INSIDE INFORMATION
UNAUDITED FINANCIAL RESULTS FOR THE QUARTER ENDED SEPTEMBER 30, 2026

This announcement is issued pursuant to Rule 13.09 of the Rules Governing the Listing of the Securities on The Stock Exchange of Hong Kong Limited and under Part XIVA of the Securities and Futures Ordinance (Cap. 571).

Li Auto Inc. (the "**Company**" or "**Li Auto**") is pleased to announce the unaudited condensed consolidated results of the Company and its subsidiaries and consolidated affiliated entities for the three months ended September 30, 2026.

The Company is pleased to announce the unaudited condensed consolidated results of the Company and its subsidiaries and consolidated affiliated entities for the three months ended September 30, 2026 (the "**Q3 Results**") published in accordance with applicable rules of the U.S. Securities and Exchange Commission (the "**SEC**").

The Q3 Results have been prepared in accordance with U.S. Generally Accepted Accounting Principles, which are different from the International Financial Reporting Standards.

Attached hereto as Schedule I is the full text of the press release issued by the Company on November 25, 2026 (U.S. Eastern Time), in relation to the Q3 Results, some of which may constitute material inside information of the Company.

This announcement contains statements that may constitute "forward-looking" statements pursuant to the "safe harbor" provisions of the U.S. Private Securities Litigation Reform Act of 1995. These forward-looking statements can be identified by terminology such as "will," "expects," "anticipates," "aims," "future," "intends," "plans," "believes," "estimates," "targets," "likely to," "challenges," and similar statements. Li Auto may also make written or oral forward-looking statements in its periodic reports to the SEC and The Stock Exchange of Hong Kong Limited (the "**HKEX**"), in its annual report to shareholders, in press releases and other written materials, and in oral statements made by its officers, directors, or employees to third parties. Statements that are not historical facts, including statements about Li Auto's beliefs, plans, and expectations, are forward-looking statements. Forward-looking statements involve inherent risks and uncertainties. A number of factors could cause actual results to differ materially from those contained in any forward-looking statement, including but not limited to the following: Li Auto's strategies, future business development, and financial condition and results of operations; Li Auto's limited operating history;

risks associated with extended-range electric vehicles and high-power charging battery electric vehicles; Li Auto's ability to develop, manufacture, and deliver vehicles of high quality and appeal to customers; Li Auto's ability to generate positive cash flow and profits; product defects or any other failure of vehicles to perform as expected; Li Auto's ability to compete successfully; Li Auto's ability to build its brand and withstand negative publicity; cancellation of orders for Li Auto's vehicles; Li Auto's ability to develop new vehicles; and changes in consumer demand and government incentives, subsidies, or other favorable government policies. Further information regarding these and other risks is included in Li Auto's filings with the SEC and the HKEX. All information provided in this announcement is as of the date of this announcement, and Li Auto does not undertake any obligation to update any forward-looking statement, except as required under applicable law.

The Company's shareholders and potential investors are advised not to place undue reliance on the Q3 Results and to exercise caution in dealing in securities of the Company.

As of October 31, 2026, in China, the Company had 481 retail stores in 159 cities, 527 servicing centers and Li Auto-authorized servicing shops operating in 217 cities, and 4,206 super charging stations in operation equipped with 23,163 charging stalls.

Product Lineup Update

- In September and October 2026, the Company launched the new Li MEGA, a high-tech flagship MPV, Li i9, a pioneering flagship family SUV, and 2026 Li i6, a pioneering five-seat SUV. These models feature the Company's latest proprietary technologies, including the MACH M100 chip and Lianshan Battery, together with other premium configurations. The new Li MEGA, Li i9, and 2026 Li i6 are priced at RMB509,800, RMB369,800, and RMB249,800, respectively. Deliveries of the new Li MEGA and Li i9 began in September, and deliveries of the 2026 Li i6 began in October.

Equity Financing for Chip Business

- On October 16, 2026, the Company announced the equity financing for Shanghai Mahe Xin Technology Co., Ltd. ("MHX Technology"), a subsidiary of the Company dedicated to its chip and domain controller business. The Company, through a wholly-owned subsidiary, and external investors will invest RMB1.0 billion and RMB625 million respectively in MHX Technology. Further details are available in the Company's announcement published on the website of HKEX on October 16, 2026.

