To the Shareholders

Dear Sir or Madam,

MAJOR TRANSACTION
ENTERING INTO FINANCE LEASES AS THE LESSOR

INTRODUCTION

Reference is made to the announcement of the Company dated 26 October 2026 in relation to the entering into the Finance Leases with the Lessee, to obtain the ownership of the Assets from the Lessee at an aggregate consideration of RMB100,000,000 (equivalent to approximately HK$117,500,000), which would be leased back to the Lessee for its use and possession for a term of 8 years.

The purpose of this circular is to provide you with, among other things, further information on the Finance Leases and Incidental Documentation and other information as required under the Listing Rules.

THE FINANCE LEASES AND INCIDENTAL DOCUMENTATION

The Board is pleased to announce that Greengold Leasing entered into the Finance Leases and Incidental Documentation, the principal terms of which are as follows:–

Date of the Finance Leases

26 October 2026

The Finance Leases will take effect upon compliance of the applicable requirements of the Listing Rules by the Company.

Parties

(1) Greengold Leasing, a subsidiary of the Company, as the lessor;

(2) the Lessee; and

(3) the Guarantors (in relation to the relevant guarantees).

To the best of the Directors' knowledge, information and belief having made all reasonable enquiry, the Lessee, the Guarantors and their ultimate beneficial owners are Independent Third Parties.

Transfer of Assets and Consideration

Greengold Leasing will be transferred the unencumbered ownership of Assets 1 and Assets 2 from the Lessee on an "as-is" basis at the consideration of RMB75,000,000 (equivalent to approximately HK$88,125,000) and RMB25,000,000 (equivalent to approximately HK$29,375,000) in cash pursuant to Finance Lease 1 and Finance Lease 2, respectively, payable to the Lessee within 12 months from the date of Finance Leases. The transfer agreements for Finance Lease 1 and Finance Lease 2 were entered into between Greengold Leasing and the Lessee on the date of the Finance Leases, effecting the terms of the Finance Leases in relation to the aforementioned transfer of the Assets from the Lessee to Greengold Leasing.

Such consideration or financing amount was determined following arm's length negotiations by the parties to the Finance Leases with reference to the original costs of Assets 1 and Assets 2 of approximately RMB76,416,000 (equivalent to approximately HK$89,789,000) and approximately RMB27,333,000 (equivalent to approximately HK$32,116,000), and their state including serviceable condition and depreciable life, which were reviewed by Greengold Leasing's experienced leasing team. The consideration amount for the transfer of ownership of the Assets will be funded through the internal resources of the Group.

Lease period

Greengold Leasing will lease back the Assets to the Lessee for its use and possession for a term of 8 years commencing from the day the consideration for the Assets transfer has been paid by Greengold Leasing.

Payments under the Finance Leases

In respect of Finance Lease 1, the total amount of lease payments receivable by Greengold Leasing is approximately RMB96,525,000 (equivalent to approximately HK$113,417,000), comprising (a) the lease principal payment of RMB75,000,000 (equivalent to approximately HK$88,125,000) and (b) the aggregate lease interest and other fees (including consultancy fee) and expenses under the relevant Incidental Documentation of approximately RMB21,525,000 (equivalent to approximately HK$25,292,000). Both the lease principal and interest will be paid quarterly over the lease period.

In respect of Finance Lease 2, the total amount of lease payments receivable by Greengold Leasing is approximately RMB32,175,000 (equivalent to approximately HK$37,806,000), comprising (a) the lease principal payment of RMB25,000,000 (equivalent to approximately HK$29,375,000) and (b) the aggregate lease interest and other fees (including consultancy fee) and expenses under the relevant Incidental Documentation of approximately RMB7,175,000 (equivalent to approximately HK$8,431,000). Both the lease principal and interest will be paid quarterly over the lease period.

The terms of the Finance Leases, including the lease principal and interest, were determined after arm's length negotiations between the parties to the Finance Leases with reference to the lending and interest rate environment including the loan prime rate published by the National Interbank Funding Center from time to time (for reference purpose, the prevailing loan prime rate was 3% as at the date of the Finance Leases), and adjustments taking into account the principal amount of the Finance Leases and availability of funds, the interest risk of financing and servicing costs over the lease period, the credit risks associated and the overall return target and risk tolerance of the Group for the Finance Leases on a case by case basis.

Termination and transfer of the Assets to the Lessee

The Lessee may terminate the Finance Leases provided that all outstanding amounts due thereunder and a compensation equivalent to 5 days lease interest of the total outstanding lease principal amount as at the time of early termination have been settled if there are no events of default caused by the Lessee under the Finance Leases. Otherwise, a compensation equivalent to 20% of the total outstanding lease interest amount as at the time of early termination have been settled. At the end of the lease period or in the event of an early termination of the Finance Leases, subject to the settlement of all outstanding amounts, the Lessee had agreed to purchase the relevant Assets at a nominal purchase price of RMB100 each (equivalent to approximately HK$117.5).

