of the Company and its shareholders as a whole in view that the 2023 FRAA will provide the Company with additional time to repay or refinance the indebtedness owned by the Company to the noteholders under the Notes, whilst at the same time the financing cost has been substantially lowered to a reasonable market level.

On April 11, 2024, the Company and the Forbearing Holder entered into an interest waiver agreement (the "2024 Interest Waiver Agreement") pursuant to which the Forbearing Holder agrees to unconditionally and irrevocably waive the interest accrued between January 1, 2025 and December 31, 2025 (the "Waiver of Interest"). Based on the Forbearance Reinstatement and Amending Agreement ("2023 FRAA") dated August 8, 2023, the waived interest calculated at 10.0% per annum on the outstanding amounts (principal and interests) amounted to approximately US$31.5 million. Save as the waiver of interest, all other terms and conditions in relation to the Senior Note and its subsequent forbearance remain unchanged.

On January 7, 2025, the Company and the Forbearing Holder confirmed the signing of the Forbearance Reinstatement and Amending Agreement (the "FRAA2025"). The principal terms of the FRAA2025 include:

- The FRAA2025 covers the period from September 1, 2025 to August 31, 2027 ("Period of Forbearance");
- Same as the 2021 FRAA executed on January 8, 2021, all outstanding amounts (principal and interests) will continue to be accrued at an interest rate of 10% per annum until August 31, 2027, unless otherwise waived in separate interest waiver agreements. During the Period of Forbearance, there will not be any forbearance fee and yield maintenance premium based on the initial Forbearance Agreement executed on September 12, 2016.

The Board believes the entering into of the FRAA2025 is in the interests of the Company and its shareholders as a whole in view that the FRAA2025 will provide the Company with additional time to repay or refinance the indebtedness owed by the Company to the Noteholders under the Notes, whilst at the same time the financing cost will be substantially lowered.

On January 7, 2025, the Company and the Forbearing Holder entered into an interest waiver agreement (the "2025 Interest Waiver Agreement") pursuant to which the Forbearing Holder agrees to unconditionally and irrevocably waive the interest accrued between January 1, 2025 and December 31, 2025 (the "Waiver of Interest"). Based on the Forbearance Reinstatement and Amending Agreement ("FRAA2025") dated January 7, 2025, the waived interest calculated at 10.0% per annum on the outstanding amounts (principal and interests) amounted to US$31.5 million.

The Company has presented the portion held by Non-Forbearing holder as current liabilities and the portion held by Forbearing holder as non-current liabilities on the unaudited condensed consolidated interim financial statements as at September 30, 2026.

13. Share-based compensation

13.1 Employee stock option plan

Post-IPO Stock Option Plan

The maximum number of Class "A" common shares that may be reserved for issuance pursuant to the Post-IPO Stock Option Plan is 10% of the total number of issued and outstanding shares, less the maximum aggregate number of shares underlying the options already granted pursuant to the Pre-IPO Stock Option Plan. Options granted under the Post-IPO Stock Option Plan have an exercise price that is determined by the Board of Directors but is not less than the higher of: the closing price on the Stock Exchange of Hong Kong on the option offer date, which must be a business day; the volume weighted average trading price (VWAP) of the shares on the Stock Exchange of Hong Kong for the five trading days immediately preceding the option offer date; and the average closing price of the shares on the Stock Exchange of Hong Kong for the five trading days immediately preceding the option offer date.

13.2 Movements in stock options

14. Revenue

	Three months ended September 30,		Nine months ended September 30,	
	2026	2025	2026	2025
Petroleum sales	-	$ -	-	$ -
Royalties	-	-	-	-
Revenue from contracts with customers	-	$ -	-	$ -

Note: Royalties include Oil sands royalty paid to the Government of Alberta and royalty paid to Burgess Energy Holdings.

All revenue from contracts with customers is derived from Canada and recognized at a point in time.

Revenues associated with the sale of crude oil are recognized at a point in time when control of goods have transferred, which is generally when title passes from the Group to the customer. Revenues are recorded net of crown royalties. Crown royalties are recognized at the time of production.

The royalty rate at West Ells is based on price sensitive royalty rates set by the Government of Alberta. The applicable royalty rates change dependent upon whether a project is pre-payout or post-payout, with payout being defined as the point in time when a project has generated enough net revenues to recover its cumulative costs. The royalty rate applicable to pre-payout oil sands operations starts at 1% of bitumen sales and increases for every dollar that the WTI crude oil price in Canadian dollars is priced above $55 per barrel, to a maximum of 9% when the WTI crude oil price is $120 per barrel or higher. The West Ells project is currently in pre-payout.

Revenue is allocated to each performance obligation on the basis of its standalone selling price and measured at the transaction price, which is the fair value of the consideration and represents amounts receivable for goods or services provided in the normal course of business. The price is allocated to each unit in the series as each unit is substantially the same and depicts the same pattern of transfer to the customer.