US$1.0 Billion Share Repurchase Program

- Pursuant to its US$1.0 billion share repurchase program announced on March 24, 2026, the Company repurchased a total of 10,638,200 Class A ordinary shares at an aggregate consideration of HK$493.3 million on the HKEX and a total of 13,562,312 ADSs (representing 27,124,624 Class A ordinary shares) at an aggregate consideration of US$169.7 million on the Nasdaq in the third quarter of 2026. As of the date of this press release, the Company has repurchased a total of approximately 102.3 million Class A ordinary shares (including approximately 23.7 million ADSs) for an aggregate consideration of approximately US$694.4 million.

Global Expansion

- The Company reached new globalization milestones, launching its all-new Li L9 in the UAE in September 2026, making its European premiere at the Paris Motor Show in October 2026, and signing agreements with partners across Hong Kong, Thailand, Singapore, the Philippines, and Vietnam in November 2026 to advance its Asia-Pacific expansion. The Company plans to debut the right-hand-drive Li MEGA at the Thailand International Motor Expo and launch it in Hong Kong in December 2026, followed by the start of deliveries of Li 6 (the Europe-spec Li i6) in the Netherlands and Norway in the first quarter of 2027.

Power Day

- In October 2026, the Company hosted Power Day to introduce its proprietary Lianshan Electric Technology System, covering battery, electric drive, and charging infrastructure. The Company also launched the Lianshan Battery Warranty Program at the event, further underscoring its commitment to user experience and confidence in its proprietary electric technologies.

CEO and CFO Comments

Mr. Xiang Li, chairman and chief executive officer of Li Auto, commented, "The strength of our proprietary technologies, from the MACH M100 chip to the Lianshan Battery, is increasingly reinforcing our competitive moat. Through our user-centric, integrated software-hardware iteration, these capabilities enable tighter system integration that delivers differentiated user experiences while enhancing our supply chain resilience. This ultimately translated into stronger delivery performance in the third quarter. Looking ahead, we remain committed to advancing frontier technologies to transform user experiences and drive industry progress."

Mr. Tie Li, chief financial officer of Li Auto, added, "Despite ongoing industry-wide cost headwinds, our gross margin continued to improve sequentially, reaching 16.7% in the third quarter, and free cash flow turned positive. This performance reflects the strength of our optimized product mix, the efficiency gains from our proprietary technologies, and continued operational discipline. With an updated product lineup and ongoing advancements in our in-house technologies, we are well-positioned to navigate market dynamics and further strengthen our financial performance. Going forward, we will maintain our steadfast investments in deepening our technological moat and advancing global expansion, driving our next phase of growth and creating incremental shareholder value."

Financial Results for the Third Quarter of 2026

Revenues

- **Total revenues** were RMB28.8 billion (US$4.3 billion) in the third quarter of 2026, representing an increase of 5.4% from RMB27.4 billion in the third quarter of 2025 and an increase of 12.3% from RMB25.7 billion in the second quarter of 2026.

- **Vehicle sales** were RMB27.1 billion (US$4.0 billion) in the third quarter of 2026, representing an increase of 4.7% from RMB25.9 billion in the third quarter of 2025 and an increase of 12.6% from RMB24.1 billion in the second quarter of 2026. The increase in revenue from vehicle sales over the third quarter of 2025 was primarily due to the increase in vehicle deliveries, partially offset by a lower average selling price due to a different product mix. The increase in revenue from vehicle sales over the second quarter of 2026 was primarily attributable to a higher average selling price due to a different product mix.

- **Other sales and services** were RMB1.7 billion (US$259.6 million) in the third quarter of 2026, representing an increase of 16.2% from RMB1.5 billion in the third quarter of 2025 and an increase of 8.8% from RMB1.6 billion in the second quarter of 2026. The increase in revenue from other sales and services over the third quarter of 2025 and the second quarter of 2026 was mainly due to increased provision of services and sales of accessories, which is in line with higher accumulated vehicle sales.