Guarantees

The Guarantors had executed guarantees on the date of the Finance Leases guaranteeing Greengold Leasing, effectively on a joint and several basis, the due and punctual settlement of any and all amount payable by the Lessee under the Finance Leases.

Pledges

Pursuant to the asset pledge agreements entered into between Greengold Leasing and the Lessee on the date of the Finance Leases, although the ownership of the Assets shall be transferred to Greengold Leasing as lessor as part of the Finance Leases, the Assets are treated as security of payment obligations of the Lessee under the Finance Leases and the Lessee may continue to utilize the relevant Assets during the lease term.

The Lessee and Guarantor 1 had executed a receivables pledge agreement in favour of Greengold Leasing, pledging their rights in receivables under certain sewage treatment agreements and their supplemental agreements (with pledged receivables in the total amount of RMB300,000,000 (equivalent to approximately HK$352,500,000)), as security of the Lessee's payment obligations under the Finance Leases.

The Lessee and Guarantor 1 had executed a pledge agreement in favour of Greengold Leasing, pledging their franchise and other derivative rights under certain sewage treatment agreements and their supplemental agreements, as security of the Lessee's payment obligations under the Finance Leases.

Additionally, Guarantor 1 had executed an equity pledge agreement in favour of Greengold Leasing, pledging 55% of its shareholding interests in the Lessee (with pledged receivables in the total amount of RMB300,000,000 (equivalent to approximately HK$352,500,000)), as security of the Lessee's payment obligations under the Finance Leases.

REASONS FOR AND BENEFITS OF ENTERING INTO THE FINANCE LEASES AND INCIDENTAL DOCUMENTATION

The entering into of the Finance Leases and Incidental Documentation is part of Greengold Leasing's ordinary and usual course of business and is expected to provide a stable revenue and cashflow to the Group.

The Directors consider that the Finance Leases and Incidental Documentation and the transactions contemplated thereunder are on normal commercial terms which are made on an arm's length basis and are fair and reasonable and in the best interests of the Group and the Shareholders as a whole.

FINANCIAL EFFECTS OF THE FINANCE LEASES ARRANGEMENT

The Finance Lease 1 is expected to attribute approximately RMB21,525,000 (equivalent to approximately HK$25,292,000) to the Group's turnover, from the aggregate interest income and other fees and expenses over the whole period of such finance lease.

As at the date when the consideration for the Assets 1 transfer is paid, the Group will also record on its balance sheet the finance lease receivables of RMB75,000,000 (equivalent to approximately HK$88,125,000) in respect of such finance lease and cash and bank balances of the Group will be decreased by RMB75,000,000 (equivalent to approximately HK$88,125,000).

The Finance Lease 2 is expected to attribute approximately RMB7,175,000 (equivalent to approximately HK$8,431,000) to the Group's turnover, from the aggregate interest income and other fees and expenses over the whole period of such finance lease.

As at the date when the consideration for the Assets 2 transfer is paid, the Group will also record on its balance sheet the finance lease receivables of RMB25,000,000 (equivalent to approximately HK$29,375,000) in respect of such finance lease and cash and bank balances of the Group will be decreased by RMB25,000,000 (equivalent to approximately HK$29,375,000).

INFORMATION ON THE ASSETS

Assets 1 comprise certain designated sewage treatment equipment and facilities of the Lessee situated in Quanzhou City, Fujian Province, the PRC.

Assets 2 comprise certain other designated sewage treatment equipment and facilities of the Lessee situated in Quanzhou City, Fujian Province, the PRC.

The Lessee will bear any maintenance, taxation and other costs and levies associated with the relevant Assets.

The Company has obtained the relevant confirmation as required under Rule 14.66(12) of the Listing Rules.

5. FINANCIAL AND TRADING PROSPECT OF THE GROUP

Looking ahead, the global economy is expected to maintain moderate growth, though the foundation for this growth remains uneven. Factors such as geopolitical conflicts, adjustments to international trade and economic policies, energy price fluctuations, and volatility in financial markets may continue to disrupt the global economy. The long-term positive fundamentals of the domestic economy remain unchanged; however, factors such as insufficient effective demand, adjustments in the real estate market, and economic structural transformation may still bring uncertainties and challenges to business operations. At the same time, population aging, the expansion of elderly care consumption, and the development of the silver economy represent long-term trends with a high degree of certainty. The government continues to improve the supply system for elderly care services, encourage social forces to participate in inclusive elderly care services, and promote the professionalization, standardization, and digital and intelligent development of elderly care services, thereby creating new development opportunities for the wellness and elderly care industry. Through years of dedicated development, the Group has accumulated a significant number of beds, brand influence, operational experience, and medical and elderly care service capabilities in the Guangdong-Hong Kong-Macao Greater Bay Area, laying a solid foundation for future cross-regional expansion and operational upgrades.

