Business Update
and
Unaudited Operational Information for October 2026

The board of directors ("**Board**") of Hong Kong Technology Venture Company Limited ("**Company**") and together with its subsidiaries ("**Group**") is pleased to provide a business update on the Hong Kong Ecommerce Business including the unaudited operational information for October 2026.

(1) Business Update

In October 2026, the Group stepped up HKTVmall's price competitiveness and promotional intensity. Overall, the "Year-Round Discount Campaign"[i] initiatives in October 2026 were centred on two key business drivers:

Price leadership: HKTVmall strengthened its price competitiveness by benchmarking, on a daily basis, the prices of supermarket, personal care, pet food, infant formula and diaper products, etc., against the two major supermarket chains and their websites. The relevant products were priced at or below the benchmarked prices, with customers also entitled to an additional 15% discount upon meeting the specified minimum spending thresholds during the promotional periods.

Higher promotional frequency: The 15% discount covering the above-mentioned price-benchmarked products, was extended from weekends to four consecutive Fridays in October 2026, increasing the frequency of the promotional offers during the month. This was further complemented by the

"Weekday Exclusive Offers" and other tactical promotional offers, creating more reasons for customers to shop throughout the week.

Against this backdrop, the Hong Kong Ecommerce Business continued to deliver robust year-on-year growth in October 2026:

(i) Average Daily Gross Merchandise Value ("**GMV**") on Order Intake[ii] increased to HK$24.8 million (October 2025: HK$22.2 million), while monthly GMV on Order Intake[ii] reached HK$768 million (October 2025: HK$688 million), representing year-on-year increases of 11.7% and 11.6% respectively;

(ii) Number of unique customers reached 689,000, representing a year-on-year increase of 11.1% (October 2025: 620,000); and

(iii) Monthly Active Unique Devices[iii] remained stable at 1,603,000 (October 2025: 1,611,000).

Mr. Yeung Chu Kwong

Notes:

i. The details of the "Year-Round Discount Campaign" including “15% Discount Campaign” and “Weekday Exclusive Offers” are subject to change from time to time in response to the market condition and our internal strategy and planning.

ii. Gross Merchandise Value (“GMV”) on Order Intake represents the total gross sales dollar value for merchandise sold through a particular marketplace over a certain timeframe, before deduction of any discount offered by the marketplace, rebate used, cancellation and returns of merchandise sold. GMV on Order Intake cannot be directly derived to turnover as determined in accordance with HKFRS Accounting Standards.

iii. Effective from 1 September 2025, HKTVmall adopted a new internal data collection tool built on an open source solution to collect data on the number of active unique devices using HKTVmall Main App or Lite App (For July and August 2025, only data from Main App was collected). The purpose of the change is to enhance data protection regarding user data and to improve the verifiability of the computation methods and basis for the collected data. Data on unique device is extracted from our internal system and rounded to the nearest thousand. Data is collected based on the Universally Unique Identifier (“UUID”) of each device, which could be overlapping if a user reinstalls HKTVmall Main App or Lite App on the same device.

“Active unique device” is defined as the number of distinct devices’ UUIDs that engaged with HKTVmall Main App or Lite App within the specified date range with a visiting duration of more than 10 seconds, more than one page view, or at least one purchase made at HKTVmall Main App or Lite App. These data are unaudited and are not indicative of the Company’s business performance, financial condition or growth prospect. Readers should not place reliance on these data.