Cost of Sales and Gross Margin

- **Cost of sales** was RMB24.0 billion (US$3.6 billion) in the third quarter of 2026, representing an increase of 4.9% from RMB22.9 billion in the third quarter of 2025 and an increase of 5.2% from RMB22.8 billion in the second quarter of 2026. The increase in cost of sales over the third quarter of 2025 was primarily due to the increase in vehicle deliveries and a higher average cost of sales due to a different product mix, partially offset by estimated costs related to the recall of Li MEGA in the third quarter of 2025. The increase in cost of sales over the second quarter of 2026 was primarily attributable to a higher average cost of sales due to a different product mix.

- **Gross profit** was RMB4.8 billion (US$718.3 million) in the third quarter of 2026, representing an increase of 7.8% from RMB4.5 billion in the third quarter of 2025 and an increase of 69.8% from RMB2.8 billion in the second quarter of 2026.

- **Vehicle margin** was 15.3% in the third quarter of 2026, compared with 15.5% in the third quarter of 2025 and 9.4% in the second quarter of 2026. The decrease in vehicle margin over the third quarter of 2025 was mainly due to a different product mix, partially offset by estimated costs related to the recall of Li MEGA in the third quarter of 2025. The increase in vehicle margin over the second quarter of 2026 was mainly attributable to a different product mix.

- **Gross margin** was 16.7% in the third quarter of 2026, compared with 16.3% in the third quarter of 2025 and 11.0% in the second quarter of 2026.

Operating Expenses

- **Operating expenses** were RMB5.5 billion (US$822.7 million) in the third quarter of 2026, representing a decrease of 2.3% from RMB5.6 billion in the third quarter of 2025 and an increase of 7.4% from RMB5.1 billion in the second quarter of 2026.

- **Research and development expenses** were RMB3.1 billion (US$464.9 million) in the third quarter of 2026, representing an increase of 4.8% from RMB3.0 billion in the third quarter of 2025 and an increase of 12.3% from RMB2.8 billion in the second quarter of 2026. Research and development expenses remained relatively stable over the third quarter of 2025. The increase in research and development expenses over the second quarter of 2026 was mainly due to increased costs to support expanding product portfolios and technologies.

- **Selling, general and administrative expenses** were RMB2.4 billion (US$352.2 million) in the third quarter of 2026, representing a decrease of 14.7% from RMB2.8 billion in the third quarter of 2025 and an increase of 3.7% from RMB2.3 billion in the second quarter of 2026. The decrease in selling, general and administrative expenses over the third quarter of 2025 was primarily due to decreased employee compensation and rental and other expenses associated with sales and servicing network. The selling, general and administrative expenses remained relatively stable over the second quarter of 2026.

Loss from Operations

- **Loss from operations** was RMB699.6 million (US$104.4 million) in the third quarter of 2026, representing a decrease of 40.6% from RMB1.2 billion in the third quarter of 2025 and a decrease of 69.6% from RMB2.3 billion in the second quarter of 2026. **Operating margin** was negative 2.4% in the third quarter of 2026, compared with negative 4.3% in the third quarter of 2025 and negative 9.0% in the second quarter of 2026. **Non-GAAP loss from operations** was RMB502.8 million (US$75.0 million) in the third quarter of 2026, representing a decrease of 44.9% from RMB912.5 million in the third quarter of 2025 and a decrease of 76.0% from RMB2.1 billion in the second quarter of 2026.

Net Loss and Net Loss Per Share

- **Net loss** was RMB309.7 million (US$46.2 million) in the third quarter of 2026, representing a decrease of 50.4% from RMB624.4 million in the third quarter of 2025 and a decrease of 81.8% from RMB1.7 billion in the second quarter of 2026. **Non-GAAP net loss** was RMB112.9 million (US$16.8 million) in the third quarter of 2026, representing a decrease of 68.6% from RMB359.7 million in the third quarter of 2025 and a decrease of 92.5% from RMB1.5 billion in the second quarter of 2026.

- **Basic and diluted net loss per ADS attributable to ordinary shareholders** were both RMB0.32 (US$0.05) in the third quarter of 2026, compared with RMB0.62 in the third quarter of 2025 and RMB1.69 in the second quarter of 2026. **Non-GAAP basic and diluted net loss per ADS attributable to ordinary shareholders** were both RMB0.12 (US$0.02) in the third quarter of 2026, compared with RMB0.36 in the third quarter of 2025 and RMB1.49 in the second quarter of 2026.