Facing both opportunities and challenges, the Group will adhere to its established strategic direction, steadfastly upholding its mission of "building a healthy life with Hing Yip Holdings". We will continue to leverage strategic resilience to navigate cyclical fluctuations and stay focused on our goal of becoming a premier technology-enabled health and wellness service provider in the Guangdong-Hong Kong-Macao Greater Bay Area. We will further optimize the "1+X" industrial structure and maintain a development model characterized by "core business leadership with synergistic diversification". For the wellness and elderly care main business, we will continue to build on our core advantages in healthcare, advance the integration of medical and elderly care resources and innovation in service models, enhance market-driven profitability, and adopt an expansion strategy that "combines industry mergers and acquisitions with independent investment" to steadily increase market coverage. For our supporting businesses, we will enhance operational resilience and risk management capabilities by deepening existing market potential, precisely cultivating new growth drivers, and strengthening risk management. We aim to stimulate new synergies within our "1+X" industrial structure by empowering our core business through technology, deepening the specialized development of our financial leasing segment, and improving operational efficiency in our civil explosives business. By strengthening post-investment management and adopting a Group-wide perspective, we will enhance cross-business synergy. At the same time, we will consolidate our lean operations and risk management systems, continue to deepen cost reduction and efficiency improvements, strengthen cash flow management and compliance, and maintain financial stability and operational security.

Wellness and Elderly Care Business: Improving quality and efficiency, steady expansion

As the Group's core segment and a key growth engine for future development, the wellness and elderly care business bears a significant strategic mission. The Group will concentrate resources to drive the business's transition from scale expansion toward operational quality improvement, efficiency enhancement, and the deepening of business model replication. The Group will steadily expand the business through methods such as independent investment, government-built and state-operated approach, project partnerships, and industry mergers and acquisitions, continuously enhancing market-driven profitability and the ability to generate operating cash flow to achieve high-quality, sustainable growth. The Group will implement a model of synergistic development between "medical and elderly care services" and "technological innovation in health", empowering health services with technologies and support innovative applications with professional medical and elderly care services, thereby establishing a mutually reinforcing business development framework.

Since the reporting period, following the successful bid for the Qingyuan City Social Welfare Institute and the Shaoguan City Zhenjiang District Elderly Care Service Center projects, the Group's business footprint has expanded from Foshan further to Qingyuan, Shaoguan, and Yunfu, initially forming a cross-regional development framework covering the Pearl River Delta, Northern Guangdong, and Western Guangdong. Moving forward, the Group will methodically advance the preparation and operational launch of new projects, continuously refine its cross-regional management, standardized services, professional talent development, and digital operation systems, and establish unified mechanisms for project preparation, staffing, service standards, quality control, and operational evaluation. By appropriately managing the pace of business expansion and shortening the incubation period for new projects, the Group aims to gradually transform its scale advantages, brand influence, and professional service capabilities into stable revenue, profits, and operating cash flow, thereby achieving coordinated development in business scale, quality, and efficiency.

In terms of medical and elderly care services, the Group will continue to deepen the integration of medical resources with elderly care services and refine the integrated medical and elderly care service system that encompasses medical diagnosis and treatment, rehabilitation and nursing, chronic disease management, and daily living assistance. By establishing unified service standards, operational processes, quality evaluation systems, and talent development mechanisms, the Group will develop a standardized operation model that is replicable and scalable, thereby providing management support for new projects and cross-regional expansion.

In terms of cross-border elderly care, the Group will capitalize on the market opportunities presented by the "growing trend of Hong Kong residents seeking elderly care in mainland China", and continue to refine mechanisms for care services, medical coordination, meal arrangements, family communication, and daily living support required by Hong Kong seniors, and enhance its capacity to deliver services under the "Guangdong Residential Care Service Scheme". The Group will strengthen marketing efforts and referral channel development in the Hong Kong market, promote the conversion of facility tours into actual admissions, and gradually cultivate a cross-border elderly care service brand with Greater Bay Area characteristics.

Science and Technology Business: Focusing on scenarios, driving synergistic transformation

The science and technology business serves as the Group's future-oriented growth initiative and a tool for industrial synergy. At this stage, the Group will prioritize generating market-driven revenue, reducing operating losses, and enhancing the enabling effect on our core business, while ensuring that investments are guided by practical application scenarios and commercial needs.

In terms of medical and elderly care technology, the Group will address practical needs such as elderly care facility operations, nursing service documentation, health management, emergency response, operational analysis, and customer services. The Group will advance the integrated application of information technology and medical/elderly care services, using digital tools to enhance service quality, management efficiency, and data utilization capabilities, thereby transforming technology investments into quantifiable operational improvements.