The Group's petroleum sales are determined pursuant to the terms of the marketing agreements and spot sales agreements. The transaction price for crude oil is based on the commodity price in the month published during the delivery month and adjusted for premiums, quality adjustments and equalization adjustments. Commodity prices are based on market indices that are determined on a daily or monthly basis. Petroleum sales are received one month after the crude oil is produced and shipped and typically collected on the 25th day of the month following production.

15. Segment information

The Group operates in one business unit based on their products, and has one reportable and operating segment: mining, production and sales of crude oil products. The directors of the Company monitor the revenue of its business unit as a whole based on the monthly sales and delivery reports for the purpose of making decisions about resource allocation and performance assessment.

Information about geographical area

As all of the Group's revenue is derived from the customers based in the Canada (country of domicile) and majority of the Group's non-current assets are located in Canada, no geographical information is presented.

Information about major customers

No gross revenue from customers contributing over 10% of the total gross revenue of the Group for the nine months ended September 30 2025 and 2026.

20. Capital and financial risks management

20.1 Capital risk management

The Group can be exposed to financial risks on its financial instruments and in the way that it finances its capital requirements. The Group manages these financial and capital structure risks by operating in a manner that minimizes its exposure to volatility.

The Group's strategy is to access sufficient capital, through equity issuances and the utilization of debt, in order to maintain a capital base for the objectives of maintaining financial flexibility and to sustain the future development of the business. The Group manages its capital structure in order to continue as a going concern and makes adjustments relative to changes in economic conditions and the Group's risk profile. In order to manage risk, the Group may from time to time issue shares and adjust its capital spending to manage current working capital levels.

The Group's capital structure currently includes shareholders' equity and working capital deficiency as follows:

CAD'000	September 30, 2026		December 31, 2025
Working capital deficiency	123,342	$	107,942
Shareholders' equity	(23,899)		28,105
	99,443	$	136,047

There is no change in the Group's objectives and strategies of capital management for the nine months ended September 30, 2026.

20.2 Categories of financial instruments

The Group's financial assets and liabilities include trade and other receivables, loan receivables, cash and cash equivalents, trade payables, interest payables and accrued liabilities, loans from related companies, loans from shareholders, other loans and senior notes. The carrying value or fair value of the Group's financial instruments carried on Condensed Consolidated Interim Statements of Financial Position are classified in the following categories:

	30, September, 2026	December 31, 2025
	CAD'000	CAD'000
Financial assets		
Financial assets at amortised cost (including cash and cash equivalents)	14,711	14,497
Financial liabilities		
Financial liabilities at amortised cost	704,418	652,918

20.3 Fair value of financial instruments

The fair values of financial assets and financial liabilities are determined in accordance with generally accepted pricing models based on discounted cash flow analysis using prices or rates from observable current market transactions as input. The directors of the Company consider that the carrying amounts of the financial assets and financial liabilities recorded at amortised cost using the effective interest rate method in the consolidated financial statements approximate their fair values.

20.4 Currency risk

The Group is exposed to risks arising from fluctuations in foreign currency exchange rates. Thus, exchange rate fluctuations can affect the fair value of future cash flows. This exposure primarily relates to certain expenditure commitments, deposits, accounts payable and long term debt which are denominated in United States dollars ("USD"), Hong Kong dollars ("HKD") and Renminbi ("RMB"). The Group manages this risk by monitoring foreign exchange rates and evaluating their effects on using Canadian or U.S. vendors as well as timing of transactions. The Group had no forward exchange rate contracts in place as at or during the nine months ended September 30, 2026.

If exchange rate to convert from USD to CAD had been one percent higher or lower with all other variables held constant, foreign cash held at September 30, 2026 would have been impacted by $Nil (September 30, 2025: $Nil) and the carrying value of the debt at September 30, 2026 would have been impacted by approximately CAD5.0 million (September 30, 2025: CAD3.4 million).

If exchange rate to convert from HKD to CAD had been one percent higher or lower with all other variables held constant, foreign cash held at September 30, 2026 would have been impacted by Nil (September 30, 2025: $Nil) and the carrying value of the debt at September 30, 2026 would have been impacted by approximately CAD0.7 million (September 30, 2025: CAD0.7 million).

If exchange rate to convert from RMB to CAD had been one percent higher or lower with all other variables held constant, foreign cash held at September 30, 2026 would have been impacted by $Nil (September 30, 2025: $Nil) and the carrying value of the debt at September 30, 2026 would have been impacted by approximately CAD0.2 million (September 30, 2025: CAD0.1 million).

20.5 Liquidity risk

Liquidity risk is the risk that the Group will not be able to meet its financial obligations as they become due. The Group's approach to managing liquidity risk is to plan that it will have sufficient liquidity to meet its liabilities when due, using either equity or debt proceeds.