Cash Position, Operating Cash Flow and Free Cash Flow

- **Cash position**[7] was RMB88.2 billion (US$13.2 billion) as of September 30, 2026.

- **Net cash provided by operating activities** was RMB3.2 billion (US$481.6 million) in the third quarter of 2026, compared with RMB7.4 billion net cash used in operating activities in the third quarter of 2025 and RMB15.0 million net cash provided by operating activities in the second quarter of 2026. The change in net cash provided by operating activities over the third quarter of 2025 was mainly due to the decrease in payments made for inventory purchases. The change in net cash provided by operating activities over the second quarter of 2026 was mainly due to the increase in cash received from customers mainly resulting from a higher average selling price.

- **Free cash flow** was RMB2.0 billion (US$292.6 million) in the third quarter of 2026, compared with negative RMB8.9 billion in the third quarter of 2025 and negative RMB1.3 billion in the second quarter of 2026.

Non-GAAP Financial Measures

The Company uses non-GAAP financial measures, such as non-GAAP cost of sales, non-GAAP research and development expenses, non-GAAP selling, general and administrative expenses, non-GAAP income/(loss) from operations, non-GAAP net income/(loss), non-GAAP net income/(loss) attributable to ordinary shareholders, non-GAAP basic and diluted net earnings/(loss) per ADS attributable to ordinary shareholders, non-GAAP basic and diluted net earnings/(loss) per share attributable to ordinary shareholders and free cash flow, in evaluating its operating results and for financial and operational decision-making purposes. By excluding the impact of share-based compensation expenses, the Company believes that the non-GAAP financial measures help identify underlying trends in its business and enhance the overall understanding of the Company's past performance and future prospects. The Company also believes that the non-GAAP financial measures allow for greater visibility with respect to key metrics used by the Company's management in its financial and operational decision-making.

The non-GAAP financial measures are not presented in accordance with U.S. GAAP and may be different from non-GAAP methods of accounting and reporting used by other companies. The non-GAAP financial measures have limitations as analytical tools and when assessing the Company's operating performance, investors should not consider them in isolation, or as a substitute for financial information prepared in accordance with U.S. GAAP. The Company encourages investors and others to review its financial information in its entirety and not rely on a single financial measure.

The Company mitigates these limitations by reconciling the non-GAAP financial measures to the most comparable U.S. GAAP performance measures, all of which should be considered when evaluating the Company's performance.

For more information on the non-GAAP financial measures, please see the table captioned "Unaudited Reconciliation of U.S. GAAP and Non-GAAP Results" set forth at the end of this press release.

Safe Harbor Statement

This press release contains statements that may constitute "forward-looking" statements pursuant to the "safe harbor" provisions of the U.S. Private Securities Litigation Reform Act of 1995. These forward-looking statements can be identified by terminology such as "will," "expects," "anticipates," "aims," "future," "intends," "plans," "believes," "estimates," "targets," "likely to," "challenges," and similar statements. Li Auto may also make written or oral forward-looking statements in its periodic reports to the U.S. Securities and Exchange Commission (the "SEC") and The Stock Exchange of Hong Kong Limited (the "HKEX"), in its annual report to shareholders, in press releases and other written materials, and in oral statements made by its officers, directors, or employees to third parties. Statements that are not historical facts, including statements about Li Auto's beliefs, plans, and expectations, are forward-looking statements. Forward-looking statements involve inherent risks and uncertainties. A number of factors could cause actual results to differ materially from those contained in any forward-looking statement, including but not limited to the following: Li Auto's strategies, future business development, and financial condition and results of operations; Li Auto's limited operating history; risks associated with extended-range electric vehicles and high-power charging battery electric vehicles; Li Auto's ability to develop, manufacture, and deliver vehicles of high quality and appeal to customers; Li Auto's ability to generate positive cash flow and profits; product defects or any other failure of vehicles to perform as expected; Li Auto's ability to compete successfully; Li Auto's ability to build its brand and withstand negative publicity; cancellation of orders for Li Auto's vehicles; Li Auto's ability to develop new vehicles; and changes in consumer demand and government incentives, subsidies, or other favorable government policies. Further information regarding these and other risks is included in Li Auto's filings with the SEC and the HKEX. All information provided in this press release is as of the date of this press release, and Li Auto does not undertake any obligation to update any forward-looking statement, except as required under applicable law.