In terms of industrial internet business, the Group will continue to deeply explore the needs of existing clients, enhance capabilities in project acquisition, implementation, delivery, and ongoing services, and drive the business's evolution from single-project delivery toward standardized products and ongoing operational services, thereby reducing the costs of custom development and project delivery.

In terms of digital education business, the Group will build upon the existing project foundation of Panshi Education to steadily advance the implementation and market promotion of initiatives such as "Dual-Teacher+" and educational big data, while continuously validating product demand and business models.

For investment and M&A opportunities in the technology and technical innovation-driven health sectors, the Group will uphold the principles of synergy with its core business, clear business models, and controllable risks. It will strengthen pre-investment due diligence and post-investment management, prudently control investments in non-core areas, gradually expand the revenue scale of its technology business, narrow operating losses, and enhance its self-development capabilities.

Financial Leasing Business: Professional specialization and steady operations

The financial leasing business is a key pillar supporting the Group's operations. The Group will adhere to a development strategy centered on "market orientation, specialization, and differentiation", continuing to deepen its focus on municipal environmental protection sub-sectors such as water supply, wastewater treatment, combined heat and power (CHP), and urban heating. By leveraging its industry expertise, project experience, and professional service capabilities, the Group is committed to building a leading specialized environmental protection financial leasing company in China.

In terms of business expansion, the Group will focus on high-quality clients and projects with stable operating cash flows and strong repayment capacity, further improving the quality of the project pipeline, approval efficiency, and capital deployment efficiency. The Group will prudently capitalize on business opportunities arising from the upgrading of the environmental protection industry, the transition to a green and low-carbon economy, and the enhancement of infrastructure quality and efficiency, while continuously optimizing the structure of clients, industries, regions, and loan terms to avoid the mere pursuit of asset deployment scale.

In terms of capital management, the Group will actively expand channels for bank loans, bonds, and other financing sources, optimize funding sources, maturities, and costs, reasonably align the maturity structures of assets and liabilities, strengthen liquidity and interest rate risk management, and strive to maintain a reasonable and stable spread between project yields and funding costs.

In terms of risk management, the Group will adopt a proactive, full-lifecycle approach to risk management. We will continue to refine mechanisms for customer onboarding, project evaluation and approval, risk pricing, post-lease inspections, rent collection, and risk resolution, while strengthening dynamic monitoring of lessees' operational conditions, repayment capacity, and project cash flows. The Group will monitor concentration risks related to individual customers, industries, regions, and related projects, promptly identify and address potential risks, and ensure the overall stability of the quality of our lease assets.

Civil Explosives Business: Safety as the foundation, value optimization

The civil explosives business will adhere to safe development and prudent operations, treating workplace safety as the primary prerequisite for sustainable business growth. We will strictly fulfill our primary responsibility for workplace safety, methodically advance safety governance and technical upgrades to production lines, and continuously enhance intrinsic safety as well as the level of digital and intelligent production.

In the face of shrinking market demand and intensifying competition in the packaged explosives market, the Group will focus on core regions and key customers, optimize the product mix of packaged and blended explosives, strengthen project pipelines and market expansion in blasting and mining engineering, and fully leverage the advantages of its class I blasting operations qualification and class II general contracting qualification for mining engineering. We will increase the proportion of blended explosives in production capacity and intensify market promotion efforts to actively cultivate new business growth drivers.

The Group will continue to deepen business synergy with strategic industry partners in areas such as production technology, resource allocation, project acquisition, and market channels to enhance its capabilities in market expansion and project acquisition; it will actively implement synergies with Hongda Explosives Group in areas including production capacity utilization, product sales, safety management, production technology, project acquisition, and market channels, driving the transformation of the strategic partnership from the equity level to the operational level. At the same time, the Group will continue to advance cost reduction and efficiency improvements, "7S" lean management, and the intelligent transformation of production lines to enhance operational efficiency and operating profitability.

Looking ahead, the Group will maintain strategic resolve, adhere to its core business, and adhere to prudent operation. On the basis of effective risk control, it will seize opportunities in elderly care services, the silver economy, and green industries, drive quality and efficiency improvements in the core wellness and elderly care business, promote specialized development and industrial synergy across all business segments, and continuously enhance profit quality, operating cash flow, and sustainable development capabilities. With forward-looking and well-grounded future layout, the Group has successfully anchored the silver economy as a high-growth track, which is expected to continue delivering returns to shareholders. With the accelerated arrival of China's aging society and the continued favorable policies supporting the silver economy, we are full of confidence in the future. The management will continue to strengthen strategic execution, refined operational capabilities, and prudent risk management to drive the Group toward high-quality, sustainable growth and steadfastly create long-term value for shareholders, investors, and society.