The timing of cash outflows relating to financial liabilities as at September 30, 2026, are as follows:

	Total	Less than 1 year	1-3 years
Trade and accrued liabilities	320,970	91,173	229,797
Debt[1]	360,839	12,212	348,627
	681,809	103,385	578,424

1. Principal amount of Notes and loans based on the month end exchange rate of $1 US = 1.4188 CAD and $1HKD = $0.1808 CAD.

21. Related party transactions

In addition to the transactions and balances disclosed elsewhere in these Condensed Consolidated Interim financial statements, during the year, the Group entered into the following material related party transactions.

21.1 Trading transactions

For the nine months ended September 30, 2026, a consulting Group, to which a director of Sunshine is related, charged the Group CAD0.38 million (December 31, 2025 – CAD0.5 million) for management and advisory services. As at September 30, 2026, Mr. Kwok Ping Sun, the Company's Executive Chairman, has beneficial ownership of, or control or direction of 170,962,591 common shares of the Company, which represents approximately 24.03% of the Company's outstanding common shares.

21.2 Compensation of key management personnel and directors

The remuneration of the directors and key management executives is determined by the Compensation Committee and consists of the following amounts:

	Three months ended September 30		Nine months ended September 30,	
	2026 CAD'000	2025 CAD'000	2026 CAD'000	2025 CAD'000
Directors' fees	89	$ 103	296	$ 265
Salaries and allowances	116	495	946	1,485
Contribution to retirement benefit scheme	-	-	-	-
	205	$ 598	1,242	$ 1,750

21.3 Related companies' loans

	September 30, 2026 CAD'000	December 31, 2025 CAD'000
Current	-	-
Non-current	55,375	49,111
	55,375	49,111

As at September 30, 2026, the Group had loans from related companies which are unsecured, interest bearing at 10% per annum, and of which approximately CAD55,375,000 can be rollover for a period of 2 to 3 years (December 31, 2025: CAD49,111,000).

21.4 Loan from shareholders

As at September 30, 2026, the Group had loans from shareholders which are unsecured, interest bearing at 10% per annum, and of which approximately CAD3,214,000 are due from 1 to 3 years (December 31, 2025: CAD2,312,000).

22. Commitments and contingencies

22.1 Commitments

As at September 30, 2026, the Group's commitments are as follows:

At September 30, 2026	Total	2026	2027
Drilling, other equipment and contracts not provided in the consolidated financial statements	-	-	-
	$ -	-	-

Note: The Group has an annual obligation for oil sands mineral lease rentals and surface lease rentals. Annual payment is approximately CAD1,500,000.

22.2 Litigation

The Group received a demand notice from the Regional Municipality of Wood Buffalo ("RMWB") in relation to the 2016-2026 municipal property taxes and have accrued up to September 30, 2026 which amounted to a total of CAD18.61 million. The Group was also charged with overdue penalties of CAD30.38 million. Since then the Group was in active negotiation with RMWB for a settlement plan with proposals to waive overdue penalties. As at the date of this report, the Group believes that notices issued by RMWB relating to property taxes did not comply with relevant legislation and the Group has sought judicial review to determine the effect of non-compliant tax notices on RMWB's property tax claim.

The Group is involved in various claims including claims described above and actions arising in the course of operations and is subject to various legal actions, pending claims and exposures. Litigation is subject to many uncertainties, and the outcome of individual matters is not predictable with assurance. Unfavorable outcome were to occur against such claims or pending claims, there exists the possibility of a material adverse impact on the Group's consolidated net income or loss in the period in which the outcome is determined. Accruals for litigation, claims and assessments are recognized if the Group determines that the loss is probable and the amount can be reasonably estimated. The Group believes it has made adequate provision for such claims. While fully supportable in the Group's view, some of these positions, if challenged may not be fully sustained on review. From time to time, the Group receives liens or claims on accounts payable balances, and the Group continues to work toward resolution of any liens or claims. At September 30, 2026, the Group had incurred $0.82 million (US $0.57 million equivalent using the period end exchange rate) in Builders' liens (not related to mineral leases) against them during the ordinary course of business.

The Group received a judgement from the Court of the State of New York, New York County (the "Judgement") that the Company shall pay the non-forbearing holder all the amounts due and owing on the Notes issued under the notes indenture dated 8 August 2014 (including principal and interests) in an aggregate amount of approximately US$15,481,000 (equivalent to approximately CAD20,967,000). The judgement was vacated on May 25, 2023. On December 13, 2023, the Company received a judgement from the Court of the State of New York, New York County that the Group should pay the Non-forbearing Holder all the amounts due and owing on the Notes (including principal and interests) in an aggregate amount of approximately US$19,694,000 (equivalent to approximately CAD26,048,000). On January 2, 2024 and February 20, 2024, the Company lodged an appeal against the Judgement to the New York court of appeal. On February 27, 2024, the Non-forbearing Holder tried to execute the judgement by serving notice in the State of New York.
